Social and Cultural Perspectives on Blindness C. Edwin Vaughan, 1998      **SOCIAL AND CULTURAL PERSPECTIVES ON BLINDNESS** C. Edwin Vaughan, Fredric K. Schroeder, 2018-03-01 The central idea of this book is that blindness itself results in no particular social arrangement as a cultural pattern. People are socialized to expect ideas about appropriate behavior for blind people and these vary from culture to culture. The descriptions of blindness in several different cultures are the authors' firsthand observations as outsiders visiting different cultures, interviewing individuals as well as extensive reviewing of written sources. The text describes different perspectives regarding blindness and the social arrangements created for and by blind people. The viewpoints of blind people themselves receive prominent attention in the book. The text is critical in its perspective. Its purpose is to analyze patterns of domination and subordination as they take various forms in different cultures, including physical condition. Major discussions include: Why study rehabilitation and blindness from a cross-cultural perspective? Cultural perspectives on blindness. Producing new images about blindness. Blindness in the United States. From isolation to full inclusion. Blindness in Africa. Blind people in the Middle Kingdom and the People's Republic of China. Spain's unique Organizacion Nacional de Ciegos Espanoles and the Changing culture of blindness around the world. The book strives to contribute to the social sciences and the study of behavior that is considered deviant or different. It also seeks to stimulate interest in cross-national and cross-cultural studies of blindness and contributes to the development of a broader and richer understanding about blindness for those who provide education, rehabilitation, and employment services. Finally, the book strives to aid blind people who are reflective about their own situation and who are working to make it better.

**Cultural Diversity, Inclusion and Justice** George Henderson, 2020-05-18 This book is not an impersonal academic treatise on social justice activism but instead the author's description of what social justice activism has looked like through the prism of his eyes. The methods of the book are straightforward, using historical, current, and personal data, all of which were inextricably entwined. The text focuses on the truth that bigotry is perpetuated by countless white, black, and brown people. More important than academic debates about bigotry, the book is about negating or preventing bigotry. The author reviews historical incidents and also tells portions of his own life stories. His goal is to help readers know his perceptions of bigotry and then compare and contrast his perceptions with their own. The text is organized in major topics: Beginnings of Bigotry, Creation of a Nation, Migrants, Immigrants and Slaves, Quest for Civil Rights, Women's Rights Movement, Disability Rights Movement, Elder Rights Movement, LGBTQ Rights Movement, Social Class Matters, and Going Forward. This book is written to be actively read and to initiate meaningful conversations about social justice. The primary audiences for the text are college students who are majoring in social and behavioral sciences, social work, and health care. The book will also be a valuable resource to teachers, community activists, and other persons who want to enhance their knowledge of racism, sexism, homonegativity, ableism, ageism, xenophobia, and classism.      **Ferguson Career Resource Guide for People with**
