missionary work from 1989 to 1999 Both Baptists and Pentecostals engaged in a wave of missions flowing from Ukraine to the end of the earth Siberia What were these pioneering missionaries like What motivated them What enabled them to do what had been forbidden for so long What legacy did they leave for us today What can we learn from their example for future missions This book also looks at how a surge in missions takes place analyzing the factors behind the Ukrainian evangelical missionary surge by looking at different models for change Here we consider what steps can we take to help bring about new missionary surges

democracy in Russia and in the world more generally as idea desired ideal and practice A major issue for Russia is whether the modernization of Russia might not prosper better by Russia focusing directly on modernization and not worrying too much about democracy This book explores a wide range of aspects of this important question It discusses how the debate is conducted in Russia outlines how Russians contrast their own experiences unfavourably with the experience of China where reform and modernization have been pursued with great success with no concern for democracy and concludes by assessing how the debate in Russia is likely to be resolved Change and Stability Melvin L. Kohn,2015-12-03 In societies that experience rapid social transformation does an individual s social position have a major influence on their personality Exploring this and related questions Melvin Kohn presents a detailed overview of how social structure relates to personality in a variety of different countries in vastly different political and social contexts Case studies include the US communist Poland Japan and Poland and the Ukraine during their transition to capitalism Problems of Communism ,1987 **Civil Society and Government Institutions in Armenia** Valentina Gevorgyan,2024-05-09 The book provides an understanding of the three decades of Armenia s young history from the perspective of relations between civil society and government institutions It explores the intricate dynamics between the two entities by explaining the patterns of relations since 1991 to present The book offers a comprehensive exploration for understanding the state society relations and also delves into the historical backdrop of the region Drawing on the latest data the author examines real world practices exemplifying relational variations and the opportunity structures for Armenia to progress by means of its civil society **Green Activism in Post-Socialist Europe and the Former Soviet Union** Adam Fagan,JoAnn Carmin,2014-06-11 Green activism played a critical role in the downfall of Soviet style communism in Eastern Europe at the end of the 1980s After the revolutions environmentalists were expected to exert influence within the new democracies and to form the bedrock of the new civil societies that were predicted to flourish across the region the prospect of EU membership provided activist networks with even greater optimism about their political opportunities Two decades later what has been the impact of political and economic liberalisation on environmental campaigners and policy advocates Has access to elites increased with democratisation and Europeanization To what extent does the realm of environmental politics within individual states and across the region continue to represent an optic on change and continuity Through country case studies and comparative analysis of national movements this edited volume addresses each of these questions and provides a different perspective of green politics in the region This book was previously published as a special issue of Environmental Politics *Urban Poverty, Housing and Social Change in China* Ya Ping Wang,2004-10-21 There is a close association between urban poverty and housing transitional societies Along with job security housing was the most important element of the socialist welfare system Housing privatisation has far reaching economic implications *Doctoral Education for the Knowledge Society* Jung Cheol Shin,Barbara M. Kehm,Glen A. Jones,2018-09-24 This book explores and compares the systems of doctoral education in

twelve higher education systems consisting of four systems in East Asia four in Europe and four Anglo American systems The emphasis placed on doctoral education and training has increased dramatically in many higher education systems in response to the global competition for highly skilled human resources to serve the needs of knowledge societies Doctoral education is a key element within the research and development infrastructure and doctoral students support university research and represent the next generation of the professoriate While doctoral education has received considerable attention within national higher education systems there has been surprisingly little international or comparative research on the structure of doctoral education and the nature of contemporary reforms
