Charles Ives and the Classical Tradition Geoffrey Block,J. Peter Burkholder,1996-01-01 Although Charles Ives has long been viewed as the quintessential American composer he placed himself in the European classical tradition drew on it heavily for his aesthetic philosophy and musical techniques and extended it to create something new This book illuminates Ives's music by comparing it with that of other composers in Europe and the United States Edited by two highly regarded Ives scholars the book begins with essays that examine the influences on Ives of his musical predecessors and concludes with essays that find extensive parallels between Ives and such European contemporaries as Mahler Schoenberg Berg and Stravinsky whose music he knew little or not at all but with whom he shared influences and concerns Taken together these chapters demonstrate that even apparently strange or distinctively American aspects of Ives's music from his penchant for quotation to his juxtaposition of disparate styles have strong precedents and parallels among European composers Ives emerges as a composer at home in the classical tradition engaged in exploring the same issues that confronted composers of his generation on both sides of the Atlantic

Classic Papers in Critical Care Mitchell P. Fink,Michelle Hayes,Neil Soni,2010-03-11 Every medical specialty has as its basis a core of classic papers which both reflects the historical background and gives insight into its present and future developments The selected papers in this volume highlight landmarks in the development of critical care medicine Internationally acclaimed experts have chosen what they consider to be the most important papers in their respective subspecialties Each entry follows a set format starting with the abstract and the reference to the original source of publication This is followed by analysis of the strengths and weaknesses of the paper and the contribution it has made to the development of critical care Additional information including citation score of each paper is given together with detailed analysis of the top 500 most widely cited papers
