International Encyclopedia of Organization Studies Stewart Clegg, James R. Bailey, 2007-08-28 Organization studies although a relatively recent notion has roots that go back at least to the early days of the twentieth century The study of how people construct organizations how they use the structures processes and practices that they have designed and how these in turn use people organize social relations construct institutions organize them and consecutively enable them to organize us has matured along multiple fronts Over the last two decades more diverse approaches drawing on more qualitative and ethnographic styles of research have predominated This Encyclopedia represents both the older and the newer styles of work with their respective concerns The International Encyclopedia of Organization Studies is the definitive description of the field spanning individual organizational societal and cultural perspective in a cross disciplinary manner The old model of a North American core exporting its domain assumptions to the rest of the world while by no means absent is less marked than it used to be Thus editors Stewart R Clegg and James R Bailey have sought to capture much of the cutting edge thinking that characterizes the best scholarship in the United States and elsewhere The Encyclopedia is thoroughly cross referenced and entries are based around a series of broad themes Key Features Offers a comprehensive overview of many of the major ideas concepts terms and approaches that characterize this diverse field of organization studies Illustrates the fluidity dynamism and innovation that now occur in organization studies internationally Brings

together a team of international contributors from the fields of management psychology sociology communications education political science public administration anthropology law and other related areas Examines how organizations are devices for structuring life and lives are structured by organizations Key Themes Approaches to Organization Theory Approaches to Management Theory Culture and Symbolism Human Resource Management International Approaches Issues in Organization Practices Issues in Organizational Structure Innovation and Creativity Knowledge and Learning Leadership Theory Organizational Behavior Organizational Cognition Change and Communication Organizational Economics Organizational Relations Organizational Power Politics and Conflict Philosophy of Organizations Research Practice and Methodology Social Issues Teams Technologies The International Encyclopedia of Organization Studies is the premier reference tool for students educators scholars and practitioners to gather knowledge about a range of important topics from the unique perspective of organization studies with extensive international representation

Emerging and Re-Emerging Organizational Features, Work Transitions and Occupational Risk Factors: The Good, the Bad, the Right. An Interdisciplinary Perspective Giulio Arcangeli, Gabriele Giorgi, Nicola Mucci, Jean-Luc Bernaud, Annamaria Di Fabio, 2019-03-07 The labor market is evolving very rapidly in recent years in Europe and worldwide The fast and deep changes brought a brand new context of challenges and occupational risks to the attention of stakeholders The current global financial crisis has increased the economic pressures on companies and they in turn have intensified the effects on employees particularly in terms of new competition contexts and a lot of stress and mental health issues Concurrently social political and environmental problems generate under employment over qualification over education low wages for skilled workers and unmet demand for education Consequently both high skilled and low skilled immigrant workers are increasing In addition workplaces are continually changing in step with the introduction of new technologies materials and work processes together with the changes in the labor market the new forms of employment and the new work organizations These changes lead to new opportunities for employees and employers but also to new risks or re actualization of old organizational risks According to the EU OSHA the key points that describe the evolution that is currently ongoing in the world of work are globalization the technical innovation and the aging population On one hand some older potential risks are reappearing in organizations intensive fear and worries organizational anxiety boredom physical violence alienation segregation loneliness and isolation On the other hand re emerging perceived organizational features seem vital for organizations and more important today than ever Central constructs in the study of organizational behavior and organizational health such as perceived organizational support commitment in organizational context socialization processes change capacity of organizations perceived organizational justice ergonomics and motivation nowadays seem increasingly important and renewed
