Dalla,2009-01-01 This book is comprised of nineteen chapters written by scholars with expertise on immigrant families representing every corner of the globe _from Africa and India to Europe and Central America It provides a springboard from which to answer the application and what now questions for those who work with immigrant families in a variety of capacities _from academicians and researchers to educators and human service providers *Substance Abuse Prevention* Kar Snehendu,2020-06-10 In thirteen chapters twenty four authors share their analyses concerns and conclusions in several domains including the meaning and dynamics of multiculturalism affecting prevention intervention relative risks and knowledge gaps across ethnic groups social trends affecting health risks and substance abuse lessons learned from substance abuse research and prevention role of the media promises and limits of the new public health paradigm for assessment policy development assurance of preventive services and social action and empowerment for prevention in partnership with the public *Experimental Research Designs in Social Work* Bruce A.

Thyer, 2023-08-22 Experimental research is of great value to social work. Well designed studies help social workers understand which approaches are most effective with implications for both practice with individual clients and social policy more broadly. Many social work practitioners conduct studies that randomly assign clients to specific interventions and various control groups in order to assess policy outcomes. However, social work programs often do not teach experimental methods. Critics continue to assert that true experiments are impractical, unethical, or simply too blunt a tool to evaluate the effects of social work practices and policies. This book presents a comprehensive overview of the theory and practice of experimental research in the field of social work. Bruce A. Thyer describes the logic and design of experimental methods, helping readers understand the basics and then exploring increasingly complex and sophisticated research. He illustrates key principles through examples of how social workers have evaluated real world practice approaches. The book considers recruitment and representation of marginalized groups, the ethical issues involved in the design and conduct of experiments, and how social work researchers can ensure that all participants in an experimental study benefit from effective care. An appendix contains a chronological listing of published studies authored by social workers who conducted experimental research. Accessible to social work undergraduate, graduate, and doctoral students alike and valuable for professionals from clinical workers to policy analysts, this book demonstrates the utility of experimental research across the entire spectrum of social work practice.

Social Work and Integration in Immigrant Communities Kathleen Valtonen, 2016-03-03 There has been a marked rise in global migration with many former countries of emigration becoming immigration destinations. As a result of this, social workers increasingly encounter immigrant clients and are called upon to work in their communities. At the same time, in the field of research, theories, conceptual frames, perspectives, and discourse have materialized and evolved to make sense of contemporary events. Social work professionals, researchers, and students must therefore need to be apprised of current thinking, research, and discourse in the field of integration. Valtonen familiarizes the reader with the variation in national policies, institutional arrangements, and service responses which all provide rich contrasts and insights into a breadth of policy possibilities. Since macro level developments in migration carry direct implications for social work as a discipline and a profession with a central stake and role in immigrant wellbeing, this book provides salient information to help with visioning in the profession, defining appropriate and concerted responses, and building robust standing in the field, as well as promoting the linking of disciplinary and multidisciplinary research with practice.

The Oxford Handbook of Social Work in Health and Aging Daniel B. Kaplan, Barbara Berkman, 2016 This Second Edition of the Handbook addresses the evolving interdisciplinary health care context and the broader social work practice environment, as well as advances in the knowledge base which guides social work service delivery in health and aging. This includes recent enhancements in the theories of gerontology, innovations in clinical interventions, and major developments in the social policies that structure and finance health care and senior services. In addition, the policy reforms of the 2010 Patient Protection and Affordable Care Act

set in motion a host of changes in the United States healthcare system with potentially profound implications for the programs and services which provide care to older adults and their families In this volume the most experienced and prominent gerontological health care scholars address a variety of populations that social workers serve and the arenas in which they practice followed by detailed recommendations of best practices for an array of physical and mental health conditions The volume s unprecedented attention to diversity health care trends and implications for practice research policy make the publication a major event in the field of gerontological social work This is a Must Read for all social work social work educators practitioners and students interested in older adults and their families

Asset Assessments and Community Social Work Practice Melvin Delgado, Denise Humm-Delgado, 2013-01-18 Needs assessments identify the needs for services answering questions about who needs these services and in what priority Asset assessments focuses on existing resources combining both needs and asset assessments helps find the gaps in these services and is useful to organizations and communities Assets assessments differ dramatically from their needs assessments counterparts along a variety of key dimensions Asset assessments generally attempt to 1 focus on capacities rather than problems needs 2 actively seek community participation and develop collaborative partnerships 3 seek to tap and enhance community competencies 4 seek to equalize power between residents and professionals 5 be proactive rather than reactive to problems and 6 stress community contributions and ownership of the process and are thus empowerment driven

Community Organizing and Community Building for Health and Welfare Meredith Minkler, 2012-07-16 The third edition of Community Organizing and Community Building for Health and Welfare provides new and more established ways to approach community building and organizing from collaborating with communities on assessment and issue selection to using the power of coalition building media advocacy and social media to enhance the effectiveness of such work With a strong emphasis on cultural relevance and humility this collection offers a wealth of case studies in areas ranging from childhood obesity to immigrant worker rights to health care reform A tool kit of appendixes includes guidelines for assessing coalition effectiveness exercises for critical reflection on our own power and privilege and training tools such as policy bingo From former organizer and now President Barack Obama to academics and professionals in the fields of public health social work urban planning and community psychology the book offers a comprehensive vision and on the ground examples of the many ways community building and organizing can help us address some of the most intractable health and social problems of our times Dr Minkler s course syllabus Although Dr Minkler has changed the order of some chapters in the syllabus to accommodate guest speakers and help students prep for the midterm assignment she uses she arranged the actual book layout in a way that should flow quite naturally if instructors wish to use it in the order in which chapters appear
