of ethnic identity Through this writing she achieves a genuine embrace of the extraordinary adoptive country that irrevocably ties her to her beloved American daughter May you reader be inspired to collect and stitch for posterity your tapestry of family stories

**Killing Tradition** Simon J. Bronner, 2008-11-21 Across the country and around the world people avidly engage in the cultural practice of hunting Children are taken on rite of passage hunting trips where relationships are cemented and legacies are passed on from one generation to another Meals are prepared from hunted game often consisting of regionally specific dishes that reflect a community's heritage and character Deer antlers and bear skins are hung on living room walls decorations and relics of a hunter's most impressive kills Only 5 percent of Americans are hunters but that group has a substantial presence in the cultural consciousness Hunting has spurred controversy in recent years inciting protest from animal rights activists and lobbying from anti cruelty demonstrators who denounce the custom But hunters have responded to such criticisms and the resulting legislative censures with a significant argument in their defense the claim that their practices are inextricably connected to a cultural tradition Further they counter that they as representatives of the rural lifestyle pioneer heritage and traditional American values are the ones being victimized Simon J Bronner investigates this debate in Killing Tradition Inside Hunting and Animal Rights Controversies Through extensive research and fieldwork Bronner takes on the many questions raised by this problematic subject Does hunting promote violence toward humans as well as animals Is it an outdated activity unnecessary in modern times Is the heritage of hunting worth preserving Killing Tradition looks at three case studies that are at the heart of today's hunting debate Bronner first examines the allegedly barbaric rituals that take place at deer camps every late November in rural America He then analyzes the annual Labor Day pigeon shoot of Hegins Pennsylvania which brings animal rights protests to a fever pitch Noting that these aren't simply American concerns and that the animal rights movement in America is linked to British animal welfare protests Bronner examines the rancor surrounding the passage of Great Britain's Hunting Act of 2004 the most comprehensive and divisive anti hunting legislation ever enacted The practice of hunting is sure to remain controversial as it continues to be touted and defended by its supporters and condemned and opposed by its detractors With Killing Tradition Bronner reflects on the social psychological and anthropological issues of the debate reevaluating notions of violence cruelty abuse and tradition as they have been constructed and contested in the twenty first century

Benelong's Haven Richard Chenhall, 2014-02-01

Benelong's Haven was the first residential alcohol and drug treatment program controlled and operated by an Aboriginal Australian It was established by Val Bryant in 1974 in the Sydney suburb of Marrickville before moving to the small township of Kinchela Creek on the mid north coast of New South Wales three years later The centre is one example of the different approaches Aboriginal people have developed to deal with the problem of drug and alcohol abuse in their communities where people who have experienced problems with alcohol and drug use can leave their existing environment and come to a different place Anthropologist Richard Chenhall first visited Benelong's Haven for two weeks in late 1997 At the invitation of

Val Bryant he returned later for an extended period of fieldwork observing and participating in the centre's activities and getting to know staff and residents There have been few studies that reflect Aboriginal social life in larger cities or in institutional settings Benelong's Haven represents an attempt to examine at the ethnographic level the different ways in which individuals are shaped by and interact within the larger structures and social institutions that surround them More specifically it documents an instance of Australian Aboriginal people trying to achieve change in their lives

0. 00: *Tales of the Sober Kid at College* Joe Micik, 2012-06-06 Joe Micik's first novel and the first in the Connor Reynolds series There is a stereotype of college kids even those heading there for the first time they like to drink party smoke and break whatever other rules they can if only for the sake of breaking them Connor Reynolds does not fit this description Connor is an 18 year old young man from a small town in Michigan who heads to Ohio for college and on the outside he appears to be a standoffish killjoy with no real desire to be there or make friends What the people there don't know is why As it turns out Connor used to behave like a lot of students he meets at Garfield State University but he experienced a life changing event almost a year earlier that completely altered his perception of both his peers and his existence The trauma ended but the burden of pain and fear follow him wherever he goes making for an awkward miserable experience Connor avoids interpersonal contact whenever possible and hides his past while one of his secrets in particular tears him apart from the inside In spite of his insistence that he be left alone he is befriended at school by one person with a big heart who takes a special interest in breaking him out of his shell but Connor refuses Yet when his personal life begins to spiral out of control he is thrust into the depths of his own psyche and disaster looks ready to strike again Connor is forced to make many hard decisions to improve his status and open himself up to friendship Unfortunately one of those choices has the complete opposite of the intended effect and threatens to ruin his life A blend of sarcastic humor and drama this young adult novel is a story of fear sacrifice and finding oneself      Monthly Consular and Trade Reports ,1906      **Daily Consular and Trade Reports** ,1906
