**Rethinking Securities in an Emergent Technoscientific New World Order** Munyaradzi Mawere,Artwell Nhemachena,2018-03-13 The emergent technoscientific New World Order is being legitimised through discourses on openness and inclusivity The paradox is that openness implies vulnerability and insecurities particularly where closure would offer shelter While some actors including NGOs preach openness of African societies Africans clamour for protection restitution and restoration Africans struggle for ownership and access to housing for national cultural religious economic and social belonging that would offer them the necessary security and protection including protection from the global vicissitudes and matrices of power In the presence of these struggles to presuppose openness would be to celebrate vulnerability and insecurities This book examines ways in which emergent technologies expose Africans and more generally peoples of the global south to political economic social cultural and religious shocks occasioned by the colonality of the global matrices of power It notes that there is the use by global elites of technologies to incite postmodern revolutions designed to compound the vicissitudes and imponderables in the already unsettled lives of people north and south Particularly targeted by these technologies are African and other governments that do not cooperate in the fulfilment of the interests of the hegemonic global elites The book is handy to students and practitioners in security studies African studies development studies global studies policy studies and political science      **Negotiating Childhoods** ,2020-05-18 Negotiating Childhoods engages in problematic positioning of the child within society by bringing childhood into the centre of our ontological and epistemological investigations These essays offer a multidisciplinary approach and explore the ways in which such issues impact on our conceptualizing of childhood and the lived realities of children      *Social Work Practice in Africa* M. Twikirize,Helmut Spitzer,2019-01-10 The importance of integrating indigenous knowledge systems into mainstream social work and ensuring context specific culturally relevant practice has long been emphasised in Africa and the Global South This book based on empirical research presents a selection of indigenous and innovative models and approaches of problem solving that will inspire social work practice and education At the core of these models lies a

conceptual understanding of the community as the overarching principle for effective social work and social development in African contexts The empirical part of the book has a focus on East Africa and highlights case examples from Rwanda Tanzania Uganda Burundi and Kenya The book is intended for use by those involved in social work and social development practice social work educators students as well as policy makers It is relevant not just for audiences in Africa but also the global social work community especially those interested in promoting culturally relevant social work Decentralization,

Local Governance, and Social Wellbeing in India Rani Mullen,2017-05-18 Over the past three decades decentralization has been seen as the means for allowing local governments to become more accountable and for encouraging the deepening of democracy and the building of village communities By drawing on original village level case studies of six villages in three different Indian states this book presents a systematic analysis of the impact of decentralization on the delivery of social services at the local level within India Supplementing national and state level data and analyzing the different historical legacies in each state the book argues that decentralization is not simply a function of the structure of the decentralization program or of the relationship between higher tiered and local government Rather the possibility of decentralization affecting social outcomes depends on several interacting factors including the distribution of power among local elites the dynamics of political competition and the level of civil society mobilization By examining constitutionally mandated political decentralization across India this book identifies the circumstances under which local government structures can lead to improved social services and societal wellbeing as well as presenting a substantial contribution to studies on South Asian Politics and Local Government **Changing Social Norms to Universalize Girls' Education in East Africa** Auma

Okwany ,Rekha Wazir,2016-12-20 The educational experience reproduces gender ideologies and social norms which interact with schooling for girls in very particular ways and are implicated in their persistent gendered exclusion and marginalization The authors in this volume focus on this link by taking a social norms approach to profile the processes strategies of and research on community led interventions The chapters are paced around a pilot project that critically adapted a successful model in India to develop context appropriate integrated approaches to universalizing secondary education for girls in purposively selected rural and urban poor contexts in Kenya and Uganda The analyses provide reflexive documentation of the successes and challenges of project implementation activities that have successfully contested girls exclusion and marginalization in education This requires a sustained focus on the link between social and educational institutions and policies and working in an integrated manner with a range of policy actors including young people and targeted communities to bring about significant and sustainable change Pluralism in Ecosystem Governance ,2022-06-24 Pluralism in Ecosystem Governance Volume 66 in the Advances in Ecological Research series highlights new advances in the field with this release including chapters on An exploration of the effects of political pluralism on decision making for sustainability Implications for membership on public sector boards Transdisciplinary agroecological research on biodiversity and

ecosystem services for sustainable and climate resilient farming systems in Malawi Pluralistic approaches in research advance farming and freshwater sustainability efforts in the Great Lakes Basin Pluralism to manage the complexity of ecosystem services co production Of green spaces and gray areas An Ethnography of Ecosystem Governance in Peri Urban Bangaluru India and more Additional chapters include Charting Evidence based Biodiversity Pathways for Sustainable Development in Canada Community scientist collaboration in the creation management and research for two new National Wildlife Areas in Arctic Canada Rigid social ecological governance how discourse inertia has limited pluralism in Do ana and a variety of other topics Provides the authority and expertise of leading contributors from an international board of authors Presents the latest release in the Advances in Ecological Research series Updated release includes the latest information on Pluralism in Economic Governance      Transatlantic Space Politics Sheng-Chih Wang,2013-05-29 This book examines transatlantic politics through an analysis of 60 years of US European strategic interaction in space The significance of space politics for the study of transatlantic relations receives surprisingly little scholarly attention As a theatre of interaction transatlantic space politics reflects the vicissitudes of European and US power in the international system An understanding of space politics is therefore vital in understanding the status and prospect of the transatlantic order Using established IR theories the author investigates transatlantic space politics and proposes a theoretical explanation which is distinct from the conventional wisdom of the transatlantic security community More specifically he distinguishes between the constitutive and regulatory effects of the transatlantic security community an approach rarely employed in other research in the field Overall this book suggests not only that the transatlantic institutional pillar requires repair but also that the ideational factors need to be revitalised in order to consolidate the transatlantic alliance This book will be of much interest to students of space power transatlantic politics strategic studies foreign policy and IR security studies in general      **Local Knowledge, Global Stage** Frederic W. ### **Understanding Family Change and Variation** Jennifer A. Johnson-Hanks, Christine A. Bachrach, S. Philip

Morgan, Hans-Peter Kohler, 2011-08-27 Fertility rates vary considerably across and within societies and over time Over the last three decades social demographers have made remarkable progress in documenting these axes of variation but theoretical models to explain family change and variation have lagged behind At the same time our sister disciplines from cultural anthropology to social psychology to cognitive science and beyond have made dramatic strides in understanding how social action works and how bodies brains cultural contexts and structural conditions are coordinated in that process Understanding Family Change and Variation Toward a Theory of Conjunctural Action argues that social demography must be reintegrated into the core of theory and research about the processes and mechanisms of social action and proposes a framework through which that reintegration can occur This framework posits that material and schematic structures profoundly shape the occurrence frequency and context of the vital events that constitute the object of social demography Fertility and family behaviors are best understood as a function not just of individual traits but of the structured contexts in which behavior occurs This approach upends many assumptions in social demography encouraging demographers to embrace the endogeneity of social life and to move beyond fruitless debates of structure versus culture of agency versus structure or of biology versus society
