Snakes And Snake Hunting:

Snakes and Snake Hunting Carl Kauffeld, 1995-01-01 This work recounts some of the trips Carl Kauffeld made over the years from the Okeechobee swamps of Florida to the barren Arizona desert and New York State's Dutchess County A retrospective by Robert T Zappalorti has been added to this reprinted edition Snake Hunting Guide Will Bird, Phil Peak, 2007-01-01 **Snake Hunt** Jill Kastner, 1993 A young girl looks forward to going snake hunting in the woods with her grandfather Hunting and the Ivory Tower Douglas Higbee, David Bruzina, 2018-05-11 Seventeen hunter scholars explore the hunting experience and question common negative stereotypes Despite the academy having a reputation for supporting broad and open inquiry in scholarship some academics have not extended this open minded support to colleagues personal pursuits A variety of scholars enjoy hunting which has been stereotyped by some as an activity of the unsophisticated In *Hunting and the Ivory Tower* Douglas Higbee and David Bruzina present essays by seventeen hunter scholars who explore the hunting experience and question negative assumptions about hunting made by intellectuals and academics who do not hunt Higbee and Bruzina suspect most academics understanding of hunting is based on brief television news reports of hunter politicians and commercials for reality TV shows such as *Duck Dynasty* The editors contend that few scholars appreciate the complexities of hunting or give much thought to its ethical ecological and cultural ramifications Through this anthology they hope to start a conversation about both hunting and academia and how they relate The contributors to this anthology are academics from a variety of disciplines each with firsthand hunting experience Their essays vary in style and tone from the scholarly to the personal and represent the different ways in which scholars engage with their avocation The essays are grouped into three sections the first focuses on the often fraught relation between hunters and academic culture the second section offers personal accounts of hunting by academics and the third portrays hunting from an explicitly academic point of view whether in terms of value theory metaphysics or history Combined these essays render hunting as a culturally rich deeply personal and intellectually satisfying experience worthy of further discussion A foreword is provided by Robert DeMott the Edwin and Ruth Kennedy Distinguished Professor at Ohio University in Athens Ohio He is a teacher writer critic and internationally respected expert on novelist John Steinbeck The Field Herping Guide Mike Pingleton, Joshua Holbrook, 2019-06-01 Herping is the observation of amphibians and reptiles for recreation or for the production of citizen science the cold blooded equivalent of birding *The Field Herping Guide Finding Amphibians and Reptiles in the Wild* is the first book to explore the fun and fascinating world of observing herpetofauna across North America The natural world holds an amazing diversity of herps some as close as our own backyards This guidebook is geared toward new field herpers and uses proven methods from professional herpetologists Mike Pingleton and Joshua Holbrook The guide addresses basic questions new field herpers have about amphibians and reptiles What do I need to know about their biology Where do I look for them and when These topics are covered in a straightforward manner with images a glossary of essential terms personal
