EXPLORING THE SOCIO-CULTURAL PERSPECTIVE OF LITERACY

Create Connections

Create connections between school and home:

What might this look like?

Involve families in literacy activities (e.g. inviting them into school for literacy activities)

Encouraging parents to read with their children (e.g. choosing materials which their children enjoy, even things like scripts or computer games)

Recognising the value of **home language & culture** in supporting literacy development.

Value the Diversity

Recognise and value the diverse backgrounds in the classroom:

What might this look like?

Acknowledge, learn, and appreciate that students come from different cultural, linguistic, and socio-economic backgrounds.

Create a classroom environment that **respects and values each student's identity** and align learning of literacy with this (e.g., incorporate different learning styles).

Classroom Culture

Foster a positive classroom culture:

What might this look like?

Create a classroom culture that **values and encourages literacy**, and where all students feel safe and supported.

Set high expectations for literacy achievement, provide opportunities for students to share their ideas and perspectives, and create a **supportive and inclusive learning environment**.

Collaboration

Provide opportunities for student collaboration:

What might this look like?

Allow students the opportunity to **learn from each other's** perspectives and experiences.

Create opportunities for students to work together in groups, share their ideas, and learn from one another (for example, using drama, role play, or information exchange activities)

Improving socio-cultural perspectives towards literacy requires a commitment to creating a culturally responsive & inclusive learning environment that values & respects diversity. By incorporating these into teaching practices, we can help all students develop the literacy skills they need to succeed.

Social Context Reform Paul Thomas, Brad J. Porfilio, Julie Gorlewski, Paul R. Carr, 2014-06-20 Currently both the status quo of public education and the No Excuses Reform policies are identical The reform offers a popular and compelling narrative based on the meritocracy and rugged individualism myths that are supposed to define American idealism This volume will refute this ideology by proposing Social Context Reform a term coined by Paul Thomas which argues for educational change within a larger plan to reform social inequity such as access to health care food higher employment better wages and job security Since the accountability era in the early 1980s policy public discourse media coverage and scholarly works have focused primarily on reforming schools themselves Here the evidence that school only reform does not work is combined with a bold argument to expand the discourse and policy surrounding education reform to include how social school and classroom reform must work in unison to achieve goals of democracy equity and opportunity both in and through public education This volume will include a wide variety of essays from leading critical scholars addressing the complex elements of social context reform all of which address the need to re conceptualize accountability and to seek equity and opportunity in social and education reform
