## **Social Work Year 1954:**

*One Hundred Years of Social Work* Therese Jennissen, Colleen Lundy, 2011-02-17 *One Hundred Years of Social Work* is the first comprehensive history of social work as a profession in English Canada. Organized chronologically, it provides a critical and compelling look at the internal struggles and debates in the social work profession over the course of a century and investigates the responses of social workers to several important events. A central theme in the book is the long standing struggle of the professional association, the Canadian Association of Social Workers, and individual social workers to reconcile advancement of professional status with the promotion of social action. The book chronicles the early history of the secularization and professionalization of social work and examines social workers' roles during both world wars, the Depression, and in the era of postwar reconstruction. It includes sections on civil defence, the Cold War, unionization, social work education, regulation of the profession, and other key developments up to the end of the twentieth century. Drawing on extensive archival research as well as personal interviews and secondary literature, the authors provide strong academic evidence of a profession that has endured many important changes and continues to advocate for a just society and a responsive social welfare state. *One Hundred Years of Social Work* will be of interest to social workers, social work students, and educators, social historians, professional associations, and anyone interested in understanding the complex nature of people and institutions.

**Public Health Service Publication**, **Psychiatric Social Work in Great Britain** Noel Timms, 2018-12-07 Originally published in 1964, *Psychiatric Social Work* looks at psychiatric social work as an established form of professional social work in Great Britain as well as the mental health policy introduced at the time of the book's publication. The book looks at how social workers in the 1960s were striving for professional status and the interest that grew around their professional status during this period. The book examines changes and issues in their training and a general picture of those who qualified. It looks at the careers of a group of social workers and follows the developments in child guidance, mental hospitals, and the care of the mentally ill in the community. The contribution of social workers is discussed and their activities of the professional associations in training and professional development are examined. This book will act as an important historical look at the changes to social work.
