**The Oxford English Literary History: Volume 12: The Last of England?** Randall Stevenson,2005-11-10 English Literature in the 1960s soon threw off its post war weariness and the tepid influences of the previous decade New voices new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century Drama thrived on its rapidly rebuilt foundations New freedoms of style and form revitalised fiction Poetry too gradually recovered the variety and inventiveness of earlier years As well as comprehensively charting these changes in the literary field Randall Stevenson persuasively pinpoints their origins in the historical social and intellectual pressures of the times Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson

shows to be far more imaginative and exciting than has yet been recognised. Lucid, accessible and engaging, this volume of the Oxford English Literary History presents a unique illumination of its age, one we have lived through but are only just beginning to understand. **The Blackwell Companion to Religion in America** Philip Goff, 2010-03-25 This authoritative and cutting edge companion brings together a team of leading scholars to document the rich diversity and unique viewpoints that have formed the religious history of the United States. A groundbreaking new volume which represents the first sustained effort to fully explain the development of American religious history and its creation within evolving political and social frameworks. Spans a wide range of traditions and movements from the Baptists and Methodists to Buddhists and Mormons. Explores topics ranging from religion and the media, immigration and piety, though to politics and social reform. Considers how American religion has influenced and been interpreted in literature and popular culture. Provides insights into the historiography of religion but presents the subject as a story in motion rather than a snapshot of where the field is at a given moment.

**Race and the Forms of Knowledge** Ben Spatz, 2024-02-15 Enacts a radically interdisciplinary intersectionality to position performance based research in solidarity with decoloniality. This boldly innovative work interrogates the form and meaning of artistic research, also called practice research, performance as research and research creation, examining its development within the context of predominately white institutions that have enabled and depoliticized it while highlighting its radical potential when reframed as a lineage of critical whiteness practice. Ben Spatz crafts a fluid yet critical new framework explored via a series of case studies that includes Spatz's own practice as research to productively confront hegemonic modes of white writing and white institutionality. Ultimately taking Jewishness as a paradigmatically molecular identity variously configured as racial, ethnic, religious or national, they offer a series of concrete methodological and formal proposals for working at the intersections of embodied identities, artistic techniques and alternative forms of knowledge.

**Race and the Forms of Knowledge: Technique, Identity and Place in Artistic Research** takes inspiration from recent critical studies of blackness and indigeneity to show how artistic research is always involved in the production and transformation of identity. Spatz offers a toolkit of practical methods and concepts from molecular identities to audiovisual ethnotechnics and earthing the laboratory for reimagining the university and other contemporary institutions.
