Cheung, Martin Painter, Chenyang Li, 2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony

as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated

critical review of political communication research conducted in Asia over the past twenty years Each chapter focuses on studies published in a specific Asian country selected according to the level of contribution made to the field of political communication in Asia Covering China Hong Kong Taiwan South Korea Japan Singapore Malaysia Indonesia and India the

book's primary objective is to review the unique theoretical accomplishments made by Asian communication scholars thus contributing to a better awareness and understanding of political communication research in Asia. The contributors are well-respected Asian media scholars writing on political communication in their countries of origin. Each author reviews studies conducted and published in his/her native country and language. This book provides a first review of these studies, most of which have never been published in English, and makes them available to international scholars. The contributors discuss each country's political background and address the findings and conclusions of the political communication studies conducted in their respective countries during the past two decades. The chapters focus on insights that have been made by adapting Western media theories to the unique social, cultural, or political contexts that exist in each country. The authors also point out possible gaps in the current research within their respective countries and to make recommendations for future studies.

**Perspectives on Political Legitimacy** Joseph Chan, Doh Chull Shin, Melissa S. Williams, 2016-11-17. What makes a government legitimate? Why do people voluntarily comply with laws even when no one is watching? The idea of political legitimacy captures the fact that people obey when they think governments' actions accord with valid principles. For some, what matters most is the government's performance on security and the economy. For others, only a government that follows democratic principles can be legitimate. Political legitimacy is therefore a two-sided reality that scholars studying the acceptance of governments need to take into account. The diversity and backgrounds of East Asian nations provides a particular challenge when trying to determine the level of political legitimacy of individual governments. This book brings together both political philosophers and political scientists to examine the distinctive forms of political legitimacy that exist in contemporary East Asia. It is essential reading for all academic researchers of East Asian government politics and comparative politics.

**Government and Society in Malaysia** Harold Crouch, 2019-01-24. The Malaysian political system incorporates a mix of democratic and authoritarian characteristics. In this comprehensive account, Harold Crouch argues that while they may appear contradictory, the responsive and the repressive features of the system combine in an integrated and coherent whole. Consistently dominated by the Malay party UMNO, which represents the largest ethnic group, the Malaysian government requires the support of its Chinese, Indian, and East Malaysian minorities to retain control. The need to appeal to a politically and ethnically divided electorate restrains the arbitrary exercise of power by the ruling coalition. As a result, the government responds to popular aspirations, particularly since a split in the dominant Malay party in the 1980s. Yet it also controls the electoral process, ensuring victory in all national elections. Communal social and economic factors have all contributed in rather ambiguous ways to shaping the Malaysian political system. Communal tensions change in the class structure, and the consequences of economic growth have generated pressures in both democratic and authoritarian directions. The government has been remarkably stable despite sharp ethnic divisions, and Crouch suggests it is unlikely to

move swiftly toward full democracy in the near future
