Gingerich, 2019-05-09 An overview of evolutionary rates analyzing data from laboratory field and fossil record studies to extract their underlying generation to generation rates The Private Eye Mary Burns, 1996 In *The Private Eye* we learn about snow geese through the eyes of Native people scientists artists hunters and farmers Yup ik Eskimo Charles Hunt harvests snow geese along the Yukon River delta each fall continuing a subsistence way of life that has existed for millennia Russian Canadian and US scientists track the movements of the geese each spring and fall banding sexing counting and precisely monitoring the activities of these beautiful birds Robert Bateman provides an artist s view of nature and relates how his curiosity led him to join a camp set up at a remote nesting site Mary Burns also talks to hunters joining a party of them as they wait for their snow geese decoys to lure the real thing into a Westham Island field in the Fraser delta To complete the experience she
