Social Role Of Art 34 Essays:

Left Shift John A. Walker, 2001-12-21 John Walker brings to vivid life a neglected period in twentieth century art history. He re-creates a time when visual fine artists under the impact of left wing politics, women's liberation and the gay movement were seeking to re-establish a social purpose. His story is one of a struggle for art by contending factions in the art world in which artists, curators, critics and organisations both establishment and alternative, key exhibitions, galleries and magazines all play a part. He offers welcome insight into the work of the key players and the many forms they used to express radical engagement in the events of the decade. *Concerning Stephen Willats and the Social Function of Art* Sharon

Irish, 2020-12-10 This book on Stephen Willats pulls together key strands of his practice and threads them through histories of British cybernetics, experimental art and urban design. For Willats, a cluster of concepts about control and feedback within living and machine systems, cybernetics offered a new means to make art relevant. For decades, Willats has built relationships through art with people in tower blocks, underground clubs, middle class enclaves and warehouses on the Isle of Dogs to investigate their current conditions and future possibilities. Sharon Irish's study demonstrates the power of Willats's multi-media art to catalyze communication among participants and to upend ideas about audience and art. Here, Irish argues that it is artists like Willats who are now the instigators of social transformation. **The Proletarian Wave** Sunyoung

Park, 2020-05-11 Socialist doctrines had an important influence on Korean writers and intellectuals of the early twentieth century. From the 1910s through the 1940s, a veritable wave of anarchist, Marxist, nationalist and feminist leftist groups swept the cultural scene with differing agendas as well as shared demands for equality and social justice. In *The Proletarian Wave*, Sunyoung Park reconstructs the complex mosaic of colonial leftist culture by focusing on literature as its most fertile and enduring expression. The book combines a general overview of the literary left with the intellectual portraits of four writers whose works exemplify the stylistic range and colonial inflection of socialist culture in a rapidly modernizing Korea. Bridging Marxist theory and postcolonial studies, Park confronts Western preconceptions about third world socialist cultures while interrogating modern cultural history from a post-Cold War global perspective. *The Proletarian Wave* provides the first historical account in English of the complex interrelations of literature and socialist ideology in colonial Korea. It details the origins, development and influence of a movement that has shaped twentieth century Korean politics and aesthetics alike through an analysis that simultaneously engages some of the most debated and pressing issues of literary historiography: Marxist criticism and postcolonial cultural studies. Studies on the Abuse & Decline of Reason F.A. Hayek, 2024-05-31 Studies on the Abuse and Decline of Reason is a series of fascinating essays on the study of social phenomena How to best and most accurately study social interactions has long been debated intensely and there are two main approaches the positivists who ignore intent and belief and draw on methods based in the sciences and the nonpositivists who argue that opinions and ideas drive action and are central to understanding social behavior F A Hayek's opposition to the positivists and their claims to scientific rigor and certainty in the study of human behavior is a running theme of this important book Hayek argues that the vast number of elements whose interactions create social structures and institutions make it unlikely that social science can predict precise outcomes Instead he contends we should strive to simply understand the principles by which phenomena are produced For Hayek this modesty of aspirations went hand in hand with his concern over widespread enthusiasm for economic planning As a result these essays are relevant to ongoing debates within the social sciences and to discussion about the role government can and should play in the economy

The Critical Twilight (Routledge Revivals) John Fekete, 2014-08-07 First published in 1977 this book was the first to map extensively the ideological typography of the Anglo American tradition of literary theory It interrogates comprehensively and in detail the assumptions and categorical development within critical ideas from I A Richards and T S Eliot through John Crowe Ransom and the New Criticism to Northrop Frye and Marshall McLuhan This analysis reveals the Anglo American tradition of literary

cultural theory is most properly intelligible within the overall field of social consciousness as an ideology of progressive cultural rationalization Against a background of ideological development since nineteenth century Romanticism John Fekete illuminates the boundaries of literary ideology in relation to the shapes and changes of modern culture and society **Art Index** Alice Maria Dougan, Margaret Furlong, 1983 *Women Artists in Interwar France* Paula J. Blanton, 2015-03-12 The history of the epic ranging from the heroic narratives of cultural origin found in Homer and Virgil to the tumultuous theological and political conflicts depicted by Dante or Milton is nearly as old as literature itself But the epic is also made and remade by its present adapted to the pressures and formal necessities of its particular cultural moment

Examining modernist poetry's epic turn in the years between the two World Wars C D Blanton's ambitious study charts the inversion of what Ezra Pound called a poem including history into a fractured and hollowed form a negated epic that struggles not only to acknowledge the distant past but also to conceive its immediate present Compelled to register the force of a larger historical totality it cannot directly represent the negated epic reorients the function of poetic language trading expression or signification for concrete but often buried reference remaking the poem as an instrument of dialectical reason in the process Epic Negation turns first to T S Eliot productively pairing *The Waste Land* with *The Criterion* the literary review it announced in 1922 to argue that Eliot's journal systematically realizes the editorial and critical method through which modernism's epochal poem sought to think its moment whole developing a totalizing account of interwar culture Dividing the epic's critical function from its style *The Criterion* not only includes history differently but also formulates an intricately dialectical account of the crisis facing bourgeois society formed in the image of a Marxism it opposes World War II's approach serves to organize the second half of Blanton's study as he traces the dislocated formal effects of a serial epic gone underground In the tense elegies and pastorals of W H Auden and Louis MacNeice lyric forms cryptically divulge the determining force of unmentionable but universal events dividing experience against consciousness what can be said in a poem from what cannot And finally with H D's *Trilogy* written under bombardment in a terse exchange with Freud's famous rewriting of biblical history in *Moses and Monotheism* the poetic image itself lapses consigning epic to the silent historical force of the unconscious Uniquely conceived and deftly executed *Epic Negation* transforms our understanding of modernist poetics and the concept of epic more broadly

Complicity and Responsibility in Contemporary African Writing Minna Johanna Niemi,2021-05-03 This book investigates the many ways in which contemporary African fiction has reflected on themes of responsibility and complicity during the postcolonial period Covering the authors Ayi Kwei Armah Tsitsi Dangarembga Nuruddin Farah Michiel Heyns and J M Coetzee the book places each writer s novels in their cultural and literary context in order to investigate similarities and differences between fictional approaches to individual complicity in politically unstable situations In doing so the study focuses on these texts representations of discomfiting experiences of being implicated in harm done to others in order to show that it is precisely during times of political crisis that questions of moral responsibility and implicatedness in compromised conduct become more pronounced The study also challenges longstanding western amnesia concerning responsibility for historical and present day violence in African countries and juxtaposes this denial of responsibility with the western literary readership s consumption of narratives of African suffering

The study instead proposes new reading habits based on an awareness of readerly complicity and responsibility. Drawing insights from across political philosophy and literary theory, this book will be of interest to researchers of African literature, postcolonial studies, and peace and conflict studies.
