complete texts became available after World War II Although Dvořák was often viewed as a nationalist composer in his symphonic writing his primary influences were Beethoven Schubert and Brahms For both Bruckner and Mahler the symphony constituted the heart of their output for Brahms and Dvořák it occupied a less central place Yet for all of them the key figure of the past remained Beethoven The symphonies of these four composers together with the works of Goldmark Zemlinsky Schoenberg Berg Smetana Fibich Janáček and others are treated in Volume IV The Second Golden Age of the Viennese Symphony covering the period from roughly 1860 to 1930 **Music in Print Master Title Index** ,1995 *The Monthly Musical Record* ,1898 Includes music The Book of World-famous Music James J. Philosophy of Music R.A. Sharpe,2015-01-30 This lively and lucid introduction to the philosophy of music concentrates on the issues that illuminate musical listening and practice It examines the conceptual debates relevant to the understanding and performing of music and grounds the philosophy to practical matters throughout Ideal for a beginning readership with little philosophical background the author provides an overview of the central debates enlivened by a real sense of enthusiasm for the subject and why it matters The book begins by filling in the historical background and offers readers a succinct summary of philosophical thinking on music from the Ancient Greeks to Eduard Hanslick and Edmund Gurney Chapter 2 explores two central questions what is it that makes music or to be precise some pieces of music works of art And what is the work of music per se Is it just what we hear the performance or is it something over and above that something we invent or discover Chapter 3 discusses a problem peculiar to music and one at the heart of philosophical discussion of it can music have a meaning And if so what can it be Chapter 4 considers whether music can have value Are there features about music that make it good features which can be specified in criteria Is a work good if and only if it meets with the approval of

an ideally qualified listener How do we explain differences of opinion Indeed why do we need to make judgements of the relative value of pieces of music at all This engaging and stimulating book will be of interest to students of aesthetics musical practitioners and the general reader looking for a non technical treatment of the subject Slavonic Dances, Op. 46 Antonín Dvořák,1878 **The Term's Music** Cedric Howard Glover,1925 **Music in Print Master Composer Index** ,1995
