## **Situations Iv Portraits:**

*Situations, IV* Jean-Paul Sartre, 1964      *Portraits* Jean-Paul Sartre, 2009 *Portraits* *Situations IV* brings together Sartre's most important writings on literature and artists in one of his most productive periods. It includes his preface to Sarraute's *Portrait of a Man Unknown* and his homages to Andre Cide Maurice Merleau-Ponty and Albert Camus. The Merleau-Ponty essay casts considerable light on the recent history of French philosophy particularly with regard to dominant post-war political conceptions and the lengthy studies of Sartre's close friend Paul Nizan and of the young Andre Gorz are no less revealing. This volume also contains Sartre's Reply to Albert Camus which confirmed the break between the two writers on its publication in 1952. Alongside these major writings are fascinating articles on Tintoretto and a number of contemporary painters including Ciacornerti and Masson and two highly readable accounts of Sartre's travels in Italy. Book Jacket

**Sartre's 'Being and Nothingness'** Sebastian Gardner, 2009-01-01 This text presents a concise and accessible introduction to Jean Paul Sartre's existentialist book *Being and Nothingness*.      **Sartre's Theatre** B. P. O'Donohoe, Benedict O'Donohoe, 2005 Published on the eve of the philosopher-playwright's centenary, this study offers a wide-ranging reappraisal of Sartre's complete dramatic opus from the inaugural nativity play *Bariona* 1940 to the swan song chorus of *Armageddon* *Les Troyennes* 1965. It draws on a close reading of Sartre's writings in philosophy, literature and criticism and provides an extensive survey of journalistic and academic reception. Each play is situated in relation both to Sartre's intellectual evolution and to the broader historical context. This is the first full-length study in English for more than thirty years covering the whole of Sartre's theatre and it will interest students of twentieth-century European drama as well as those of modern French literature and ideas.      *The Intellectual Resistance in Europe* James D. Wilkinson, 1981 Camus, Sartre and Beauvoir in France; Eich, Richter and Boll in Germany; Pavese, Levi and Silone in Italy. These are among the defenders of human dignity whose lives and work are explored in this widely encompassing work. James D. Wilkinson examines for the first time the cultural impact of the anti-Fascist literary movements in Europe and the search of intellectuals for renewal for social change through moral endeavor during World War II and its immediate aftermath. It was a period of hope, Wilkinson asserts, and not of despair as is so frequently assumed. Out of the shattering experience of war evolved the bracing experience of resistance and a reaffirmation of faith in reason. Wilkinson discovers a spiritual revolution taking place during these years of engagement and views the participants as heirs of the Enlightenment. Drawing on a wide range of published writing as well as interviews with many intellectuals who were active during the 1940s, Wilkinson explains in the fullest context ever attempted their shared opposition to tyranny during the war and their commitment to individual freedom and social justice afterward. Wilkinson has written a cultural history for our time. His wise and subtle understanding of the long-range significance of the engagements is a reminder that the reassertion of humanist values is as important as political activism by intellectuals.      **To Will and To Do Vol II** Jacques Ellul, 2023-01-01 In *To Will and To Do*, twentieth-century French thinker Jacques Ellul

presented his landmark theological contribution yet the full text has never before been available in English Incorporating recent insights on Ellul and benefitting from the discovery of a lost manuscript this new publication remedies this combining a fresh translation of Volume One with a first English translation of Volume Two Together the two volumes constitute the first part of Ellul's planned four part treatment of Christian ethics In Volume Two Ellul examines the origin of the problem of Good and Evil surveys the contemporary morality of Western society and provocatively sketches the paradox of an impossible and yet necessary Christian ethics In Volume Two he carries this discussion forward outlining the characteristics and conditions of Christian ethics and analysing the relationship between ethics the legal texts of the Bible and dogmatic theology He concludes by reimagining the theological use of the analogy of faith for scriptural interpretation Throughout Ellul remains in dialogue with Karl Barth Dietrich Bonhoeffer Paul Ricoeur and others helping to cement To Will and To Do as a major intervention in twentieth century theological ethics The days of Napoleon. Bowman, Robert V. Stone, 2023-03-27 In Reading Sartre's Second Ethics Elizabeth A. Bowman and Robert V. Stone provide a comprehensive reconstructive and critical interpretation of Jean Paul Sartre's mature dialectical ethics The key Sartrean texts are two posthumously published lectures one delivered at the Gramsci Institute in Rome in 1964 the other scheduled to be delivered at Cornell University in 1965 but cancelled by Sartre in protest of U.S. foreign policy Though different in content method and intended audience Sartre gave both lectures the shared title Morality and History As Bowman and Stone argue these texts comprise a single systematic ethic in two parts The Cornell lecture focuses primarily on a regressive and phenomenological analysis of normativity and its ambiguous place in lived moral experience the Rome lecture focuses

primarily on a progressive and dialectical synthesis of the ends or goals of historical conduct Taken together the two texts demonstrate that integral humanity is always possible because the means to it can always be freely invented **Volume 9: Kierkegaard and Existentialism** Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement *Sartre* Christina Howells, 2014-09-19 First published in 1996 This text provides an introduction to the historical and cultural context of Sartre and his work It explores and explains the conflicting critical reactions to Sartre's work A glossary of critical terms and cultural references provides background information **The Philosophy of Jean-Paul Sartre** Jean-Paul Sartre, 2003-05-27 This unique selection presents the essential elements of Sartre's lifework organized systematically and made available in one volume for the first time in any language **David Busch's Canon EOS 5D Mark IV Guide to Digital SLR Photography** David D.
