Antoninus,1903 **Philosophy of Education in the Era of Globalization** Yvonne Raley, Gerhard Preyer,2009-12-04
Terrorism ethnocentrism religious tension competition over limited resources war these are just a few of the problems and challenges that have emerged in today s global economy Globalization both implies and requires economic interdependence and this should bring with it a heightened sense of the interconnectedness of the participating societies But unfortunately as recent events indicate rather than our having formed a global community today s society is more fragmented than ever In light of this education faces some formidable new challenges How do we prepare future citizens for the world they will live in How do we teach future generations to embrace the paradox of accepting the value of multiculturalism despite the conflicts it has produced How do we instill religious tolerance in a time when fundamentalism has become inextricably tied with terrorism How do we promote economic growth in the face of overpopulation and its depletion of resources The authors of this collection of essays explore these and related challenges and they suggest some novel ways of dealing with them The Greengrocer and His TV Paulina Bren,2011-08-15 The 1968 Soviet invasion of Czechoslovakia brought an end to the Prague Spring and its promise of socialism with a human face Before the invasion Czech reformers had made unexpected use of television to advance political and social change In its aftermath Communist Party leaders employed the medium to achieve normalization pitching television stars against political dissidents in a televised spectacle that defined the times The Greengrocer and His TV offers a new cultural history of communism from the Prague Spring to the Velvet Revolution that reveals how state endorsed ideologies were played out on television particularly through soap opera like serials In focusing

on the small screen Paulina Bren looks to the normal of normalization to the everyday experience of late communism The figure central to this book is the greengrocer who in a seminal essay by Václav Havel symbolized the ordinary citizen who acquiesced to the communist regime out of fear Bren challenges simplistic dichotomies of fearful acquiescence and courageous dissent to dramatically reconfigure what we know or think we know about everyday life under communism in the 1970s and 1980s Deftly moving between the small screen the street and the Central Committee and imaginatively drawing on a wide range of sources that include television shows TV viewers letters newspapers radio programs the underground press and the Communist Party archives Bren shows how Havel's greengrocer actually experienced normalization and the ways in which popular television serials framed this experience Now back by popular demand socialist era serials such as *The Woman Behind the Counter* and *The Thirty Adventures of Major Zeman* provide Bren contends a way of seeing literally and figuratively Czechoslovakia's normalization and Eastern Europe's real socialism *Freedom to Win* Ethan
