Society The Land:

Land Reforms in India Pramoda Kumāra Agravāla,1993 The book Land Reforms in India Constitutional and Legal Approach is a landmark in the field of land reforms It explores many new and important facts and principles of laws on the subject which are universally applicable The author discovered a mathematical formula to concretize the concept of land reforms and successfully applied it in his statistical study of implementation of land reforms in India with special reference to State of Uttar Pradesh There is an imperative need to implement the land laws in true spirit and with determination A *Treatise on Benefit Building Societies ...* Arthur Scratchley,1867 **Federal Land Tax Law** Norman Bede Rydge,1922

Ambaye,2015-02-13 This thesis provides a new approach to the Ethiopian Land Law debate The basic argument made in this thesis is that even if the Ethiopian Constitution provides and guarantees common ownership of land together with the state to the people this right has not been fully realized whether in terms of land accessibility enjoyability and payment of fair compensation in the event of expropriation Expropriation is an inherent power of the state to acquire land for public purpose activities It is an important development tool in a country such as Ethiopia where expropriation remains the only method to acquire land Furthermore the two preconditions of payment of fair compensation and existence of public purpose justifications are not strictly followed in Ethiopia The state remains the sole beneficiary of the process by capturing the full profit of land value while paying inadequate compensation to those who cede their land by expropriation Secondly the broader public purpose power of the state in expropriating the land for unlimited activities puts the property owners under imminent risk of expropriation
