**A Practical Guide to Integrating Technology into Task-Based Language Teaching** Marta

González-Lloret, 2015-12-22 However exciting new technologies and educational tools may seem they can become solely for entertainment unless their design use and evaluation are guided by principles of education and language development Task based Language Teaching TBLT provides an excellent approach for teachers who want to realize the potential of technology to engage learners and improve language learning inside and outside the classroom This practical guide shows teachers how to successfully incorporate technology into TBLT in the classroom and to develop technology mediated materials Whether the goal is to conduct a needs analysis to develop classroom or homework materials or to implement a new approach of student assessment A Practical Guide to Integrating Technology into Task Based Language Teaching will be a welcome resource for language teachers at all levels Designed for use in the classroom as well as for independent study the book includes reflective questions activities and further reading at the end of each chapter Examples of units in Chinese Spanish ESL and the hospitality industry are provided Georgetown Digital Shorts longer than an article shorter than a book deliver timely works of peer reviewed scholarship for a fast paced world They present new ideas and original content that are easily digestible for students scholars and general readers

**Language Teaching with Video-Based Technologies** Michael

Thomas, Christel Schneider, 2020-07-03 This book explores the implications of technology mediated project based language learning for CALL teacher development focusing on the role of video based instruction in elucidating challenges and opportunities to promote learner creativity in the language classroom The volume builds on existing literature on project based language learning by extending the focus on the affordances of machinima digital video created by teachers and learners to capture experience in 3D immersive games or virtual worlds Drawing on data from a large scale research project featuring case studies that examine different facets of CALL teacher education the book calls attention to language learning and teaching strategies that encourage both learners and teachers to develop innovative approaches in the language classroom and how such approaches promote the integration of lifelong learning skills alongside traditional linguistic competencies Offering a dynamic contribution to the growing literature on the interface of language learning and teaching and technology this book will appeal to students and researchers in applied linguistics and language and education as well as those interested in the latest developments in CALL

**Teaching Languages with Technology** Euline Cutrim

Schmid, Shona Whyte, 2014-11-03 This book draws on theories of second language acquisition SLA to illustrate how interactive white board technology can be exploited to support language acquisition It examines interaction collaboration and negotiation of meaning and focus on form in the communicative language classroom in primary secondary and vocational schools In recent years new technologies have been incorporated into second and foreign language education as tools for implementing teaching methodologies IWBs have established their role in the field of computer assisted language learning CALL and are an effective and inspiring tool which motivates both teachers and learners Although the number of IWBs in

classrooms has rapidly increased over the past decade in many parts of the world teacher training materials and pedagogical support for the design evaluation and implementation of IWB based materials in the foreign language classroom has not kept pace Research also shows that language teachers do not always use IWBs in pedagogically sound ways There is a real need for the development of training models and examples of good practice which can support teachers in developing the necessary competencies for exploiting the IWB in ways consistent with current theories of language teaching pedagogy This book provides that best practice and gives a full account of in depth research in an accessible manner

**Disruptive Technologies and the Language Classroom** Regine Hampel, 2019-11-06 Although new technologies are embedded in students lives today there is often an assumption that their use is transparent inconsequential or a distraction This book combines complex systems theory with sociocultural theory and the multimodal theory of communication providing an innovative theoretical framework to examine how communication and meaning making in the language classroom have developed over time how technology impacts on meaning making and what the implications are for learners teachers institutions and policy makers Recent studies provide evidence for the disruptive effect of technology which has resulted in a phase shift that is reshaping language education by creating new interaction patterns allowing for multimodal communication and introducing real world communication into the classroom The book proposes ways of responding to this shift before concluding that the new technologies are radically transforming the way we learn It is likely to appeal to a range of readers including students academics teachers and policy makers

**Teaching Languages Online** Carla Meskill, Natasha Anthony, 2015-07-30 This new edition of Teaching Languages Online supports the professional development of language educators as they teach all or part of their courses online Containing extensive additions this revised edition includes new models illustrations and heuristics to further support research based conceptualization creativity and practice In non technical prose with emphasis on excellence in pedagogical practice the text takes both the new and experienced language instructor through the nuts and bolts of online teaching practices using a wide range of examples to illustrate these practices As well as providing new resources and models this new edition also considers the impact of broader technological and pedagogical changes including mobility learning on the move and learning in 3D environments
