Bryant, Dennis L. Peck, 2007 Publisher Description *Christianity and Sociological Theory* Joseph A. Scimecca, 2018-09-03 This book offers a history of sociological theory from a Christian perspective tracing the origins of sociology from the beginnings of Western science as introduced by the Scholastics of the twelfth century which when combined with their emphasis on rationality led to the Enlightenment science of man an emphasis that eventually resulted in sociology which combined empiricism and a Christian moral philosophy With chapters focusing on the Scholastics the Enlightenment the rise of sociology in France Germany and the United States and the legacy of Positivism Christianity and Sociological Theory shows how the emphasis on moral philosophy was eventually lost as sociology rejected Christian underpinnings resulting in what can only be described as an extremely limited sociology A rigorous exploration of the trajectory of the discipline from its Christian origins this volume reveals the potential that exists for sociology in an era of

postmodern thought to reclaim its promise through a re introduction of Christianity The Routledge International Handbook of C. Wright Mills Studies Jon Frauley,2021-09-22 The Routledge International Handbook of C Wright Mills Studies brings together leading scholars of the work of radical sociologist C Wright Mills to showcase its impact across the social sciences Showing how Mills thought can be taken up and in some cases sympathetically reformulated to tackle problems of power and politics it presents an authoritative state of the art overview of Mills groundbreaking ideas and his far reaching theoretical and methodological impact Crucially the volume also illustrates the value of thinking with Mills in addressing the complexities of contemporary capitalist democracies As such it will appeal to scholars of sociology anthropology organization studies peace and conflict studies criminology politics and public administration Politics in the Human Interest William Du Bois,Dean R. Wright,2007-04-26 Politics in the Human Interest presents the striking proposition that by paying attention to what s been learned about human behavior we can develop a political agenda that is in the human interest Du Bois and Wright editors of Applying Sociology Making a Better World seek a synthesis of the disciplines by returning to the bold conversation of August Comte Lester Ward Robert Lynd Erich Fromm Abraham Maslow Alvin Gouldner Ernest Becker and Alfred McClung Lee As economist Kenneth Boulding once said The question for the social sciences is simply what is better_and how do we get there Politics in the Human Interest provides an important foundation for the answer and explores the theoretical foundation of a humanistic sociology It returns to the original progressive agenda_that knowledge about human behavior can be used to create social progress and a better world Politics in the Human Interest is perfect for advanced undergraduate courses and graduate courses as well as sociology professionals *Conflict: Human Needs Theory* John Burton,1990-09-25 *Erich Fromm and Critical Criminology* Kevin Anderson,Richard Quinney,2000 Linking the writings of the great humanist psychologist Erich Fromm to criminology this collection shows how viewing crime patterns and the criminal justice system from Fromm s humanist perspective opens a path to more effective and more humane ways of understanding and dealing with crime and criminals Contributors to Erich Fromm and Critical Criminology draw on Fromm s writings on alienation sadomasochism and patriarchal matriarchal values to assess the kinds of crimes being committed and the kinds of people committing them They explore the spiritual and intellectual sources of Fromm s thought including Jewish theology Freudian psychoanalysis Marxism and Buddhism and demonstrate how his socialist humanism points toward a society free of crime and violence This volume also includes translations of two of Fromm s early articles on criminal justice never before available in English in which he develops a psychoanalytic Marxist critique of the role of criminal justice in a class society At a time when American society seems bent to an unprecedented degree on imprisonment executions and other violent responses to the problem of crime Fromm s humanist critique offers a unique vantage point from which to renew and develop a critical criminology Humanity & Society ,2003 **Towards the Formation of a Sustainable South Florida** Arthur Oyola-Yemaiel,2000 This dissertation examines the sociological process

of conflict resolution and consensus building in South Florida Everglades Ecosystem Restoration through what I define as a Network Management Coordinative Interstitial Group NetMIG The process of conflict resolution can be summarized as the participation of interested and affected parties stakeholders in a forum of negotiation I study the case of the Governor s Commission for a Sustainable South Florida GCSSF that was established to reduce social conflict Such conflict originated from environmental disputes about the Everglades and was manifested in the form of gridlock among regulatory government agencies Indian tribes as well as agricultural environmental conservationist and urban development interests The purpose of the participatory forum is to reduce conflicts of interest and to achieve consensus with the ultimate goal of restoration of the original Everglades ecosystem while cultivating the economic and cultural bases of the communities in the area Further the forum aims to formulate consensus through envisioning a common sustainable community by providing means to achieve a balance between human and natural systems Data were gathered using participant observation and document analysis techniques to conduct a theoretically based analysis of the role of the Network Management Coordinative Interstitial Group NetMIG I use conflict resolution theory environmental conflict theory stakeholder analysis systems theory differentiation and social change theory and strategic management and planning theory The purpose of this study is to substantiate the role of the Governor s Commission for a Sustainable South Florida GCSSF as a consortium of organizations in an effort to resolve conflict rather than an ethnographic study of this organization Environmental restoration of the Everglades is a vehicle for recognizing the significance of a Network Management Coordinative Interstitial Group NetMIG namely the Governor s Commission for a Sustainable South Florida GCSSF as a structural mechanism for stakeholder participation in the process of social conflict resolution through the creation of new cultural paradigms for a sustainable community

International Journal of Group Tensions ,1992 **Criminology as Peacemaking** Harold E. Pepinsky,Richard Quinney,1991

Criminology has traditionally been a military science a science of war The criminal element is the enemy Repression and restraint are the primary tools of criminal justice and criminologists study how to make those tools effective in the war on crime We are beginning to realize that this is a war against ourselves and one that we are losing Our inability to make peace with crime and criminals is reflected in the paucity of our daily personal relations where we live by domination and discipline where forgiveness and mercy are seen as naive surrender to victimization The essays in this volume propose peacemaking as an effective alternative to the war on crime They range from studies of the intellectual roots of the peacemaking tradition to concrete examples of peacemaking in the community with special attention to feminist peacemaking traditions and women s experience **Elite Deviance** David R. Simon,D. Stanley Eitzen,1990 Scandal in contemporary U S life is an institutional sociological phenomenon It is not due primarily to psychopathological and or biopathological variables Rather it s built into the fabric of U S institutions which means that scandals will occur regularly This is the only book on white collar crime to take a holistic view of the subject The book traces the causes of elite deviance to the structure of power and wealth in the

United States including both criminal and non criminal elite acts that cause great harm The book is unique in its scope covering not only corporate crime and political corruption in historical and contemporary context but the relationship between the two as well The author systematically examines the nation s most serious scandals including the JFK assassination Watergate Iran Contra the Savings and Loan scandal crimes of the Bush administration scandals of the Clinton Administration the Waco raid and others Anyone with an interest in scandals sociologists criminologists law enforcement professionals and others

The Journal of Mind and Behavior ,1980 *College Student Journal* ,2004 The Sporting Woman Mary A. Boutilier,Lucinda SanGiovanni,1983 Max Weber Kieran Allen,2004-06-20 Max Weber is one of the founding fathers of sociology He is often referred to as a sophisticated value free sociologist This new critical introduction argues that Weber s sociology cannot be divorced from his political standpoint Weber saw himself as a class conscious bourgeois and his sociology reflects this outlook Providing clear summaries of Weber s ideas concentrating on the themes most often encountered on sociology courses Kieran Allen provides a lively introduction to this key thinker Kieran Allen explores Weber s political background through his life and his writing Weber was a neo liberal who thought that the market guaranteed efficiency and rationality He was an advocate of empire He supported the carnage of WW1 and vehemently attacked German socialists such as Rosa Luxemburg Weber s most famous book The Protestant Ethic and the Spirit of Capitalism ignores the bloody legacy associated with the early accumulation of capital Instead he locates the origins of the system in a new rigorous morality Using a political framework Kieran Allen s book is is ideal for students who want to develop a critical approach

C. Wright Mills and the Criminological Imagination Jon Frauley,2016-03-03 In spite of its widespread use within criminology the term criminological imagination as derived from C Wright Mills classic The Sociological Imagination has yet to be fully developed and clarified as an analytic concept capable of guiding theorizing or empirical enquiry This volume with a preface by Elliot Currie engages with and reflects on this concept exploring C Wright Mills work for criminological enquiry Bringing together the latest work of leading scholars in the fields of criminology and sociology from around the world C Wright Mills and the Criminological Imagination investigates the emergence and lineage of a criminological concept indebted to Mills thought adapting and applying it to a specifically criminological context With attention to theoretical concerns and as well as the application of the criminological imagination in concrete empirical research this volume sheds new light on the methodological and analytical aspects of the criminological imagination as a multifaceted concept and explores the possibilities that it offers for the emergence of an imaginative criminological practice As such it will appeal to scholars across the social sciences with interests in sociology and social theory criminology criminal justice studies law and research methods
