Six Korean Women Youngsook Kim Harvey, 1979 **The Life and Hard Times of a Korean Shaman** Laurel Kendall, 2021-05-25 No detailed description available for **The Life and Hard Times of a Korean Shaman** **Korean Women and God** Hee An Choi, 2005 Korean women are nurtured in a culture dominated by patriarchy and often understand God within this context another form of authority that is easily displeased and quick to judge Although it is rare to find pastoral ministry programs sensitive to women s needs the author shows how such programs would transform women s lives by introducing them to a God to love and understanding and empowering them to help transform society *Korean Shamanism* Chongho Kim, 2018-01-18 Title first published in 2003 Shamanism has a contradictory position within the Korean cultural system leading to the periodical suppression of shamanism yet also paradoxically ensuring its survival throughout Korean history This book examines the place of shamans within contemporary society as a cultural practice in which people make use of shamanic ritual and disputing the prevalent view that shamanism is popular culture a women s religion or performing arts Directly confronting the prejudice against shamans and their paradoxical situation in a modern society such as Korea this book reveals the cultural discrepancy between two worlds in Korean culture the ordinary world and the shamanic world showing that these two worlds cannot be reconciled This unique study of shamanism offers a significant contribution to growing studies in indigenous anthropology and indigenous religions and provides a captivating read for a wide range of readers through retelling the stories never to be told involving shamanic ritual *By Means of Performance* Richard Schechner, Willa Appel, 1990-05-25 The field of performance studies embraces performance behaviour of all kinds and in all contexts from everyday life to high ceremony This volume investigates a wide range of performance behaviour dance ritual conflict situation sports storytelling and display behaviour in a variety of circumstances and cultures It considers such issues as the relationship between training and the finished performance whether performance behaviour is universal or culturally specific and the relationships between ritual aesthetics popular entertainment and religion and sports and theatre and dance The volume brings together essays from leading anthropologists artists and performance theorists to provide a definitive introduction to the burgeoning field of performance studies It will be of value to scholars teachers and students of anthropology theatre folklore semiotics and performance studies **Priestess, Mother, Sacred Sister** Susan Starr Sered, 1996-04-11 Religion is often denounced as one of the tools used by patriarchal societies to maintain the status quo and especially to persuade women to accept subordinate roles This does not explain however the existence of many religious groups in which women are both leaders and the majority of participants How are these women s religions different from those dominated by men What can we learn from them about the special ways in which women experience their unique reality In this fascinating and pathbreaking work the first comparative study of women s religions Susan Starr Sered seeks answers to these compelling questions Looking for common threads linking groups as diverse as the ancestral cults of the

Black Caribs of Belize Korean shamanism Christian Science and the Feminist Spirituality movement Sered finds that motherhood and motherly concerns play a vital role in these female dominated groups Nurturing and concern for others are at the center as are healing arts and ways of dealing with illness and the death of children Religion not only enables women to find sacred meaning in their daily lives from the preparation of food to caring for their families but an offer intense and personal relationships with deities and spirits often through ecstatic possession trance as well as opportunities to celebrate and mourn with other women By examining the shared experiences of women across great cultural divides Priestess Mother Sacred Sister offers a new understanding of the role gender plays in determining how individuals grapple with the ultimate questions of existence In the process it not only highlights the profound differences between men and women but the equally important ways in which we are all alike

Robinson,2007-04-30 For more than half of the twentieth century the Korean peninsula has been divided between two hostile and competitive nation states each claiming to be the sole legitimate expression of the Korean nation The division remains an unsolved problem dating to the beginnings of the Cold War and now projects the politics of that period into the twenty first century Korea s Twentieth Century Odyssey is

designed to provide readers with the historical essentials upon which to unravel the complex politics and contemporary crises that currently exist in the East Asian region Beginning with a description of late nineteenth century imperialism Michael Robinson shows how traditional Korean political culture shaped the response of Koreans to multiple threats to their sovereignty after being opened to the world economy by Japan in the 1870s He locates the origins of both modern nationalism and the economic and cultural modernization of Korea in the twenty years preceding the fall of the traditional state to Japanese colonialism in 1910 Robinson breaks new ground with his analysis of the colonial period tracing the ideological division of contemporary Korea to the struggle of different actors to mobilize a national independence movement at the time More importantly he locates the reason for successful Japanese hegemony in policies that included and thus implicated Koreans within the colonial system He concludes with a discussion of the political and economic evolution of South and North Korea after 1948 that accounts for the valid legitimacy claims of both nation states on the peninsula **A**

shamanism that has often been neglected in previous accounts. An international range of contributors cover a broad geographical scope ranging from Siberia to South Asia and Iran to Japan. Several key themes are considered including the role of bureaucratic established religions in integrating challenging and fighting shamanic practices, the position of women within shamanic complexes and perceptions of the body. Beginning with a chapter that places the shamaness at the centre of the discussion, chapters then approach these issues in a variety of ways from historically informed accounts to presenting the findings of extensive ethnographic research by the authors themselves. Offering an important counterbalance to male dominated accounts of shamanism, this book will be of great interest to scholars of Indigenous Peoples across Religious Studies, Anthropology, Asian Studies and Gender Studies.
