Adalbert Stifter's Late Prose Helena Ragg-Kirkby, 2000 Provides a view of the late Stifter as a forerunner of twentieth century modernism Adalbert Stifter has always been viewed as a natural heir to the Great Classical tradition even by those critics who detect disturbing subtexts in his fiction But he should be viewed quite differently however well disguised he is in truth a closet modernist and a major trailblazer for Kafka and the Absurd This is most evident in his late fiction which has been almost universally ignored dismissed or disparaged by his critics His last novel *Witiko* in particular has been conspicuously neglected by both nineteenth and twentieth century critics Ragg Kirkby demonstrates largely by way of close reading that this is Stifter's extreme masterpiece Beneath the surface of Biedermeier stuffiness is a vision of fracture emptiness meaninglessness and mania not only more radical than that of any other 19th century author but arguably more radical than that of any 20th century author precisely because there is such a disjuncture between text and sub text In his final novel Stifter simply leaves the future behind Helena Ragg Kirkby is a lecturer in German at the University of Sheffield

Wittgenstein s aphoristic style holds great charm but also a great danger the reader is apt to glean too much from a single fragment and too little from the fragments as a whole In my first confron tations with the Philosophical Investigations I was such a reader and so it turned out were most of the writers on Wittgenstein s later philosophy Wittgenstein s remarkable ability to bring together many facets of his thought in one fragment is fully exploited in the critical literature but hardly any attention is paid to the connection with other fragments let alone to the many hitherto unpublished manuscripts of which the Philosophical Investigations is the final product The result of this fragmentary and ahistorical approach to Wittgenstein s later work is a host of contradictory interpretations What Wittgenstein really wanted to say remains insufficiently clear Opinions are also strongly divided about the value of his work Some authors have been encouraged by his aphorisms and rhetorical questions to dismiss the whole Cartesian tradition or to halt new movements in linguistics or psychology others exasperated reject his philo sophy as anti scientific conceptual conservatism After consulting unpublished notebooks and manuscripts which Wittgenstein wrote between 1929 and 1951 I became a very different reader Wittgenstein turned out to be a kind of Leonardo da Vinci who pursued a form from which every sign of chisel ling every attempt at improvement had been effaced **Host Bibliographic Record for Boundwith Item Barcode 30112072131219 and Others**, 1832
