Sir George Arthur Bart 1784 1854:

Sir George Arthur, Bart., 1784-1854 Alan George Lewers Shaw, 1980 Biography of Sir George Arthur administrator of the colonies of the British Empire Relations between colonists and Aboriginal people discussed pp 123 134 Reference to Batman's treaty p 143 **Convicts** Clare Anderson, 2022-01-13 A new global history perspective on the relationship between convict mobility and governance nation building imperial expansion and knowledge formation [A Concise History of Australia](#) Stuart Macintyre, 2015-10-09 Australia is the last continent to be settled by Europeans but it also sustains a people and a culture tens of thousands years old For much of the past 225 years the newcomers have sought to replace the old with the new This book tells how they imposed themselves on the land and describes how they brought technology institutions and ideas to make it their own The fourth edition incorporates the far reaching effects of an export and investment boom in the early years of the twenty first century that lifted Australia to unprecedented prosperity The sale of minerals and energy enabled the economy to withstand the global financial crisis of 2007 08 but there was no agreement on how the wealth was to be managed and its benefits distributed The book describes a continuing search for solutions to climate change the unauthorised arrival of refugees Indigenous disadvantage and generational change *Aboriginal Protection and Its Intermediaries in Britain's Antipodean Colonies* Samuel Furphy, Amanda Nettelbeck, 2019-06-12 This collection brings together world leading and emerging scholars to explore how the concept of protection was applied to Indigenous peoples of Britain's antipodean colonies Tracing evolutions in protection from the 1830s until the end of the nineteenth century the contributors map the changes and continuities that marked it as an inherently ambivalent mode of colonial practice In doing so they consider the place of different historical actors who were involved in the implementation of protective policy who served as its intermediaries on the ground or who responded as its intended beneficiaries These included metropolitan and colonial administrators Protectors or similar agents government interpreters and church affiliated missionaries settlers with economic investments in the politics of conciliation and the Indigenous peoples who were themselves subjected to colonial policies Drawing out some of the interventions and encounters lived out in the name of protection the book examines some of the critical roles it played in the making of colonial relations **Colonial connections, 1815-45** Zoë Laidlaw, 2013-07-19 This groundbreaking book challenges standard interpretations of metropolitan strategies of rule in the early nineteenth century After the Napoleonic wars the British government ruled a more diverse empire than ever before and the Colonial Office responded by cultivating strong personal links with governors and colonial officials through which influence patronage and information could flow By the 1830s the conviction that personal connections were the best way of exerting influence within the imperial sphere went well beyond the metropolitan government as lobbyists settlers and missionaries also developed personal connections to advance their causes However the successive crises in the 1830s exposed these complicated networks of connection to hostile metropolitan scrutiny This book

challenges traditional notions of a radical revolution in government identifying a more profound and general transition from a metropolitan reliance on gossip and personal information to the embrace of new statistical forms of knowledge The analysis moves between London New South Wales and the Cape Colony encompassing both government insiders and those who struggled against colonial and imperial governments *Government and Expertise* Roy MacLeod,2003-02-13 This book offers selected perspectives on an important facet of new research into the administrative revolution the idea of expertise the role of experts and of administrators and professionals in creating the technique of Victorian government

Civilisation of Port Phillip Thomas James Rogers,2018-02-23 Port Phillip s free settlers often said that they were civilising a wilderness The truth was that the occupied country already had people laws politics and economies What did civilisation mean to the free settlers And what was the relationship between civilising and violence The *Civilisation of Port Phillip* tracks the violent history of the first years of British settlement in the Port Phillip District now the state of Victoria It illuminates the underlying free settler rhetoric that advocated and abetted violence on the frontier For the first time we hear the settlers tell us in their own words what the civilisation of Port Phillip really involved Frontier violence in Port Phillip involved Aboriginal peoples convicts free settlers and colonial officials This history shows how the lives of these different people interconnected in early Port Phillip in unlikely friendships dire misunderstandings and fatal clashes It paints a vivid picture of the period drawn from archival records a thorough re reading of older histories and new ideas in the scholarship of violence As well as sheep and firearms free settlers brought Enlightenment ideas about civilisation to Port Phillip When these European ideas were coupled with Australian frontier experience they manifested in an exterminatory attitude towards people deemed undesirable in the

coming colony The Civilisation of Port Phillip shows how free settler rhetoric law and systems of classification reinforced and sought to justify the violence of the frontier

1835 James Boyce,2011 In 1835 an illegal squatter camp was established on the banks of the Yarra River In defiance of authorities in London and Sydney Tasmanian speculators began sending men and sheep across Bass Strait and so changed the shape of Australian history Before the founding of Melbourne British settlement on the mainland amounted to a few pinpoints on a map Ten years later it had become a sea of red In 1835 James Boyce brings this pivotal moment to life He traces the power plays in Hobart Sydney and London the key personalities of Melbourne s early days and the haunting questions raised by what happened when the land was opened up He conjures up the Australian frontier its complexity its rawness and the way its legacy is still with us today

Possession Bain Attwood,2015-02-04 It contemplates why these agreements were forged how the Aboriginal people understood their terms why government repudiated them and how settlers claimed to be the rightful owners of the land Bain Attwood also reveals the ways in which the settler society has endeavoured to make good its act of possession by repeatedly creating histories that have recalled or repressed the memory of Batman the treaties and the Aborigines destruction and dispossession and charts how Aboriginal people have unsettled this matter of history through their remembering
