Laiou, 1992 The studies in this volume reflect the author's interest in history as it was lived not only the social and economic structures but the men and women collectively and individually who made them function The role of women in Byzantine economy and society is found to be much more important than had been believed their participation in trade and manufacturing is established as is the role of aristocratic women in the economic affairs of the household the question of female literacy is also discussed Two studies on the Byzantine family based in large part on the legal sources examine the formation of matrimonial ties as well as the practice of divorce and concubinage in the 13th century The second part of the volume is focused on the economy of exchange in Byzantium between 1204 and the fall of the Empire Byzantine trade and manufacturing are placed in the context of the economic developments of the eastern Mediterranean with the conclusion that whereas the activities of Byzantine and Greek merchants were much more considerable than scholars had thought they were subordinated to the needs of the Italian dominated trade system while Byzantine manufacturing declined Les études rassemblées dans ce volume reflètent l'intérêt de leur auteur pour l'histoire telle qu'elle était vécue non seulement en ce qui concerne les structures sociales et économiques mais aussi les hommes et les femmes collectivement et individuellement qui permettaient celles-ci de fonctionner Le rôle des femmes dans la société et l'économie byzantine se révèle comme ayant beaucoup plus d'importance qu'on ne le pensait auparavant leur participation au commerce et à l'industrie est un fait établi tout comme l'est le rôle des femmes aristocrates dans les affaires économiques du foyer Le thème de l'alphabetisation des femmes est aussi soulevé Deux études sur la famille byzantine se basent en grande partie sur des sources légales Exploring the Economy of Late Antiquity Jairus Banaji, 2016 This book contributes to a new economic history of late antiquity with tightly argued stimulating studies of class money and exchange *Coinage and*

The Chronographia of George the Synkellos and Theophanes Jesse W. Torgerson, 2022-07-25 The ninth century Chronographia of George the Synkellos and Theophanes is the most influential historical text ever written in medieval Constantinople Yet modern historians have never explained its popularity and power This interdisciplinary study draws on new manuscript evidence to finally animate the Chronographia s promise to show attentive readers the present meaning of the past Begun by one of the Roman emperor s most trusted and powerful officials in order to justify a failed revolt the project became a shockingly ambitious re writing of time itself a synthesis of contemporary history philosophy and religious practice into a politicized retelling of the human story Even through radical upheavals of the Byzantine political landscape the Chronographia s unique historical vision again and again compelled new readers to chase after the elusive Ends of Time

Chios dicta est... et in Aegæo sita mari: Historical Archaeology and Heraldry on Chios Ioanna Koukouni, 2021-06-03 This book discusses the archaeology and history of the Greek island of Chios during the Byzantine and Genoese periods focusing on Mount Amani Harsh remote and poor Mount Amani is nevertheless surprisingly rich in material for the landscape archaeologist and the student of historical topography yet until now unknown in scholarly literature

A Brief History of Commercial Capitalism Jairus Banaji, 2020-07-07 The rise of capitalism to global dominance is still largely associated by both laypeople and Marxist historians with the industrial capitalism that made its decisive breakthrough in 18th century Britain Jairus Banaji s new work reaches back centuries and traverses vast distances to argue that this leap was preceded by a long era of distinct commercial capitalism which reorganised labor and production on a world scale to a degree hitherto rarely appreciated Rather than a picture centred solely on Europe we enter a diverse and vibrant world Banaji reveals the cantons of Muslim merchants trading in Guangzhou since the eighth century the 3 000 European traders recorded in Alexandria in 1216 the Genoese Venetians and Spanish Jews battling for commercial dominance of Constantinople and later Istanbul We are left with a rich and global portrait of a world constantly in motion tied together and increasingly dominated by a pre industrial capitalism The rise of Europe to world domination in this view has nothing to do with any unique genius but rather a distinct fusion of commercial capitalism with state power

Pseudo-Kodinos and the Constantinopolitan Court: Offices and Ceremonies Ruth Macrides, J.A. Munitiz, Dimitar Angelov, 2016-09-17 The work known as Pseudo Kodinos the fourteenth century text which is one of two surviving ceremonial books from the Byzantine empire is presented here for the first time in English translation With facing page Greek text and the first in depth analysis in the form of commentary and individual studies on the hierarchy the ceremonies court attire the Blachernai palace lighting music gestures and postures this volume makes an important new contribution to the study of the Byzantine court and to the history and culture of Byzantium more broadly The unique traits of this ceremony book include the combination of hierarchical lists of court officials with protocols of ceremonies a detailed

description of the clothing used at court in particular hats and staffs an account of the functions of the court title holders a description of the ceremonies of the year which take place both inside the palace and outside the service of the megas domestikos in the army protocols for the coronation of the emperor the promotions of despot sebastokrator and caesar of the patriarch a description of the mourning attire of the emperor protocol for the reception of a foreign bride in Constantinople all these are analysed here Developments in ceremonial since the tenth century Book of Ceremonies are discussed as is the space in which ceremonial was performed along with a new interpretation of the other palace the Blachernai The text reveals the anonymous authors interest in the past in the origins of practices and items of clothing but it is argued that Pseudo Kodinos presents descriptions of actual practice at the Byzantine court rather than prescriptions

Literary Circles in Byzantine Iconoclasm Óscar Prieto Domínguez, 2021-02-04 Iconoclasm was the name given to the stance of that portion of Eastern Christianity that rejected worshipping God through images eikones representing Christ the Virgin or the saints and was the official doctrine of the Byzantine Empire for most of the period between 726 and 843 It was a period marked by violent passions on either side This is the first comprehensive account of the extant contemporary texts relating to this phenomenon and their impact on society politics and identity By examining the literary circles emerging both during the time of persecution and immediately after the restoration of icons in 843 the volume casts new light on the striking reconstruction of Byzantine society whose iconophile identity was biasedly redefined by the political parties led by Theodoros Stoudites Gregorios Dekapolites and Empress Theodora or the patriarchs Methodios Ignatios and Photios It thereby offers an innovative paradigm for approaching Byzantine literature

Studies in the Social Sciences and History University of Wisconsin, 1929 Medicine and Pharmacy in Byzantine Hospitals David Bennett, 2016-08-12 Scholars have made conflicting claims for Byzantine hospitals as medical institutions and as the forebears of the modern hospital In this study is the first systematic examination of the evidence of the xenon texts or Xenonika on which all such claims must in part rest These texts compiled broadly between the ninth and thirteenth centuries are also transcribed or edited with the exception of the combined texts of Romanos and Theophilos that the study proposes were originally a single manual and teaching work for doctors probably based on xenon practice A schema of their combined chapter headings sets out the unified structure of this text A short handlist briefly describes the principal manuscripts referred to throughout the study The introduction briefly examines our evidence for the xenones from the early centuries of the East Roman Empire to the fall of Constantinople in 1453 Chapter 3 examines the texts in xenon medical practice and compares them to some other medical manuals and remedy texts of the Late period and to their structures The xenon ascribed texts are discussed one by one in chapters 4-8 the concluding chapter 9 draw together the common as well as the divergent aspects of each text and looks to the comparative evidence for hospital medical practice of the time in the West

Christian Russia in the Making

Andrzej Poppe, 2023-05-31 The present collection of studies by Andrzej Poppe in many ways represents a continuation of the research brought together a quarter century ago in the author's previous *Variorum* volume. The focal themes are the political circumstances of the baptism of Russia and the processes by which Rus became a Christian country, an era marked by the emergence of indigenous saints in royal and monastic garb. Relations with the Byzantine world, both political and ecclesiastical, are often to the fore, but as Poppe shows, those with the West from the Carolingians onwards were important too. Many of the articles are provided with additional notes, and the volume includes three pieces previously unpublished in English, including an introductory survey of the Rurikid dynasty and a major new study of the process by which Vladimir the Great became a saint. Challenges in Economic and Financial Policy Formulation H. Askari, Z. Iqbal, A. Mirakhor, 2014-12-16 *Challenges in Economic and Financial Policy Formulation* provides an introductory yet comprehensive treatment of macroeconomic policies and their implementation in an Islamic designed economic system.
