**So You Want to Sing Folk Music** Valerie Mindel, 2017-02-27 So many who love to sing are drawn to the immediacy and essential simplicity of the music we commonly call folk. Folk music in fact can serve as the perfect entry point for those just starting on their singing careers because of the ways in which it sidesteps the strictures of classical forms without giving up the fundamentals of professional singing techniques. In *So You Want to Sing Folk Music* singer and writer Valerie Mindel demystifies this sprawling genre looking at a variety of mainly traditional American musical styles as well as those of the folk revival that continues in various forms to this day. The aim is to help the fledgling singer better understand the scope of folk music and find his or her voice in the genre looking at the how of creating a vocal sound that reflects a folk based style. The book looks at specific repertoires and ways of approaching them in terms of both working up material and performing it. It also looks at some of the realities of folk music in the twenty first century that affect both amateurs and professionals. Additional chapters by Scott McCoy, Wendy LeBorgne and Matthew Edwards address universal questions of voice science and pedagogy, vocal health and audio enhancement technology. The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing. Like all books in the series *So You Want to Sing Folk Music* features online supplemental material on the NATS website. **Stage Management** Michael Smalley, 2023-12-28 Drawing on interview material from more than 20 leading stage managers from the UK, USA and Australia, this book situates the contemporary practice of stage management within its historical and social contexts. Questioning the notions of the invisible stage manager and a linear production process, it argues for a broader conception of stage management lying at the intersections of administration, management and artistry. This volume places stage management practice within key theories drawn from the diverse fields of performance studies, semiotics, phenomenology, distributed cognition, management and scenography. It champions the creative agency of stage management and details the properties of communication which stage managers manipulate and the objectives they set out to achieve as a guide for decision making. While it considers the different approaches necessitated by productions from different cultures, genres and so on, it offers a view of stage management which is not bound by these differences.

**Stage** Justin Schorah, 2014-01-04 The four young musicians in rock band Hybris are about to make a name for themselves After three long years in the trenches of Florida's underground music scene they finally have a record deal in sight An A R hotshot fell in love with them upon hearing a few of their songs online and suddenly all the sweat blisters and soul draining self promotion seemed worth it The band got a call asking them to bring their haunting mix of Clapton and post hardcore up to Manhattan for a label showcase It was the break of a lifetime And now the only thing separating them from their dreams is a thousand miles of pavement Money is tight though A hundred gigs a year and they rarely broke even Between the cost of food gas and everything else it takes to keep a band running they made a habit of living in the red The only way they would ever get to New York would be to pack up their aging Chevy Astro and book a tour that could lead them to the promised land All it took was six dots on a map A handful of concerts to carry them to their destination It was more than enough to keep them flush if everything went according to plan but things never do when you're on the road And as they work their way up the coast it all goes to hell They soldier through tough circumstances at first making the best of it for as long as they can But when the van gets ransacked midway through the trip they're forced to make a choice crawl home empty handed or charge onward at all costs Out of cash and desperate to make it they set themselves on a collision course to New York It's a decision that forces each band member to consider just how badly he wants that record deal and what he's willing to do to get it Laws are broken Friendships are tested And so much violent momentum is built up that nothing and no one can stand in their way Not even each other
