wellbeing conceptualisations policies and intervention frameworks as critical discussion of wellbeing in relation to children and young people from a variety of socio cultural political and economic settings is still relatively sparse The contributions work synergistically to generate a sophisticated understanding of children s wellbeing while introducing fresh and context sensitive approaches Pre conceived and taken for granted notions of wellbeing are problematised through four sections in i Re examining conceptualisations of wellbeing in educational research and policy ii Focusing on School environments schooling and wellbeing iii Examining the significance of cultural contexts and iv Amplifying children s voices The objective is to help generate new ways of researching and thinking about wellbeing and schooling that transcend monocultural monodisciplinary and monomethodological strategies The book aims to stimulate further theoretical and empirical research as well as development of effective policies and school interventions which nuance rather than reduce complexity of both education and wellbeing

**Rabbinic Scholarship in the Context of Late Antique Scholasticism** Catherine Hezser, 2024-12-12 Based on an understanding of scholasticism as a cross cultural phenomenon undertaken by rabbinic Graeco Roman and Christian scholars in late antiquity this book examines the development of Palestinian rabbinic compilations from social historical and literary historical perspectives The book focuses on the compilation of the Talmud Yerushalmi in the context of late antique scholarly practice aimed at preserving past knowledge for future generations This book provides insight into how rabbinic scholarship in the Land of Israel participated in the wider intellectual practices of Roman Byzantine times Beginning with the social educational and legal contexts that generated rabbinic knowledge Catherine Hezser goes on to investigate the oral and written transmission of rabbinic traditions to eventually examine the compilation of the Talmud Yerushalmi with a comparative and redaction historical approach Integrating Palestinian rabbinic education and scholarship into the context of late antique Graeco Roman and Byzantine Christian scholarly practices Catherine Hezser demonstrates how rabbinic compilatory techniques resembled but

also differed from those of Hellenistic Roman and Christian scholars The book highlights how rabbinic compilations are idiosyncratic and create a distinct rabbinic identity Overall Hezser argues that rabbinic scholarship was an integral part of late antique intellectual life in the Near Middle East and should be recognized as an Eastern equivalent to Western paideia based forms of scholarship in the Roman Byzantine period and beyond     Unsw Press Charlotte Jarabak,2002 A complete listing of all 721 titles published since the inception of UNSW Press in 1962     Education, Research and Perspectives ,1996
