Dilemmas in Human Services Management Raymond Sanchez Mayers, PhD,Federico Souflee, Jr., PhD,Dick J. Schoech, PhD,1994-05-11 Drawing on their experience as teachers and social workers the authors introduce students to the complex skills necessary for effective management in human service administration In this textbook they present actual problems through concise case studies with study guide questions for discussion The illustrative case studies cover a broad range of situations and dilemmas that a human services student can expect to encounter as an administrator from sexual harassment to ethical concerns By focusing on human service agencies the authors fill a gap in social work literature for administration planning and management students *Risk Management in Social Work* Frederic G. Reamer,2014-11-25 This new text is based on Frederic G Reamer s key reference for practitioners Social Work Malpractice and Liability Strategies for Prevention

Rooted in his own experiences as an expert witness in court and licensing board cases the volume introduces the concepts of negligence malpractice and liability before turning to the subject of risk management Reflecting on recent legal cases and research Reamer identifies a variety of problems in the social work field relating to privacy and confidentiality improper treatment and delivery of services impaired practitioners supervision consultations and referrals fraud and deception and termination of service He also explores the unprecedented ethical challenges created by new digital technologies such as online counseling video counseling and practitioners use of social networks and social media and describes current issues relating to HIPAA compliance and access to electronic health records EHR and health information exchanges HIE He concludes with practical suggestions for social workers named as defendants in lawsuits and respondents in licensing board complaints

Environmental Practice in the Human Services Bernard Neugeboren, 2013-01-11 *Environmental Practice in the Human Services* points to the need for the human services to return to their historic mission of environmental change It moves beyond the more general conceptual emphasis on person in environment toward the development of an environmental practice technology based on an intervention model which prescribes specific micro and macro roles and functions It may open the way to recapturing the conceptual breadth which characterized the first 40 years of social work as a professional and occupational entity The ecological perspective in social work has fostered an interest in the impact of social environments on service consumers *Environmental Practice in the Human Services* tries to rectify the historical imbalance in the human services that has emphasized people changing methods giving secondary emphasis to environmental change It instructs students preparing for practice in the human services as well as agency practitioners in the knowledge and skills necessary in environmental practice Cases in environmental practice are used to illustrate how these skills are utilized in actual practice situations The book's scope includes practice at the direct service administration planning and social policy levels it integrates micro and macro practice and shows how these two levels of practice are interdependent This enables human service practitioners to create and or modify social environments to enhance the functioning of clients being served in human service programs Topics covered include important skills in environmental practice including decisionmaking negotiating and leadership community practice and resource coordination social support the impact of organizational environments on practice environmental practice for the chronically disabled Author Neugeboren's approach is unique in its in depth focus on environmental practice applying concepts of social environment to specific practice roles This practice specific content which provides tools needed for environmental practice is in contrast to existing texts on the social environment which are very theoretical and not integrated with practice He includes material from the field of social ecology which has not been included in existing texts It shows how practitioners and administrators planners and policymakers can facilitate and support each other's work Reading *Environmental Practice in the Human Services* will enlighten students and practitioners with specific skills for impacting on different social environments to enhance client benefit It tells how a direct

service practitioner can determine which organizational environments are suitable for particular client needs in making agency referrals It also provides administrators with information about designing planning and managing agencies with functional organizational environments which achieve effective services

Competency in Generalist Practice Elizabeth Moore Plionis, 2006-11-09 Competency in Generalist Practice features an original and timely social work practice model that will transform the way generalist and evidence based practice are taught Writing with outstanding clarity and sense of purpose Elizabeth Moore Plionis guides students in the use of a decision tree that will help them take a conscious theory and evidence based approach to solving the complex problems they will face as social workers This book is a concise but powerful tool for learning how to become an effective social work practitioner Presents direct and indirect practice in alternate chapters rather than separate volumes comparing and contrasting them in an easy to grasp manner Includes chapters on topics rarely found in comparable texts including professional regulatory and fiduciary responsibilities case and class advocacy and service delivery to impoverished families and children Covers important macro practice skills such as non clinical communication crisis management and the use of groups in policy management and community and social change Features flow charts decision schemas and examples of process recordings that vividly illustrate the material Incorporates both traditional and new theories into the discussion linking them to technique and putting them in the context of direct and indirect methods at each step of the decision hierarchy Supplemented by a companion website that contains slides and a teachers guide for download
