Social Action And Nonviolence:

Reconstructing Nonviolence Roberto Baldoli, 2018-09-03 Nonviolent methods of action have been a powerful tool since the early twentieth century for social protest and revolutionary social and political change and there is diffuse awareness that nonviolence is an efficient spontaneous choice of movements individuals and whole nations Yet from a conceptual standpoint nonviolence struggles to engage with key contemporary political issues the role of religion in a post secular world the crisis of democracy and the use of supposedly nonviolent techniques for violent aims Drawing on classic thinkers and contemporary authors in particular the Italian philosopher Aldo Capitini this book shows that nonviolence is inherently a non systematic and flexible system with no pure immaculate thought at its core Instead at the core of nonviolence there is praxis which is impure because while it aims at freedom and plurality it is made of less than perfect actions performed in an imperfect environment by flawed individuals Offering a more progressive transformative and at the same time pluralistic concept of nonviolence this book is an original conceptual analysis of political theory which will appeal to students of international relations global politics security studies peace studies and democratic theory

The Critique of Nonviolence Mark Christian Thompson, 2022-06-28 How does Martin Luther King Jr understand race philosophically and how did this understanding lead him to develop an ontological conception of racist police violence In this important new work Mark Christian Thompson attempts to answer these questions examining ontology in Martin Luther King Jr s philosophy Specifically the book reads King through 1920s German academic debates between Martin Heidegger Rudolf Bultmann Hans Jonas Carl Schmitt Eric Voegelin Hannah Arendt and others on Being gnosticism existentialism political theology and sovereignty It further examines King s dissertation about Tillich as well other key texts from his speculative writings sermons and speeches positing King s understanding of divine love as a form of Heideggerian ontology articulated in beloved community Tracking the presence of twentieth century German philosophy and theology in his thought the book situates King s ontology conceptually and socially in nonviolent protest In so doing The Critique of Nonviolence reads King s Letter from a Birmingham Jail 1963 with Walter Benjamin s Critique of Violence 1921 to reveal the depth of King s political theological critique of police violence as the illegitimate appropriation of the racialized state of exception As Thompson argues it is in part through its appropriation of German philosophy and theology that King s ontology condemns the perpetual American state of racial exception that permits unlimited police violence against Black lives

Flesh and Blood James W. Messerschmidt, 2004-10-08 Sociologists and criminologists

have long known that there is a relationship between masculinity and crime. Indeed, gender has been advanced consistently as the strongest predictor of criminal involvement. *Flesh and Blood* provides a fascinating account of the connection among adolescent gender diversity, the body, and assaultive violence. The book is divided into four parts. In Part I, the author explores the history of criminology as a discipline paying particular attention to the misgivings about the body, gender, and crime. Messerschmidt shows that criminology historically has maintained in various ways the mind/body, sex/gender, and gender/difference binaries. In Part II, Messerschmidt presents a theoretical framework, structured action theory, for overcoming these binaries. This perspective allows conceptualization of embodiment as a lived aspect of gender, both gender differences and gender similarities in the commission of crime, how embodied social action is embedded in specific structural gender relations in particular settings, and how embodied social actions may be related to violence and nonviolence. The methodology for the study is also presented in Part II, which seeks to understand through life history interviews certain boys and girls use of assaultive violence as a gendered practice. Part III presents in depth life histories of four white working class boys and girls involved in assaultive violence. The two chief questions addressed in these life stories are: Why is it that some boys and some girls engage in assaultive violence, and how are these violent boys and girls similar and different? How are gender relations in specific settings such as the family, the school, and the street related to motivation for embodied violence and nonviolence by the same boys and girls? Part IV puts structured action theory to work by analyzing the three major sites: home, school, and street of the boys and girls' life histories and how these are related to assaultive violence and nonviolence.

Personal Peacefulness Gregory K. Sims, Linden L. Nelson, Mindy R. Puopolo, 2013-11-08. *Personal Peacefulness* examines the existing theories and knowledge about the peacefulness of individuals, including inner peace, interpersonal peacefulness, and peaceful attitudes towards groups and nations. It uses the term personal peacefulness to refer to the peaceful states, attitudes, and behaviors of individuals, and it discusses the phenomena and determinants of personal peacefulness in the intrapersonal, interpersonal, and intergroup domains. Also addressed is the relationship between personal peacefulness and well-being, describing various methods for enhancing the peacefulness of individuals. Within the framework of a scholarly and scientific approach to the study of personal peacefulness, various psychological perspectives are represented: personality, social, clinical, and positive psychology perspectives; peacefulness as nonviolence; attachment theory and the development of affect regulation; a human needs theory approach; Buddhist conceptions of compassion and mindfulness; a natural science perspective describing physiological foundations for personal peacefulness; phenomenological perspectives; and peacefulness as the promotion of conflict resolution. The book is an important resource for scholars, researchers, and educators in psychology, political science, and in a variety of other areas who study and teach topics such as empathy, prosocial behavior, personality, psychological well-being, mental health, personal development, peace, and conflict and conflict resolution.

Instead, we have increased the lethality of our combat through revolutions in weapons technology and military training." The *Encyclopedia of Violence, Peace, and Conflict* is designed to help us to take stock of our knowledge concerning these crucial phenomena. Ten years on, the need for an authoritative and cross-disciplinary approach to the great issues of violence and peace seems greater than ever.
