**Nonviolent Action** Ronald M. McCarthy, Gene Sharp, Brad Bennett, 2013-07-04 This comprehensive guide to research sources and theories about nonviolent action as a technique of struggle in social and political conflicts discusses the methods and techniques used by groups in various encounters. Although violence and its causes have received a great deal of attention, nonviolent action has not received its due as an international phenomenon with a long history. An introduction that explains the theories and research used in the study provides a practical guide to this essential bibliography of English language sources. The first part of the book covers case study materials divided by region and subdivided by country. Within each country, materials are arranged chronologically and topically. The second major part examines the methods and theory of nonviolent action, principled nonviolence, and several closely related areas in social science such as conflict analysis and social movements. The book is indexed by author and subject.      [The Encyclopedia of Peace Psychology](#), 2011-12-12 The Encyclopedia of Peace Psychology, available online through Wiley Online Library or as a three-volume print set, is a state-of-the-art resource featuring almost 300 entries contributed by leading international scholars that examine the psychological dimensions of peace and conflict studies. First reference work to focus exclusively on psychological analyses and perspectives on peace and conflict. Cross-disciplinary, linking psychology to other social science disciplines. Includes nearly 300 entries written and edited by leading scholars in the field from around the world. Examines key concepts, theories, methods, issues, and practices that are defining this growing field in the 21st century. Includes timely topics such as genocide, hate crimes, torture, terrorism, racism, child abuse, and more. A valuable reference for psychologists and scholars, students, and practitioners in peace and conflict studies. An ALA 2013 Outstanding Reference Source.      **Nonviolent Conflict and Civil Resistance** Sharon Erickson Nepstead, Lester R. Kurtz, 2012-10-08 This volume covers how regime changes, political movements, and nonviolent unrest develop and then shape the political decisions of both civil society and the state. Chapter discussions include the civil rights movement in Northern Ireland, youth movements in Post-Communist states, and the efforts of nonviolent INGOs.      *Conflict Transformation* Rhea A. DuMont, Tom H. Hastings, Emiko Noma, 2013-02-28 Seeking to expand the transformative aspect of conflict resolution, the contributors to this edited collection have focused on gathering scholarship from underrepresented voices and viewpoints in the field, the emerging discipline. Most mainstream conflict resolution seems to look either at interpersonal conflict or international conflict without much focus on the differing individuals and social structures involved. These peer-reviewed essays add significant findings to those gaps in the literature. The editors and contributors are perhaps not coincidentally mostly women and people of color whose voices are often absent from other collections.
