Slave The Whales:

Moby-Dick and Melville's Anti-Slavery Allegory Brian R. Pellar, 2017-06-15 This book unfurls and examines the anti slavery allegory at the subtextual core of Herman Melville's famed novel Moby Dick Brian Pellar points to symbols and allusions in the novel such as the albinism of the famed whale the Ship of State motif Calhoun's cords the equator Jonah Narcissus St Paul and Thomas Hobbes Leviathan The work contextualizes these devices within a historical discussion of the Compromise of 1850 and subsequently strengthened Fugitive Slave Laws Drawing on a rich variety of sources such as unpublished papers letters reviews and family memorabilia the chapters discuss the significance of these laws within Melville's own life After clarifying the hidden allegory interconnecting black slaves and black whales this book carefully sheds the layers of a hidden meaning that will be too convincing to ignore for future readings Moby Dick is ultimately a novel that is intimately connected with questions of race slavery and the state The Slave Dancer's Choice Frank Higgins, 2003

Slavery in Brazil Herbert S. Undrowned Alexis Pauline Gumbs, 2020-11-17 Undrowned is a book length meditation for social movements and our whole species based on the subversive and transformative guidance of marine mammals Our aquatic cousins are queer fierce protective of each other complex shaped by conflict and struggling to survive the extractive and militarized conditions our species has imposed on the ocean Gumbs employs a brilliant mix of poetic sensibility and naturalist observation to show what they might teach us producing not a specific agenda but an unfolding space for wondering and questioning From the relationship between the endangered North Atlantic Right Whale and Gumbs's Shinnecock and enslaved ancestors to the ways echolocation changes our understandings of vision and visionary action this is a masterful use of metaphor and natural models in the service of social justice Souls Grown Deep Paul Arnett, William Arnett, 2000 The first comprehensive

Mizruchi, 1998-05-24 From ritual killings to subtle acts of self denial the practice and rhetoric of sacrifice has a special centrality in modern American literature In a compelling interdisciplinary investigation Susan Mizruchi portrays an episode in American cultural history when the literary movement of realism and the fledgling field of sociology both converged in the belief that sacrifice is basic to sociality This is a book about the fascination that sacrifice held for writers principally Herman Melville Henry James and W E B Du Bois and also for those who articulated the main tenets of modern social theory an inquiry that eventually spans historical events such as public lynchings and the political scapegoating of immigrants a century ago The execution in Billy Budd Sailor the death of Du Bois's first born son in *The Souls of Black Folk* Henry James's preoccupation with renunciation and scapegoating and the self denying working classes of Norris and Stein all illustrate repeated stagings of sacrificial rituals from a Biblical past For Mizruchi the peculiar persistence of this aesthetic construct becomes a guide to a rich theological and social scientific tradition distinctive to the late nineteenth and early twentieth centuries and including such influential works as Smith's *Lectures on the Religion of the Semites* Frazer's *Golden Bough* and Ross's *Sin and Society* The major features of sacrifice its original association with spiritual doubt its function as a form of spiritual economics that sustained divisions between the fortunate and the bereft and its role in fixing boundaries between aliens and kin held strong symbolic value for writers struggling to reconcile faith with rationalism and communal coherence with capitalist expansion Mizruchi eloquently demonstrates how the conceptual power of sacrifice made it a key mediator of cultural change from the decline of sympathy and the significance of race in an emerging multicultural society to the revival of maternal self sacrifice *Whaling Captains of Color* Skip Finley, 2022-02-15 The history of whaling as an industry on this continent has been well told in books including some that have been bestsellers but what hasn't been told is the story of whaling's leaders of color in an era when the only other option was slavery Whaling was one of the first American industries to exhibit diversity A man became a captain not because he was white or well connected but because he knew how to kill a whale Along the way he could learn navigation and reading and writing Whaling presented a tantalizing alternative

to mainland life Working with archival records at whaling museums in libraries from private archives and interviews with people whose ancestors were whaling masters Finley culls stories from the lives of over 50 black whaling captains to create a portrait of what life was like for these leaders of color on the high seas Each time a ship spotted a whale a group often including the captain would jump into a small boat row to the whale and attack it at times with the captain delivering the killing blow The first second or third mate and boat steerer could eventually have opportunities to move into increasingly responsible roles Finley explains how this skills based system propelled captains of color to the helm The book concludes as facts and factions conspire to kill the industry including wars weather bad management poor judgment disease obsolescence and a non renewable natural resource Ironically the end of the Civil War allowed the African Americans who were captains to exit the difficult and dangerous occupation and make room for the Cape Verdean who picked up the mantle literally to the end of the industry

Paddling to Where I Stand Martine J. Reid,Daisy Sewid-Smith,2007-11-01 The Kwakwakawakw people and their culture have been the subject of more anthropological writings than any other ethnic group on the Northwest Coast Until now however no biography had been written by or about a Kwakwakawakw woman Paddling to Where I Stand presents the memoirs of Agnes Alfred c 1890 1992 a non literate noble Qwigwasutinuxw woman of the Kwakwakawakw Nation and one of the last great storytellers among her peers in the classic oral tradition Agnes Alfred documents through myths historical accounts and

personal reminiscences the foundations and the enduring pulse of her living culture She shows how a First Nations woman managed to quietly fulfill her role as a noble matriarch in her ever changing society thus providing a role model for those who came after her She also contributes significant light and understanding to several traditional practices including prearranged marriages and traditional potlatches Paddling to Where I Stand is more than another anthropological interpretation of Kwakwaka wakw culture It is the first hand account by a woman of the greatest period of change she and her people experienced since first contact with Europeans and her memoirs flow from her urgently felt desire to pass on her knowledge to younger generations

Slavery's Capitalism Sven Beckert, Seth Rockman, 2016-07-28 During the nineteenth century the United States entered the ranks of the world's most advanced and dynamic economies At the same time the nation sustained an expansive and brutal system of human bondage This was no mere coincidence Slavery's Capitalism argues for slavery's centrality to the emergence of American capitalism in the decades between the Revolution and the Civil War According to editors Sven Beckert and Seth Rockman the issue is not whether slavery itself was or was not capitalist but rather the impossibility of understanding the nation's spectacular pattern of economic development without situating slavery front and center American capitalism renowned for its celebration of market competition private property and the self made man has its origins in an American slavery predicated on the abhorrent notion that human beings could be legally owned and compelled to work under force of violence Drawing on the expertise of sixteen scholars who are at the forefront of rewriting the history of American economic development Slavery's Capitalism identifies slavery as the primary force driving key innovations in entrepreneurship finance accounting management and political economy that are too often attributed to the so called free market Approaching the study of slavery as the originating catalyst for the Industrial Revolution and modern capitalism casts new light on American credit markets practices of offshore investment and understandings of human capital Rather than seeing slavery as outside the institutional structures of capitalism the essayists recover slavery's importance to the American economic past and prompt enduring questions about the relationship of market freedom to human freedom Contributors Edward E Baptist Sven Beckert Daina Ramey Berry Kathryn Boodry Alfred L Brophy Stephen Chambers Eric Kimball John Majewski Bonnie Martin Seth Rockman Daniel B Rood Caitlin Rosenthal Joshua D Rothman Calvin Schermerhorn Andrew Shankman Craig Steven Wilder
