Smoke From Their Fires Life Of A Kwakiut:

Smoke from Their Fires Charles James Nowell, 1968 **Shingwauk's Vision** James Rodger Miller, 1996-01-01 This book is an absolute first in its comprehensive treatment of this subject J R Miller has written a new chapter in the history of relations between indigenous and immigrant peoples in Canada **Spuzzum** Andrea Laforet, Annie York, 2011-11-01 Living on the banks of the turbulent Fraser River the Nlaka pamux people of Spuzzum have a long history of contact with non aboriginal peoples They watched as Hudson s Bay Company employees hacked a path through the mountains for the fur brigades and over time they found themselves in the path of the Cariboo road the CPR and virtually every commercial and province building initiative undertaken in the region over the past two centuries Juxtaposing historical narratives and cultural interpretation from the community of Spuzzum with archival information this book explores the history of Spuzzum in the light of concepts central to the Nlaka pamux definition of family political authority land and cosmos **Changing Genders in Intercultural Perspectives** Barbara Saunders, Marie-Claire Foblets, 2002 Drawing on extensive fieldwork the essays in this book develop contextual and strategic analyses of the way sex gender constellations can be configured as political identities as a resource or in response to unforeseen contingencies **Indians of the North Pacific Coast** Tom McFeat, 1989 Culture and tradition of the Indians of the Pacific Northwest **Standing Up with Ga'axsta'las** Leslie A. Robertson, the the Kwagu'l Gixsam Clan, 2012-10-07 Standing Up with Ga axsta las tells the remarkable story of Jane Constance Cook 1870 1951 a controversial Kwakwaka wakw leader and activist who lived during a period of enormous colonial upheaval Working collaboratively Robertson and Cook s descendants draw on oral histories and textual records to create a nuanced portrait of a high ranked woman a cultural mediator devout Christian and aboriginal rights activist who criticized potlatch practices for surprising reasons This powerful meditation on memory and cultural renewal documents how the Kwagu l Gixsam have revived their long dormant clan in the hopes of forging a positive cultural identity for future generations through feasting and potlatching **Understanding Cultural Transmission in Anthropology** Roy Ellen, Stephen J. Lycett, Sarah E. Johns, 2013-08-01 The concept of cultural transmission is central to much contemporary anthropological theory since successful human reproduction through social systems is essential for effective survival and for enhancing the adaptiveness of individual humans and local populations Yet what is understood by the phrase and how it might best be studied is highly contested This book brings together contributions that reflect the current diversity of approaches from the fields of biology primatology palaeoanthropology psychology social anthropology ethnobiology and archaeology to examine social and cultural transmission from a range of perspectives and at different scales of generalization The comprehensive introduction explores some of the problems and connections Overall the book provides a timely synthesis of current accounts of cultural transmission in relation to cognitive process practical action and local socio ecological context while linking these with explanations of longer term evolutionary trajectories **Photography, Anthropology and History**

Elizabeth Edwards, 2016-04-22 *Photography Anthropology and History* examines the complex historical relationship between photography and anthropology and in particular the strong emergence of the contemporary relevance of historical images. Thematically organized and focusing on the visual practices developed within anthropology as a discipline, this book brings together a range of contemporary and methodologically innovative approaches to the historical image within anthropology. Importantly, it also demonstrates the ongoing relevance of both the historical image and the notion of the archive to recent anthropological thought. As current research rethinks the relationship between photography and anthropology, this volume will serve as a stimulus to this new phase of research as an essential text and methodological reference point in any course that addresses the relationship between anthropology and visuality.

Captured Heritage Douglas Cole, 2011-11-01 The heyday of anthropological collecting on the Northwest Coast took place between 1875 and the Great Depression. The scramble for skulls and skeletons, poles, canoes, baskets, feast bowls, and masks went on until it seemed that almost everything not nailed down or hidden was gone. The period of most intense collecting on the coast coincided with the growth of anthropological museums, which reflected the realization that time was running out and that civilization was pushing the indigenous people to the wall, destroying their material culture and even extinguishing the native stock itself. Douglas Cole examines the process of collecting in the context of the development of museums and anthropology. The main North American museums with Northwest Coast collections are the Smithsonian Institution, the American Museum of Natural History, Chicago's Field Museum of Natural History, the Royal British Columbia Museum, and the Canadian Museum of Civilization in Ottawa. These were intense rivals in the race against time. For the new edition of *Captured Heritage*, Douglas Cole has written a preface in which he outlines developments since the book's first publication in 1985. Since that time, for example, the Kwagiulth Museum and Cultural Center on Quadra Island and the U Mista Museum and Cultural Center at Alert Bay have been successful in having some of their artifacts repatriated.

Forked Tongues David Murray, 1991 creates a new definition of American Indian literary texts as a self-representational genre. This is an intelligent and insightful application of post-modern critical methods to American Indian texts. The scope of the study is broad and ambitious, and the attempt to define Indian self-representations from colonial times to the present is innovative and instructive. Raymond J. DeMallie's very suggestive, provocative, and engaging *Studies in American Indian Literatures* Murray's book establishes itself as the single best introduction to Native American text making, in particular, and the betrayals of the translation in general. An essential acquisition for all college and university libraries and highly recommended for larger public libraries. Choice It is a pleasure to recommend with wholehearted enthusiasm David Murray's *Forked Tongues*. Western American Literature
