Arc she re reads the record not as a perfect reflection of a historical personality s words but as a literary text resulting from the collaboration between Joan and her interrogators Sullivan provides an illuminating and innovative account of Joan s trial and interrogation placing them in historical social and religious context In the fifteenth century interrogation was a method of truth gathering identified not with people like Joan who was uneducated but with clerics like those who tried her When these clerics questioned Joan they did so as scholastics educated at the University of Paris as judges and assistants to judges and as pastors trained in hearing confessions The Interrogation of Joan of Arc traces Joan s conflicts with her interrogators not to differing political allegiances but to fundamental differences between clerical and lay cultures Sullivan demonstrates that the figure depicted in the transcripts as Joan of Arc is a complex multifaceted persona that results largely from these cultural differences Discerning and innovative this study suggests a powerful new interpretive model and redefines our sense of Joan and her time

Handbook of Poetic Forms Jessica Bundschuh,Irmtraud Huber,2025-10-06 This Handbook of Poetic Forms aims to offer historically informed approaches to a wide variety of poetic forms A particular emphasis will be on considering poetic form in dialogue with the cultural context in which it is being used as well as within the literary tradition of each form and to explore the stable as well as the historically variable affordances of each form in such contexts Hereby the focus lies on prescriptive forms that is on poetic forms which are defined by or at least associated with specific metrical stanzaic or overall structures or the absence of such
