**Victimhood Nationalism** Jie-Hyun Lim, 2025-04-01 Nationalism today depends on the perception of victimhood. The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority. Koreans recall Japanese colonial atrocities while Japan commemorates the atomic bombings of Hiroshima and

Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity

*Global Easts* Jie-Hyun Lim, 2022-07-05 South Korean historian Jie Hyun Lim raised under an anticommunist dictatorship turned to Marxian thought to explain his country's development even as he came to struggle with its Eurocentrism As a transnational scholar working in postcommunist Poland Lim recognized striking similarities between Korean and Polish history and politics One realization stood out Both Korea and Poland at once the West for Asia yet Eastern Europe had been assigned the role of East This book explores entangled Easts to reconsider global history from the margins Examining the politics of history and memory Lim reveals the affinities linking Eastern Europe and East Asia He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory Ranging across Poland Germany Israel Japan and Korea Lim traces the global history of how notions of victimhood have become central to nationalism He criticizes mass dictatorships of right and left in the Global Easts considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy Lim argues that nationalism is inherently transnational critiquing how the nationalist imagination of the Global East has influenced countries across borders Theoretically sophisticated and conceptually innovative this book sheds new light on the transnational complexity of historical memory and imagination the boundaries between democracy and mass dictatorship and the fluidity of East and West
