Abrams,Sandra Edmonds Crewe,Alan J. Dettlaff,James Herbert Williams,2023 This volume offers an examination of the history of racism and White supremacy in the profession of social work current efforts to address and repair the harms caused by racism and White supremacy within the profession and forward thinking strategies for social work to be part of a broader societal movement to achieve an anti racist future *A Introduction to Teaching Casework Skills* Jean S. Heywood,2013-07-04 First published in 1998 This is Volume VI of twenty two in the Sociology of Social Theory and Methodology series Written in 1964 this is seen as the first study on the teaching of casework skill to be published in this country conveys vividly the accepted precepts and principles of casework practice and conveys them simply Throughout she has drawn attention to the inter related processes of study diagnosis and treatment and has laid stress on the importance of understanding the mechanisms of defence which she rightly considers basic to casework skill **Solution-based Casework** William C. Barrett,2020-08-13 Solution based casework is an approach to assessment case planning and case management that combines what we know from clinical social work with what we value about sound social work practice It is grounded in family centered social work and draws from clinical approaches within social work and mental health By integrating problem and solution focused approaches that form the clinical and social work traditions treatment partnerships are more easily formed between family caseworker and service provider Solution Based Casework is a skill based practice oriented text that provides the specific guidance that students and new practitioners need in order to make sense quickly of the complex tasks of assessment and case planning in child welfare

The book flows out of a long practice experience and was developed in consultation with workers and supervisors who were attempting to remedy problems viewed as contributing to recurrent abuse and neglect. It seeks to end adversarial relationships in casework and advocates case plans based on specific outcome skills rather than on those written with vague outcome goals measuring attendance in counseling. It serves as a common conceptual framework for integrating disparate segments of a response network thereby allowing all providers in a therapeutic system to work toward common goals. The text is divided into three sections. In Section I the conceptual history and theoretical foundations of solution based casework are presented so that the reader can place this approach to casework within the ongoing professional conversation about what constitutes sound practice. Section II addresses issues of assessment and case planning. Section III focuses on case management issues and how treatment team members experience a solution based casework approach.

The New Deal as a Triumph of Social Work S. Miller, 2016-04-13 *The New Deal as a Triumph of Social Work* concerns the hand the New Deal plays from the perspective of early American History in which government and business cooperation is assumed and economic rights are addressed collectively, whereas political rights are considered individually. The New Deal reconfigures this ratio of rights by folding social work into the aims of government. Miller describes the vital part Frances Perkins and her personal history play in this development.

The Rise of the Therapeutic State Andrew J. Polsky, 1993-07-26 Assuming that marginal citizens

cannot govern their own lives proponents of the therapeutic state urge casework intervention to reshape the attitudes and behaviors of those who live outside the social mainstream Thus the victims of poverty delinquency family violence and other problems are to be normalized But normalize to Andrew Polsky is a term that jars the ear as well it should when we consider what this effort is all about Here he investigates the broad network of public agencies that adopt the casework approach
