Social Work With The Aging:

Social Work with the Aging Carol H. Meyer, 1975 *Social Work with the Aging* Louis Lowy, 1979 **Handbook of Social Work in Health and Aging** Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume's 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today **Social Work with the Aging** National Association of Social Workers, 1975 **Social Work with the Aged and Their Families** Roberta R. Greene, 2011-12-31 In recent years theoreticians researchers and practitioners have become increasingly interested in older adults and the aging process This volume draws on related disciplines to better understand the biological psychological and social aspects of aging Social Work with the Aged and Their Families covers areas of central interest to those coping with the needs of an aging population Among the topics addressed are assessment of the aging taking into account biological age psychological age and socio cultural and spiritual age Greene also considers the importance of the family system family roles and development functional age individual and family intervention and group and community interventions The scientific and systematic study of aging is known as gerontology Geriatric social workers are those who have applied established social work theories in an attempt to find suitable techniques for working with their elderly clients The need for specialized services has given birth to various services and programs For example meals on wheels and home health care services have been designed to meet specific physical needs of older adults However mental health services have lagged far behind as practitioners struggled to adapt such specialties as family therapy to families of later years A major contribution of this book now in its third edition is the functional age model of intergenerational treatment FAM which is an outgrowth of that demand The functional age model of intergenerational treatment is an integrative theoretical framework for social workers interested in clinical social work practice with older adults and their families Since its initial construction in 1986 the model has been augmented by more recent concepts related to successful aging spirituality and resiliency These additions together with the original assessment and intervention strategies present the major converging conceptual trends that constitute a model for
