Guillaume Favre

Snow Bunnies:

Snow Bunnies Alice Nicole Johansson, Francine Pascal, 1997 Ellen Riteman had really been looking forward to the Unicorn Club's ski trip. She was psyched to snuggle by the fire with Curtis Bowman her new boyfriend. And she couldn't wait to hang out with Rachel Grant the newest Unicorn. They'd really hit it off. In fact Ellen and Rachel had joked about how fun it would be if Ellen's mom and Rachel's dad ski trip chaperones got married. Then the girls would be sisters. Some joke. To Ellen's surprise Mr Grant and Ms Riteman do get together. And even more surprising is Rachel's insistence that Ellen's mom isn't good enough for her dad. Ellen knows the truth. Mr Grant can't hold a candle to Ellen's mom. Not only has Ellen changed her mind about having Rachel for a sister she never wants to see her again. *Seeing Nature Through Gender* Virginia Scharff, 2003

Environmental history has traditionally told the story of Man and Nature. Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender. *Seeing Nature through Gender* here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions, desires, and choices have shaped the world and seeing men as gendered actors as well. In thirteen essays that show how gendered ideas have shaped the ways in which people have represented, experienced, and consumed their world, Virginia Scharff and her coauthors explore interactions between gender and environment in history. Ranging from colonial borderlands to transnational boundaries, from mountaintop to marketplace, they focus on historical representations of humans and nature, on questions about consumption, on environmental politics, and on the complex reciprocal relations among human bodies and changing landscapes. They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies. Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly, often with dire consequences for other people and organisms. Here are considerations of the ways we study sexuality among birds, of William Byrd's masking sexual encounters in his account of an eighteenth-century expedition, of how the ecology of fire in a changing built environment has reshaped firefighters' own gendered identities. Some are playful, as in a piece on the evolution of snow bunnies to shred bunnies. Others are dead serious, as in a chilling portrait of how endocrine disruptors are reinventing humans, animals, and water systems from the cellular level out. Aiding and adding significantly to the enterprise of environmental history, *Seeing Nature through Gender* bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet. **VOILA! celebrating New York as both a place and an idea Skiing ,1971-02 **Boondoggles** G.E. Bentley, Jr,2018-07-12 One of Jerry's greatest talents was creating research pretexts to travel to the far corners of the globe. He explored England and continental Europe first as a student and later when he returned regularly for research. Once he had settled into his career at the University of Toronto, Jerry sought adventure with his young family while teaching for a year in places which did not at the time attract many Western academics: Algeria in the 1960s, India in the 1970s, China in the early 1980s. In each of these places he found expectations about teaching, university administration and social interactions vastly different, often baffling and always entertaining. The volume concludes with three essays in which Jerry chronicles his academic endeavours as a scholar of William Blake forms the basis of the most important collection of Blake works in Canada. With eloquence and humour, Jerry brings to life in *Boondoggles* the people he met and the grandeur of the places he visited as both a restless professor and an endlessly curious observer of human nature long before the era of mass tourism made such travels commonplace.
