The Dala Law Inger Larsson, 2024-11-15 The Dala Law is known through only one remaining medieval manuscript written c 1335 1353 and shows strong influence from older Swedish provincial law It is one of the oldest known texts revealing details of life and conditions in medieval Dalar during the thirteenth and early fourteenth centuries Contradicting older assumptions that this might have been an older law of V stmanland the Dala Law is well adapted to prevailing conditions in medieval Dalarna Dalar In contrast to most provincial laws where the lawman had a central position in the Dala Law it is the written word the law book that is addressed and appealed to Although the text is comparatively short this English translation is an important tool for facilitating the internationalisation of Swedish research and making Nordic material more accessible for international scholars Aided by maps which show medieval Dalarna V stmanland and the value of the mining industry in the area this text provides crucial insight into the history life and culture of medieval Dalar which has never been seen before in the English language With an Introduction that places medieval Darlarna Dalar in its geographical judicial and ecclesiastical contexts The Dala Law is an essential resource for all students and scholars interested in medieval Swedish history and law Taxation in Tibetan Societies: Rules, Practices and Discourses Alice Travers, Peter Schwieger, Charles Ramble, 2023-01-23 The study of taxation is fundamental for understanding the construction of Tibetan polities the nature of their power often with a marked religious component and their relationships with their subjects as well as the consequences of taxation for social stratification This volume takes the analysis of taxation in Tibetan societies both under the Ganden Phodrang and beyond it in new directions using hitherto unexploited Tibetan language sources It pursues the dual objective of advancing our understanding of the organisation of taxation from an institutional perspective and of highlighting the ways in which taxpayers themselves experienced and represented these fiscal systems Contributors are Saadet Arslan John Bray Kalsang Norbu Gurung Isabelle Henrion Dourcy Berthe Jansen Diana Lange Nancy E Levine Charles Ramble Isabelle Riaboff Peter Schwieger Alice Travers and Maria M Turek *Skin Immune System (SIS)* Jan D. How Do I Tax Thee? Kristin Tate, 2018-03-20 Libertarian journalist Kristin Tate provides a look into the wild world of frivolous taxation aimed at educating members of her own generation in the evils of big government In *How Do I Tax Thee* libertarian commentator and rising media star Kristin Tate takes us on a tour of the ways the government bleeds us dry in innumerable daily transactions and at various stages of life We all know the government taxes our pay federal state and local taxes are withheld by employers as are social security payments But what about the many other ways the government drains money from our wallets Have you studied your cell phone bill Customers in New York State pay an average of 24.36% in federal state and local taxes on their wireless bills They're also charged for obscure services they didn't ask for and don't understand like a universal service fund fee an FCC compliance fee a line service fee and an emergency services fee These aren't taxes strictly speaking The government imposes these administrative and regulatory costs and your wireless provider passes them along to you But the effect is exactly the same What about your cable bill Your power bill Your water bill The cost of a gallon of gas a cab ride a hotel stay and a movie ticket are all inflated by hidden fees How much of what you pay at the pump the box office or the airport is really an indirect tax In a series of short pointed fact laden humorous chapters Tate exposes the vast government shakedown that consumes up to half of your income and also explains where these hidden fees and taxes come from

Buffalo & Breadfruit Martin

Bradley, 2012-06-01 As the writer Martin Bradley unwittingly discovers there is nothing quite like uprooting yourself from your home of fifty four years in suburban temperate England and transplanting yourself into rural equatorial Malaysia Bradley attempts to make a new life for himself in provincial Malaysia living with poisonous snakes chicken killing civet cats and water buffalo intent on chomping his delicate mango shoots and trampling the saplings he has nurtured for many weeks The idyll he hopes to find is far from idyllic his stoicism far from stoic and his temper far from temperate Follow the hapless author as he undertakes a personal seven year journey into a new religion that he is not suited to a love affair which should never have been and a culture that requires the patience of the saint he is not It is a humorous seven year battle with country living country people and the whole concept of a rural retreat from which in the end he must retreat

Ozone Damage and Legal Liability Lisa Elges, 2016-12-19 While government enforcement of laws and regulations to control the production of chlorofluorocarbons in 1987 has been hailed as exemplifying the precautionary principle for almost two decades US companies failed to take precautionary measures to prevent chemical emissions despite the probable risk of stratospheric ozone loss As a result human harms in the form of skin cancer have reached epidemic proportions globally and in the United States where today one person dies every hour from skin cancer This book reviews US laws regulations and policies as well as case law regarding similar toxic tort cases to consider whether companies can and should be held legally liable under tort common law theories and related tort justice theories for having contributed to increased risks of skin

Learning to Love Form 1040 Lawrence Zelenak,2013-03-29 No one likes paying taxes much less the process of filing tax returns For years would be reformers have advocated replacing the return based mass income tax with a flat tax federal sales tax or some combination thereof Congress itself has commissioned studies on the feasibility of a system of exact withholding But might the much maligned return based taxation method serve an important yet overlooked civic purpose In *Learning to Love Form 1040* Lawrence Zelenak argues that filing taxes can strengthen fiscal citizenship by prompting taxpayers to reflect on the contract they have with their government and the value or perceived lack of value they receive in exchange for their money Zelenak traces the mass income tax to its origins as a means for raising revenue during World War II Even then debates raged over the merits of consumption based versus income taxation as well as whether taxes should be withheld from payroll or paid at the time of filing The result is the income tax system we have today a system whose maddening complexity intended to accommodate citizens in widely different circumstances threatens to outweigh any civic benefits If sitcoms and political cartoons are any indication public understanding of the income tax is badly in need of a corrective Zelenak clears up some of the most common misconceptions and closes with suggestions for how the current system could be substantially simplified to better serve its civic purpose *Hearings, Reports and Prints of the Senate Committee on Finance* United States. Congress. Senate. Committee on Finance,1941 **Skin in the Game** Nassim Nicholas Taleb,2020-01-07 1 NEW YORK TIMES BESTSELLER A bold work from the author of *The Black Swan* that challenges many of our long held beliefs about risk and reward politics and religion finance and personal responsibility In his most provocative and practical book yet one of the foremost thinkers of our time redefines what it means to understand the world succeed in a profession contribute to a fair and just society detect nonsense and influence others Citing examples ranging from Hammurabi to Seneca Antaeus the Giant to Donald Trump Nassim Nicholas Taleb shows how the willingness to accept one's own risks is an essential attribute of heroes saints and flourishing people in all walks of life As always both accessible and iconoclastic Taleb challenges long held beliefs about the values of those who spearhead military interventions make financial investments and propagate religious faiths Among his insights For social justice focus on symmetry and risk sharing You cannot make profits and transfer the risks to others as bankers and large corporations do You cannot get rich without owning your own risk and paying for your own losses Forcing skin in the game corrects this asymmetry better than thousands of laws

and regulations Ethical rules aren't universal You're part of a group larger than you but it's still smaller than humanity in general Minorities not majorities run the world The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others You can be an intellectual yet still be an idiot Educated philistines have been wrong on everything from Stalinism to Iraq to low carb diets Beware of complicated solutions that someone was paid to find A simple barbell can build muscle better than expensive new machines True religion is commitment not just faith How much you believe in something is manifested only by what you're willing to risk for it The phrase skin in the game is one we have often heard but rarely stopped to truly dissect It is the backbone of risk management but it's also an astonishingly rich worldview that as Taleb shows in this book applies to all aspects of our lives As Taleb says The symmetry of skin in the game is a simple rule that's necessary for fairness and justice and the ultimate BS buster and Never trust anyone who doesn't have skin in the game Without it fools and crooks will benefit and their mistakes will never come back to haunt them **Viral Skin**
