Vital Strife Benjamin C. Parris, 2022-08-15 *Vital Strife* examines the close yet puzzling relationship between sleep and ethical care in early modernity The plays poems and philosophical essays at the heart of this book by Jasper Heywood William Shakespeare Edmund Spenser John Milton and Margaret Cavendish explore the unconscious motions of corporeal life and the drowsy forms of sentience at the boundaries of human thought and intentionality Benjamin Parris shows how these writers although trained under the Renaissance humanist paradigm of attentive care begin to dissolve the humanist coupling of virtue with vigilance by giving credence to the vital power of sleep In contrast to humanist thinkers who equated sleep with carelessness these writers draw on the ancient Stoic principle of *oikeiosis* the process of orienting the living being toward its proper objects of care beginning with itself in asserting the value of sleep while underscoring insomnia's threat to the ethical flourishing of persons and polity alike Parris offers an important revaluation of Stoic philosophy which has too often been misconstrued as renouncing feeling and sympathetic connection with others With its striking new account of the reception of Stoicism and attitudes toward sleep and sleeplessness in early modern thought *Vital Strife* reveals the period's mounting concern with the regenerative nature of physical life and its elaboration of a newfound ethics of care

The Sleep of Others and the Transformations of Sleep Research Kenton Kroker, 2007-01-01 We tend to think of sleep as a private concern a night time retreat from the physical world into the realm of the subconscious Yet sleep also has a public side it has been the focal point of religious ritual philosophic speculation political debate psychological research and more recently neuroscientific investigation and medical practice In this first ever history of sleep research Kenton Kroker draws on a wide range of material to present the story of how an investigative field at one time dominated by the study of dreams slowly morphed into a laboratory based discipline The result of this transformation Kroker argues has changed the very meaning of sleep from its earlier conception to an issue for public health and biomedical intervention Examining a vast historical period of 2500 years Kroker separates the problems associated with the history of dreaming from those associated with sleep itself and charts sleep related diseases such as narcolepsy insomnia and sleep apnea He describes the discovery of rapid eye movement REM during the 1950s and shows how this discovery initiated the creation of dream laboratories that later emerged as centres for sleep research during the 1960s and 1970s Kroker s work is unique in subject and scope and will be enormously useful for both sleep researchers medical historians and anybody who s ever lost a night s sleep

Old and New Methods of Initiation Rudolf Steiner, 2025-05-26 What are the key differences between the contemporary spiritual path and that of the ancient mysteries With remarkable clarity and insight Rudolf Steiner throws new light on the contrasting methods of initiation in the ancient and modern day The old mysteries worked to transform the physical body the brain on the one hand and the rest of the organism on the other whereas modern initiation transforms the element of spirit and soul strengthening it with regard to the thought aspect on the one hand and the will aspect on the other These wide ranging lectures additionally cover topics that include the working of Lucifer and Ahriman in the human being the relationship of the individual to the Folk Spirit the development of religious life particularly with reference to the pagan Old Testament streams and the role of Imagination Inspiration and Intuition in modern life The final lectures examine the impulse of freedom behind the work of Goethe and Schiller drawing connections with Shakespeare and the French Revolution An overarching theme is the significance of the transition between cultural epochs and the importance of freeing ourselves from the intellectualism of our age through the spiritual quality of Imaginative consciousness This new edition features an introduction by Margaret Jonas notes and an index Fourteen lectures Dornach Mannheim Breslau Jan March 1922 GA 210

Restless in Sleep Country Paul Huebener,2024-05-14 Sleep and the lack of it is a public obsession and an enormous everyday quandary Troubled sleep tends to be seen as an individual problem and personal responsibility to be fixed by better habits and tracking gadgets but the reality is more complicated Sleep is a site of politics culture and power In *Restless in Sleep Country* Paul Huebener pulls back the covers on cultural representations of sleep to show how they are entangled with issues of colonialism homelessness consumer culture technology and privacy the exploitation of labour and the effects of the Covid 19 pandemic Even though it almost entirely evades direct experience sleep is the subject of a variety of potent narratives each of which can serve to clarify and shape its role in our lives In Canada cultural visions of slumber circulate through such diverse forms as mattress commercials billboards comic books memoirs experimental poetry and bedtime story phone apps By guiding us through this imaginative landscape Huebener shows us how to develop a critical literacy of sleep Lying down and closing our eyes is an act that carries surprisingly high stakes going beyond individual sleep troubles
