Smut Murray S. Davies, 1983 **Handbook of Sexuality-Related Measures** Clive M. Davis, 1998 Fundamental to understanding human sexual expression is reliable and valid measurement and assessment. Many instruments have been developed to measure a myriad of sexuality related states, traits, behaviours and outcomes. Few are easily accessible and the information is often limited concerning appropriate use and psychometric properties. To counter these problems, the *Handbook of Sexuality Related Measures* reproduces more than 200 instruments accompanied by essential information for their use in research, educational and clinical settings. Each chapter describes the development and appropriate use of each instrument. Reliability and validity data are summarized and referenced.

Undressed for Success B. Foley, 2016-09-27 Using the tools of performance studies, gender theory and cultural history, Brenda Foley explores the striking similarities between beauty pageantry and striptease. For example, women in both project a normal femininity and adhere to a strict hierarchy. Miss America contestants look down upon Miss Universe contestants while theatrical burlesque artists saw themselves as far above mere carnival strippers. *Undressed for Success* collects extensive primary source research: newspapers, journals, trade publications, photography collections, press releases, memoirs and interviews with both strippers and pageant contestants and employs a wide array of gender, feminist and performance theory to analyze them.

Hooked in Film John Markert, 2013-05-23 Though drug use was widespread in the nineteenth century, the negative influence of narcotics was mostly unknown. Cinema of the early twentieth century was instrumental in making viewers aware of the harmful effects of drugs. Throughout the decades, images of drugs such as marijuana, LSD and heroin in films impacted both negatively and positively the national perception of their use. In fact, the use, popularity and opinion of certain drugs often follow their status on the big screen. In *Hooked in Film*, John Markert takes a close look at the correlation between social policies and the public view of drugs and their portrayals in film. In this volume, Markert examines the changing social attitudes toward illegal drugs and their cinematic depictions from as early as the 1894 film *Chinese Opium Den* to the present. The first section of this book focuses on the demonization of drugs between 1900 and 1959, followed by an assessment of marijuana on the big screen after 1960 when the drug was shown as part of everyday life with no serious consequences. Post 1960 depictions of heroin use, which have remained consistently negative, are also analyzed. Markert then takes a close look at the portrayals of powdered cocaine after the 1960s and the emergence of crack in the mid 1980s. Finally, Markert discusses hallucinogens, Ecstasy and methamphetamines and their roles on the big screen. Tracking hundreds of films spanning more than a century, *Hooked in Film* looks at camp classics like *Reefer Madness*, comedies such as *Cheech and Chong's Up in Smoke*, *Dazed and Confused* and *Pineapple Express*, and dramas including *Panic in Needle Park* and *Requiem for a Dream*. Scholars and students of cinema, popular culture, media studies and sociology will find this book a valuable examination of how cinematic portrayals of drugs have changed over time and how those images have influenced public perception of drugs and even public policy.

Peacocks, Chameleons, Centaurs Wayne Brekhus, 2003-10 What does it mean to be a gay man living in the suburbs Do you identify primarily as gay or suburban or some combination of the two For that matter how does anyone decide what his or her identity is In this first ever ethnography of American gay suburbanites Wayne H Brekhus demonstrates that who one is depends at least in part on where and when one is For many urban gay men being homosexual is key to their identity because they live work and socialize in almost exclusively gay circles Brekhus calls such men lifestylers or peacocks Chameleons or commuters on the other hand live and work in conventional suburban settings but lead intense gay social and sexual lives outside the suburbs

Centaurs meanwhile or integrators mix typical suburban jobs and homes with low key gay social and sexual activities In other words lifestylers see homosexuality as something you are commuters as something you do and integrators as part of yourself Ultimately Brekhus shows that lifestyling commuting and integrating embody competing identity strategies that occur not only among gay men but across a broad range of social categories What results then is an innovative work that will interest sociologists psychologists anthropologists and students of gay culture Time Maps Eviatar Zerubavel, 2020-03-04 The pioneering sociologist and author of The Seven Day Circle continues his analysis of time with this fascinating look at history as social construct Who were the first people to inhabit North America Does the West Bank belong to the Arabs or the Jews Why are racists so obsessed with origins Is a seventh cousin still a cousin Why do some societies name their children after dead ancestors As Eviatar Zerubavel demonstrates in Time Maps we cannot answer burning questions such as these without a deeper understanding of how we envision the past In a pioneering attempt to map the structure of collective memory Zerubavel considers the cognitive patterns we use to organize the past and the social grammar of conflicting interpretations of history Drawing on fascinating examples that range from Hiroshima to the Holocaust and from ancient Egypt to the former Yugoslavia Zerubavel shows how we construct historical origins how we tie discontinuous events together into stories how we link families and entire nations through genealogies and how we separate distinct historical periods from one another through watersheds such as the invention of fire or the fall of the Berlin Wall Time Maps extends beyond all of the old clichés about linear circular and spiral patterns of historical process and provides us with models of the actual legends used to map history brilliant and elegant Hayden White University of California Santa Cruz
