Adorno Marcuse in particular and with Habermas one of Europe's leading contemporary thinkers Several of the major themes considered are critical theory's relation to Marx's critique of the political economy Freudian psychoanalysis aesthetics and the philosophy of history There is also a discussion of critical theory's substantive contribution to the analysis of capitalism culture the family and the individual as well as its contribution to epistemology and methodology Held's book will be necessary reading for all concerned with understanding and evaluating one of the most influential intellectual movements of our time

Newell, 2006-08-01 Does education have any relation to theology How do the educator's worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story tracing commitments that lay underneath empirical neutrality In the process the reader will see avenues that unmistakably link education to theology Education turns out to be a thoroughly worldview conditioned process This new work is essential reading for professors and students in both religious and general education *Anxiety, Modern Society, and the Critical Method* Joel Michael Crombez, 2021-03-08 *Anxiety Modern Society and the Critical Method* interrogates the historical intersections of political economy technology and anxiety By analyzing and building upon the tools developed by critical theorists to diagnose the symptoms of modern life such as alienation anomie the Protestant ethic and repression Joel Michael Crombez convincingly argues for a revitalization of critical social science to better confront the anxiety of life in modern societies With anxiety typically falling under the purview of psychology and its biomedical approach to treatment here anxiety is demonstrated to have origins in the totalizing logics of modern society As such Crombez provides an interdisciplinary roadmap to diagnose and treat anxiety which he calls critical socioanalysis that accounts for the psychosocial complexity of its production [A Critical Introduction to Contemporary Social Theory](#) Piotr Sztompka, 2025-02-24 Examining the core sociological theories that have emerged in the first two decades of the current century *A Critical Introduction to Contemporary Social Theory* outlines

their attempts to answer the most fundamental questions of the discipline from the nature of social order to the mechanisms of social change Through a careful exploration of the history of modern social theory Piotr Sztompka lays the critical groundwork for investigating the development of contemporary social theory from its founding fathers in the 19th century through the rich contributions of the 20th century known as the golden age of theory up to the most recent developments and illuminates how it is both anchored in and a critique of previous attempts to theorize foundational questions to social being and action Contemporary theory the book argues is now moving toward analysis of action interpersonal relations social and epistemological realism and multivalent mechanisms at the root of social phenomenon Major social theoretical thinkers like Anthony Giddens Pierre Bourdieu Jeffrey Alexander Randall Collins Jonathan Turner Hans Joas Ulrich Beck Erving Goffman and others are presented and evaluated as significant contributors to contemporary social theory while pointing toward future possibilities for social theory in the current century This will be a key resource for undergraduate and graduate students in sociology social theory and contemporary cultural studies
