that sport and politics don't mix sport often provides an ideal theatre for the enacting of political protest The book contains studies of a range of protests stretching back to the death of suffragist Emily Davison at the Derby of 1913 and encompassing subsequent protests against the exclusion of women from the sporting arena the Berlin Olympics of 1936 Western imperialism the Mexico Olympics 1968 the state racism of apartheid in South Africa the effect of the global golf industry on ecosystems Israeli government policy resistance to the various attempts to bring the Olympic Games to Canadian and American cities the cutting of welfare benefits for disabled British citizens class privilege in the UK Russian anti gay laws and high public spending on sport mega events in Brazil The collection will be of interest to scholars and students with an interest in Sports Studies History Politics Geography Cultural Studies and Sociology      **Sport in Britain** Richard William Cox, 1991      *Sport and Physical Education: The Key Concepts* Tim Chandler, Mike Cronin, 2002-09-11 First published in 2002 Routledge is an imprint of Taylor Francis an informal company      **Sporting Ancestors** Keith Gregson, 2011-11-30 Sport in its many forms is an important part of British heritage and our family histories are littered with amateur and professional sporting references As people moved from country to town sport became fashionable and organised and our ancestors left us with records of their sporting deeds Newspaper reports minute books club histories team photographs and even cartoons are all available to the family historian Discover which sports were played when where and why Read example case studies find out how to begin your own research and learn what resources are available to help you progress From Victorian prizefighters to Edwardian ladies archery from inter war football teams to the shin kicking contests of the Cotswold Olimpics *Sporting Ancestors* is the essential guide for those wanting to explore what part sport has played in their national and family history

**Everyday Heroism: Victorian Constructions of the Heroic Civilian** John Price, 2014-01-16 Heroism in the 19th and early 20th centuries is synonymous with military endeavours imperial adventures and the great men of history There was however another prominent and influential strand of the idea which has until now been largely overlooked This book seeks to address this oversight and establish new avenues of study by revealing and examining everyday heroism acts of life risking bravery undertaken by otherwise ordinary individuals largely in the course of their daily lives and within quotidian surroundings Adopting an interdisciplinary approach John Price charts and investigates the growth and development of this important discourse presenting in depth case studies of The Albert Medal and the Carnegie Hero Fund alongside a nationwide analysis of heroism monuments and an exploration of radical approaches to the concept Unlike its military and imperial counterparts everyday heroism embraced the heroine and this study reflects that with an examination of female heroism Discovering why certain individuals or acts were accorded the status of being heroic also provides insights into those that recognized them Heroism is a flexible and malleable constellation of ideas shaped or constructed along different lines by different people so if you want to identify the characteristics of a group or society much can be learnt by studying those it holds up as heroic Consequently *Everyday Heroism Victorian Constructions of the Heroic Civilian* provides valuable

and revealing evidence for a wide range of social and cultural topics including class gender identity memory celebrity and literary and visual culture

**Port Jackson Pullers** Stephen Gard, 2024-05-21 Australia had sporting champions before it had self government The earliest champions were watermen A waterman's trade was working small boats and a waterman's sport was racing them In the many splendid bays and coves of Port Jackson and along reaches of the Parramatta River pullers won their rowing laurels and sometimes made their fortune Australia's first six champion oarsmen are the stars of Port Jackson Pullers These men led the way to the nation's future dominance of the World Sculling Championship Until now any history of Australian sculling began in the year 1876 when Edward Trickett won the Championship of the Thames But Trickett emerged from a well organised aquatic sport which was flourishing on the waters of Port Jackson decades before he first stepped into a boat John Brennan George Mulhall Thomas McGrath Richard Green William Hickey and James Punch six names that deserve honour in the world of rowing Champions all and all of humble origin they fathered and furthered Australian professional sculling Richard Green took it furthest of all to the River Thames where in 1863 he raced Britain's best for the Championship of the World Professional rowing was not established in Port Jackson without colour or controversy In rough and tumble colonial times good sportsmanship was an optional extra Port Jackson Pullers revives and explores this vigorous and occasionally villainous scene

**Our Own Devices** Edward Tenner, 2009-08-26 This delightful and instructive history of invention shows why National Public Radio dubbed Tenner the philosopher of everyday technology Looking at how our inventions have impacted our world in ways we never intended or imagined he shows that the things we create have a tendency to bounce back and change us The reclining chair originally designed for brief healthful relaxation has become the very symbol of obesity The helmet invented for military purposes has made possible new sports like mountain biking and rollerblading The typewriter created to make business run more smoothly has resulted in wide spread vision problems which in turn have made people more reliant on another invention eyeglasses As he sheds light on the many ways inventions surprise and renew us Tenner considers where technology will take us in the future and what we can expect from the devices that we no longer seem able to live without
