Small Industry Bulletin For Asia No 30:

Small and Medium Enterprises in Distress Philippe Regnier, 2017-11-22 This title was first published in 2000 Since 1998 there have been many diagnoses studies and theories attempting to explain the East Asian economic crisis and the impact on major economic and financial sectors This text aims to fill a gap in the literature by examining the effects on small and medium sized enterprises From early 1998 unemployment figures in the region rose rapidly although large enterprises were not as yet engaged in corporate restructuring Registered small and medium sized enterprises SMEs and microenterprises were a major source of this unemployment especially among unskilled and seasonal workers This volume covers the debate in five ways An introductory chapter presents an overview of the SME international experience both in OECD and developing economies Part I looks at the economic and social contribution of SMEs in Thailand before and after the 1997 1998 crisis and Part II reviews government policy and SME promotion initiatives Part III explores the assumption that local SMEs linked to large firms have been more resilient while the concluding chapter suggests a range of policies which have been derived from experiences in places other than Thailand The Law of Riba in Islamic Banking Hasan Gürak, Neelambar Hatti, 2024-03-12

The issue of riba that is interest the excess or surplus on loans is crucial for both Islamic and non Islamic countries Western economic systems use interest to distribute financial resources efficiently for investment and or consumption while Islamic economies pursue a completely different strategy for financing loans which adheres to Islamic laws and prohibits the activities of conventional banking systems with regard to interest This book argues that there is scope for new definitions and analysis based on alternative concepts which respect Islamic values and principles yet pave the way for modification and debate The book comprises of two parts Theoretical issues are dealt with in the first section The first two chapters examine conventional Islamic views on the prohibition of riba while Chapters 3 and 4 contain unprecedented and alternative theoretical analysis based on concepts such as earned halal permitted legal vs unearned haram impermissible illegal income and SUKUK that is Islamic interest free bonds The second part of the book tackles another unconventional aspect of Islamic finance that is the concept of NAS The book considers whether the NAS influenced anti inflationary interest policy was a success or failure Empirical data is evaluated in terms of bank incomes inflation rate interest rate and the distribution of income This book will be a useful guide for students scholars and researchers of Islamic banking and finance Small Industry Bulletin for Asia and the Pacific.
