Fred Erisman

Sob Sister Journalism Contributions To The Study Of Mass Media And Communications:

Sob Sister Journalism Phyllis Abramson, 1990-09-18 On June 25 1906 an event of little public importance occurred Fueled by popular mood and climate and capitalized upon by the press it became the hottest story of the century Phyllis Leslie Abramson's book recreates the social political and economic climate the murder and the subsequent trial that led to the manifestation of sob sister journalism The story was prosaic an insanely jealous man murdered his wife's lover The protagonists were front page material Stanford White famous architect and womanizer Harry K Thaw scion of an influential family and the young and beautiful Evelyn Nesbit Three famous newspapers chose four women journalists to provide daily doses of tear producing reportage The sob sisters were born Exploring the origins of sob sister journalism Abramson first surveys turn of the century America She includes sections on industrialization urbanization immigration the political climate women the press and New York City and gives biographical sketches of the four female journalists The trial itself encompasses the main portion of her book Day by day courtroom events alternate with the sob sisters actual newspaper coverage The volume concludes with an analysis of the development of sob sister journalism and the impact of this new journalistic style An appendix offers a postscript on the lives of the protagonists and the sob sisters [In Their Own Words](#)

Fred Erisman, 2021-01-15 Amelia Earhart's prominence in American aviation during the 1930s obscures a crucial point she was but one of a closely knit community of women pilots Although the women were well known in the profession and widely publicized in the press at the time they are largely overlooked today Like Earhart they wrote extensively about aviation and women's causes producing an absorbing record of the life of women fliers during the emergence and peak of the Golden Age of Aviation 1925 1940 Earhart and her contemporaries however were only the most recent in a long line of women pilots whose activities reached back to the earliest days of aviation These women too wrote about aviation speaking out for new and progressive technology and its potential for the advancement of the status of women With those of their more recent counterparts their writings form a long sustained text that documents the maturation of the airplane aviation and women's growing desire for equality in American society In Their Own Words takes up the writings of eight women pilots as evidence of the ties between the growth of American aviation and the changing role of women Harriet Quimby 1875 1912 Ruth Law 1887 1970 and the sisters Katherine and Marjorie Stinson 1893 1977 1896 1975 came to prominence in the years between the Wright brothers and World War I Earhart 1897 1937 Louise Thaden 1905 1979 and Ruth Nichols 1901 1960 were the voices of women in aviation during the Golden Age of Aviation Anne Morrow Lindbergh 1906 2001 the only one of the eight who legitimately can be called an artist bridges the time from her husband's 1927 flight through the World War II years and the coming of the Space Age Each of them confronts issues relating to the developing technology and possibilities of aviation Each speaks to the importance of assimilating aviation into daily life Each details the part that women might and should play in advancing aviation Each talks about how aviation may enhance women's participation in contemporary American society

making their works significant documents in the history of American culture **This Side of Despair** Philip Hanson, 2008

During the Great Depression economic political and social crises converge with a rapidly expanding movie industry to create a product that offers a unique history of the period This text studies 1930s films as a unique and sometimes camouflaged record of the great crisis *Political Controversy* Robert D. Spector, 1992-02-28 This work provides the first full scale examination of the eighteenth century periodical *Political Controversy* and of the essay sheets reprinted therein *Briton Auditor North Briton and Monitor* These essay sheets were published in England at the end of the Seven Years War with France in support of and in opposition to Lord Bute's proposed terms in the treaty negotiations *Political Controversy* reprinted the essay sheets weekly along with the editor's annotations material from other publications and original contributions from readers The journal provides modern readers with a good example of eighteenth century propaganda techniques and is a guide to the issues revolving around the war the struggle for governmental control the British Empire and the liberty of the press This book provides a clear analysis of the methods used in the political propaganda of the journal and the essay sheets including the writings of three significant authors Tobias Smollett Arthur Murphy and John Wilkes The work opens with a discussion of the essay sheets and their relationship to one another and follows with two chapters devoted to *Political Controversy* The final chapter covers the most significant case for freedom of the press in England up to that time *North Briton No 45* This book will be of interest to scholars and students concerned with journalism history political science and literature **New Books in the Communications Library** University of Illinois at Urbana-Champaign. Communications Library, 1990-10 **The Media in the 1984 and 1988 Presidential Campaigns** Guido Hermann Stempel, John W. Windhausen, 1991-03-30 Presidential candidates have criticized the press since the days of Thomas Jefferson with claims of media bias for one party or another Focusing on the presidential campaigns of 1984 and 1988 this study provides a comprehensive analysis of media bias in two particular elections **Resources in Education**, 1987 **JQ. Journalism Quarterly**, 1991 Includes section Book reviews and other bibliographical material Bibliographic Index, 1991

New Books on Women and Feminism, 1991 *American Book Publishing Record*, 1990 □□□□□□□□ □□□□□□□□□□□□, □□ □□□□□□□□□□. □□□□□□□□□□, 1994 **Journal of Women's History**, 1993 **Journalism for the 21st Century** Tom Koch, 1991-07-30 This is a book about the news the way it is written and the forms it takes It examines the relation between the content of public information and the potential affect of new technologies on the degree and type of information available in the public forum Tom Koch uses concrete casebook examples to demonstrate the degree to which news information can be changed through the efficient and cost effective application of online bibliographic resources accessed by personal computers Koch argues that new computer based technologies will revolutionize news and public information by fundamentally altering the relation between writer and news subject He shows how electronic databases by making enormous amounts of data on virtually every subject available to the news writer or editor have changed the equation which

has defined news since at least the 1920s To make clear the degree to which these systems will transform news the author demonstrates how online resources can be used efficiently and inexpensively by generalists Practical issues of online use are presented within the context of both the parameters of contemporary journalism and the means by which these technologies address its limits Two separate chapters one describing search technologies and the other reviewing database organization will be of practical value to both neophyte and journeyman news and public information writers alike Using examples from his own and other s work Koch demonstrates ways to carry out simple and inexpensive searches His book will be especially important to the news or research librarian reporter and the public information or public relations writer The Routledge Companion to Digital Journalism Studies Scott A. Eldridge II,Bob Franklin,2016-11-18 The Routledge Companion to Digital Journalism Studies offers an unprecedented collection of essays addressing the key issues and debates shaping the field of Digital Journalism Studies today Across the last decade journalism has undergone many changes which have driven scholars to reassess its most fundamental questions and in the face of digital change to ask again Who is a journalist and What is journalism This companion explores a developing scholarly agenda committed to understanding digital journalism and brings together the work of key scholars seeking to address key theoretical concerns and solve unique methodological riddles Compiled of 58 original essays from distinguished academics across the globe this Companion draws together the work of those making sense of this fundamental reconceptualization of journalism and assesses its impacts on journalism s products its practices resources and its relationship with audiences It also outlines the challenge presented by studying digital journalism and more importantly offers a first set of answers This collection is the very first of its kind to attempt to distinguish this emerging field as a unique area of academic inquiry Through identifying its core questions and presenting its fundamental debates this Companion sets the agenda for years to come in defining this new field of study as Digital Journalism Studies making it an essential point of reference for students and scholars of journalism **Media Messages in American Presidential Elections** Diana Owen,1991-01-18 Focusing her attention on the audience Diana Owen investigates the way people process media messages during campaigns This study examines the role of ads news stories poll results and debates in presidential elections Based on surveys fielded during the 1984 and 1988 presidential campaigns Owen compares these four message categories to determine their relative importance to voters In addition she investigates how individuals make use of messages in establishing their perception of candidates and issues Mass communication s uses and gratifications approach provides this study s theoretical foundation The book is designed for researchers and students in communications and mass media voting behavior and public opinion Using surveys conducted during the 1984 and 1988 presidential campaigns Diana Owen first addresses two basic research questions How do media messages transmitted during presidential elections shape voter attitudes toward and perceptions of candidates and campaign issues Do different types of media messages influence voters feelings about candidates and elections in different ways Focusing on candidate advertisements

newspaper and television news stories poll results and presidential debates she also ties voters general media use habits to the way they receive and process media messages

The Rhetoric of Terrorism and Counterterrorism Richard Leeman, 1991-01-21 Using the responses of the Reagan and Nixon administrations to terrorism as case studies this treatise prescribes democratic rhetoric as the most strategic counterterrorist response available

The Cold War Guerrilla Elaine Windrich, 1992-01-30 This is the first book on U S policy in Angola during the 1980s Elaine Windrich shows how the Reagan administration and U S media inflated the importance of Jonas Savimbi and helped inflame the civil war in Angola Pinpointing media strengths and weaknesses in shaping and in reporting on a major crisis in Africa this ground breaking work analyzes Savimbi as a cold war guerrilla the role of different media segments in the dirty war in Angola and the right wing influence of the Reagan and Bush administrations into the 1990s This moving and well researched account providing insights into how the U S media covers African and Third World issues is a good text for foreign correspondents and for courses dealing with U S foreign policy journalism and communications and with Africa The image of the Angolan rebel leader as a freedom fighter is shown to be a product largely of the U S media and the collaboration of right wing lobby groups closely linked to the Reagan and Bush administrations The resurrection of Savimbi who represented a lost cause after his defeat in the Angolan civil war in 1976 but who was kept alive by South African support was due to his adoption by the Reagan administration as an ally in the crusade against Third World governments supported by the Soviet Union The study shows how the mainstream media tended to follow the administration s agenda and right wing views in portraying Savimbi as an ally Windrich also explains how the Bush administration and the media have continued to support Savimbi and his rebel movement

The Democracy Gap Jill Hills, S. Papathanassopoulos, 1991-07-30 This work examines the political choices that surround the new technologies of telecommunications and broadcasting and focuses on the essential issues of who determines how they are implemented and why as well as who benefits from them In its study of the distributional potential of these technologies the book concentrates on the political and economic interests that are in conflict over the possibilities and in particular on the ways in which the American and European governments have attempted to innovate organize and control information technology telecommunications and broadcasting The technological innovation backed by industrialized governments the authors contend has largely served political and military interests rather than those of the general population Written from the perspective of the individual citizen the book argues that the emphasis by governments on industrial leadership has preempted concern for access information and accountability Among the issues discussed are the impact that the globalization of industry is having on national sovereignty the evolution of three international trading blocs through the standardization of high definition television and digital networks the politics of cable and satellite transmission and the convergence of broadcasting and telecommunications This work offers a unique linkage between telecommunications broadcasting and information technology and it argues that governments have lost sight of the informational underpinnings

of the democratic process Students of politics international relations political economy and media studies will find this book to be an invaluable resource

Risky Business Lee Wilkins, Philip Patterson, 1991-03-30 The fifteen chapters in this volume deal with science medicine technology disaster and hazard coverage by the media from the perspectives of sociology psychology philosophy and journalism Written for the active reader who is concerned about the issues and willing to begin the work necessary to bring about change the volume suggests ways in which journalists policy makers and citizens can work to correct some of the more pervasive problems of media coverage of science In her foreword Dorothy Nelkin examines the images of science and technology that are conveyed through the media and discovers the dominant theme to be that of scientists as problem solvers authorities and the ultimate source of truth Scientists are seen as pursuing an arcane activity that is both above normal human understanding and beyond criticism Nelkin ends her overview by posing two questions that the succeeding chapters address Why is science writing so uncritical of science and why are scientists so critical of the press The goal of the first segment of the book is the recognition that media coverage of science follows certain predictable patterns and that those patterns will not change unless journalists critically examine their work The second half of the book looks at the decision making process involved in judgments about what and how to publicize and what to keep secret Three early chapters provide a critique of the concept of risk communication the one way transmission of information about various risks in the environment from the expert scientific community to the lay public Media performance is the subject of three chapters that explore research on a diversity of topics from the reporting of medicine and health to media coverage of disasters and natural disasters in both the United States and Japan The influence of individuals who serve as sources and the mandates of professional norms are revealed as the two major factors in science reporting The next two chapters address the issues of secrecy and disclosure focusing on airline and airport safety and media coverage of military science and technology Chapter nine tackles the problem of media coverage of organ donations and transplants Then using as a base an analysis of media coverage of the greenhouse effect in 1987 and 1988 editors Lee Wilkins and Philip Patterson explain when and how certain issues and events find a political symbol Chapter eleven Disasters and the Making of Political Careers offers both analysis of the politics of disaster and advice for journalists and politicians about how they can and cannot expect to cope with disastrous events In the final chapter Wilkins and Patterson address Nelkin s original questions These pages make important reading for journalists and other media specialists politicians policy makers and members of the scientific community This book is also an excellent choice for supplemental reading lists for courses in journalism and communications

This is likewise one of the factors by obtaining the soft documents of this **Sob Sister Journalism Contributions To The Study Of Mass Media And Communications** by online. You might not require more become old to spend to go to the ebook inauguration as with ease as search for them.
