Brief History of Social Problems Frank J. McVeigh, Loreen Therese Wolfer, 2004 In this book Frank McVeigh and Loreen Wolfer take an historical approach to examine the causes and conflicts behind ten major social problems that have existed for nearly 230 years Using a critical thinking perspective of the history sociology politics and economics of the period the authors analyze social problems as a series of conflicts between those with power and those who were at one time virtually powerless Embedded in this analysis is a discussion of how the shift from a Gemeinschaft to Gesellschaft society has influenced how we address these problems Using these themes McVeigh and Wolfer provide thought provoking insight into the ways individuals groups and social institutions change over time gaining or losing power The book contains a preface by Arthur Shostak Drexel University A Christian Approach to Interdisciplinary Studies William Dennison, 2007-05-01 In an academic world that has rejected a Christian ontology metaphysic and epistemology as well as the secular foundationalism of modernity one is hard pressed to find any secular academician in the field of interdisciplinary studies IDS advocating a definitive starting point and methodology for IDS In A Christian Approach to Interdisciplinary Studies William D Dennison asks is such a study truly integrative that does not have an ontological integrative starting point and the constitutive component of method To put the question another way without the God of the Bible as the author of integration within creation can there truly be IDS Indeed Dennison calls for the integration of approach and method integration provided and modeled by the triune God of Scripture Adapted from the Preface **Sociology: A Down to Earth Approach** James M Henslin, Adam M Possamai, Alphia L Possamai-Inesedy, Tim Marjoribanks, Katriona Elder, 2015-05-20 James Henslin has always been able to share the excitement of sociology with his acclaimed down to earth approach and personal writing style that highlight the sociology of everyday life and its relevance to students lives Adapted for students studying within Australia this text now in a second edition has been made even more relevant and engaging to students With wit personal reflection and

The Biblical World William Rainey Harper, Ernest DeWitt Burton, Shailer Mathews, 1920 Books for New Testament study By Clyde Weber Votaw v 26 p 271 320 v 37 p 289 352 Death, Dying and Bereavement in a Changing World Alan R. Kemp, 2015-10-16 This title takes a comprehensive approach exploring the physical social psychological and spiritual dimensions of death dying and bereavement Through personal stories from real people Death Dying and Bereavement provides readers with a context for understanding their changing encounters with such difficult concepts Worlds Robin Gill, 2002-09-15 Churches everywhere are experiencing change In his thought provoking book Professor Robin Gill identifies the main challenges facing the church and reflects on how Christians should respond He first studies the immense moral challenges of our rapidly changing world religion and the environment the arms trade including reflection on the global situation since the attack on New York on 11 September 2001 media ethics and the Lambeth Conference and sexual ethics The second part focuses on the changing patterns of churchgoing and addresses anxieties about churchgoing decline in the West which run parallel with claims about rapid church growth elsewhere The third part looks at changes in theological education The author argues for greater honesty in the church and for a judicious use of both theology and sociology which would equip Christians to face the enormous challenges of our world today A Sociotheological Approach to Catholic Social Teaching Vivencio O. Ballano, 2022-10-31 This book introduces Catholic social teaching CST and its teaching on the common good to the reader and applies them in the realm of public health to critically analyze the major global issues of COVID 19 that undermine public interest It uses the sociotheological approach that combines the moral principles of CST and the holistic analysis of modern sociology and also utilizes the secondary literature as the main source of textual data Specifically it investigates the corporate moral irresponsibility and some unethical business practices of Big Pharma in the sale and distribution of its anti COVID vaccines and medicines the injustice in the inequitable global vaccine distribution the weakening of the United States Congress s legislative regulation against the pharmaceutical industry s overpricing and profiteering the inadequacy of the World Health Organization's WHO law enforcement system against corruption and the lack of social monitoring in the current public health surveillance system to safeguard the public good from corporate fraud and white collar crime This book highlights the contribution of sociology in providing the empirical foundation of CST s moral analysis and in crafting appropriate Catholic social action during the pandemic It is hoped that through this book secular scholars social scientists religious leaders moral theologians religious educators and Catholic lay leaders would be more appreciative of the sociotheological approach to understanding religion and COVID 19 This book

brings into dialogue two bodies of literature documents of Catholic social teaching and modern sociology and its core thinkers and texts The author does especially well to describe how taking the sociotheological turn will benefit the credibility and dissemination of Catholic social thought Rev Fr Thomas Massaro S J Professor of Moral Theology Jesuit School of Theology Santa Clara University Berkeley California The HUMANISTIC APPROACH in Psychology & Psychotherapy, Sociology & Social Work, Pedagogy & Education, Management and Art: Personal Development and Community Development SECOND EDITION, 2023-11-23 The purpose of this book THE HUMANISTIC APPROACH IN PSYCHOLOGY PSYCHOTHERAPY SOCIOLOGY SOCIAL WORK PEDAGOGY EDUCATION MANAGEMENT AND ART PERSONAL DEVELOPMENT AND COMMUNITY DEVELOPMENT Second Edition is to achieve an investigation as exhaustive and comprehensive as possible on the presence of the humanistic approach with an emphasis on the dual humanistic valences in a wide range of social and human fields thus bringing before the reader as an alternative to the modular strictly monodisciplinary approaches a multidisciplinary and complex approach thus putting almost all the most important social human disciplines and practices under a single humanistic dual humanistic umbrella and presented in a single book The Chapter 1 highlights the diversity of approaches in the social and human domains focusing on three great approaches mystical spiritual and religious strictly scientific and humanistic In Chapter 2 the sources and models of the humanistic orientation are explored identifying in this sense with priority Humanism and philosophical influences such as criticism ontology humanistic philosophy and same oriental spiritual practices This chapter highlights also the contribution of phenomenology existentialism personalism gestaltism neo Marxism the Frankfurt School secular humanism the human rights movement postmodernism feminism and complex and emergent systems theories Chapter 3 focuses on the humanistic dual humanistic approach in psychology and psychotherapy The basic principles of the humanistic approach to the human psyche were highlighted as well as the dual humanistic approach to personality and behavior Chapter 4 discusses the humanistic dual humanistic orientation in sociology and social work highlighting the characteristics of social humanism and their different postures in the field of sociology and social work Chapter 5 brings to the reader s attention the humanistic approach to pedagogy and education emphasizing the specificity of child student center education and the characteristics of the dual humanistic approach in pedagogy education Chapter 6 addresses the issue of humanistic management emphasizing how this approach generated a significant change in work organizations focusing on people employee development and their well being Chapter 7 discusses the humanist approach in art theater and film highlighting the characteristics of humanistic aesthetics and humanistic theatrology filmology Chapter 8 brings other disciplines into the discourse such as medicine politics religion technology science ecology and economy highlighting how the humanistic approach influences these fields and brings a dual perspective between person centeredness and human social solidarity Chapter 9 presents some of the characteristics of the humanistic dual humanistic approach to personal development focusing on the formation of a strong
