Social Construction Of International News Were Talking About Them Theyre Talking About Us:

The Social Construction of International News Philo C. Wasburn, 2002-11-30 Wasburn compares U S commercial news reports on a wide variety of events with those produced by the news media of several other nations The events include the Falklands War the Iran Iraq War the Tiananmen Square Uprising several political assassinations major trade disputes between the U S and Japan the Intifada U S presidential nominating conventions and a presidential inauguration Different patterns of coverage amount of attention given an event language used to describe an event selection of particular occurrences to characterize an event and descriptions of U S and international public opinion of the event are shown to reflect different political economic and strategic interests of nations historical contexts in which news was constructed national differences in values that influence the production of news and differences in historically specific relations between news media and the governments of their countries Attention is given to contrasts between the national image of the United States constructed by U S commercial news media and the images of the United States produced by various foreign news media This book will be of particular interest to scholars students and researchers involved with political communication journalism political science and political sociology

Your Country, Our War Katherine A. Brown, 2019-02-01 Based on extensive fieldwork in Afghanistan and eight years of interviews this book reviews the dynamics between Afghan and U S journalists and the global diplomatic power of the American press within the context of the post 9 11 era

Alternative and Mainstream Media Linda Jean Kenix, 2011-11-01 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Historically alternative media have been viewed as fundamental albeit at times culturally peripheral forces in social change In this book however Kenix argues that these media do not uniformly subvert the hierarchies of access that are so central to mainstream media in fact their journalistic norms and routines have always been based on the professional standards of the mainstream Kenix goes on to posit the perception of mainstream and alternative as a misconception She argues that although alternative media can and do construct distinct alternative communications they have always existed on the same continuum as the mainstream and the two will continue to converge Through comparative analysis this book argues that many alternative and mainstream media are merging to create a continuous spectrum rooted in commercial ideology Indeed much of what is now considered alternative media actually draws very little from principles of the independent press whereas many contemporary mainstream media now use communication techniques more commonly associated with media that do not operate for financial gain This book puts forward a controversial but convincing argument around the relationship between alternative and mainstream media drawing on examples from the UK US Australia and New Zealand to strengthen and develop the central premise

Gatekeeping Theory Pamela J. Shoemaker, Timothy Vos, 2009-09-10 Gatekeeping Theory examines the process by which the billions of messages that are available in today s media world get cut down and transformed into the hundreds of

messages that reach a given person on a given day **Terrorism and the Politics of Fear** David L. Altheide, 2017-06-27

This thoughtful text demonstrates how the mass media constructs a politics of fear in the United States Using a social interactionist perspective the chapters examines such issues as the expansion of surveillance on the Internet the construction of a terrorism fighting hero to promote patriotism the use of social media by terror groups the fear of the other fostered by the refugee crisis and western radicalization as well as the mass mediated reaction to recent terrorist attacks Also covered are the politics of fear involving disease Ebola Zika social control efforts and harsh attacks on American governmental officials for not keeping people safe from harm All chapters in this new edition have been updated with descriptions and relevant analysis of significant events including two Israeli Hamas wars terrorism attacks e g Boston Marathon Charlie Hebdo San Bernadino etc global reactions often hostility to refugees in the United States and especially Europe the development of ISIS surveillance Wiki Leaks Snowden NSA and the growing significance of social media The text explains how the social construction of fear is used to steer public and foreign policy arguing that security policies to protect the citizenry from violence have become control systems that most often curtail privacy and civil liberties Qualitative Media Analysis David L. Altheide, Christopher J. Schneider, 2013 Qualitative Media Analysis **Occidentalism in Iran** Ehsan Bakhshandeh, 2016-09-29 Negative portrayals of the West in Iran are often centred around the CIA engineered coup of 1953 which overthrew Prime Minister Mohammad Mosaddeq or the hostage taking crisis in 1979 following the attack on the US embassy in Tehran Looking past these iconic events Ehsan Bakhshandeh explores the deeper anti imperialistic and anti hegemonic roots of the hostility to Westernism that is evident in the Iranian press Distinguishing between negative and outright hostile perceptions of the West which also encompasses Britain France and Germany the book traces how the West is represented as the Occident in the country s media From the Qajar period and the Tobacco protests of the late nineteenth century to the ill fated Anglo Persian Treaty of 1919 through to the 1953 coup and 1979 hostage crisis Bakshandeh highlights the various points in history when misinterpretations and conflicts led to a demonisation of the other in the Iranian media The major recent source of contention between the West and Iran has of course been the nuclear issue and the resultant regime of sanctions By examining how this and other issues have been represented by the Iranian press Bakshandeh offers a crucial and often overlooked aspect of the key relationship between Iran and the West The New Global Insecurity Fathali M. Moghaddam, 2010-01-22 A noted conflict expert shows how accelerating globalization is causing dangerous global insecurity that must be met by new security models and policies The New Global Insecurity How Terrorism Environmental Collapse Economic Inequalities and Resource Shortages Are Changing Our World explores insecurity arising out of accelerating globalization In this unique and forward thinking work psychologist Fathali M Moghaddam director of the Conflict Studies Program at Georgetown University explains how and why worldwide insecurity is rising and what steps we must take to quell or reverse that insecurity to make the future of the world more peaceful The book first analyzes the

elements and roots of global insecurity discussing it in relation to terrorism torture economic instability threatened identity and religious fundamentalism It then puts forward a new model for understanding security wherein soft security capital serves as the enabling condition for hard security capital Finally the current policies for managing diversity multiculturalism and assimilation are both rejected in favor of an exciting new policy omniculturalism Drawing on his years of study and expertise Moghaddam likewise proposes a new policy for better managing intergroup relations in an insecure age

Reframing 9/11 Jeff Birkenstein, Anna Froula, Karen Randell, 2010-05-13 A collection of analyses focusing on popular culture as a profound discursive site of anxiety and discussion about 9 11 and demystifies the day s events Human Rights and Media Diana Papademas, 2011-10-17 Volume VI on Human Rights and Media introduces and analyzes the significant relationship and discourse of human rights and media As agenda setters framers and integral actors in human rights movements various forms of media are analyzed by the contributing authors *The Deliberative System and Inter-Connected Media in Times of Uncertainty* Rousiley C. M. Maia, Gabriella Hauber, Tariq Choucair, 2023-04-28 Adopting a systemic perspective this book explores media based communication and reason giving as a linkage process that transcends time and space Arguments reasoning perspectives and emotional concerns link elites and citizens political judgement within and across a set of interrelated arenas in the political system **"We are All Americans"** Giovanna Dell'Orto, 2004

American Journalism and International Relations Giovanna Dell'Orto, 2013-03-29 American Journalism and International Relations argues that the American press disengagement from world affairs has critical repercussions for American foreign policy Giovanna Dell Orto shows that discourses created circulated and maintained through the media mold opinions about the world and shape foreign policy parameters This book is a history of U S foreign correspondence from the 1840s to the present relying on more than 2 000 news articles and twenty major world events from the 1848 European revolutions to the Mumbai terror attacks in 2008 Americans perceptions of other nations combined with pervasive and enduring understandings of the United States role in global politics act as constraints on policies Dell Orto finds that reductive media discourse as seen during the 1967 War in the Middle East or Afghanistan in the 1980s has a negative effect on policy whereas correspondence grounded in events such as during the Japanese attack on Shanghai in the 1930s or the dissolution of the Soviet Union in 1991 fosters effective leadership and realistic assessments **The Media Syndrome** David Altheide, 2016-05-05 Over the past 45 years award winning sociologist David L Altheide has illuminated how media formats and media logic affect our understanding of social issues of how political decisions are made and of how we relate to each other In this masterful summative work Altheide describes the media syndrome how these factors shape our expectations of and reactions to both public and personal events Ideal for courses on mass media and political communication the book provides a detailed description of the media syndrome and its impact on daily life uses historical and contemporary examples from Watergate to Edward Snowden includes the changes in the ecology of communication from

mass media to social media and its social impact **Political Communication** Philip Seib, 2008 Provides an overview of the landscape of political communication with material suited for both the theorist and the practically inclined This work includes contributions that cover a span of almost eighty years beginning with an article from 1927 and culminating with work from the first decade of the 21st century *Pens and Swords* Marda Dunsky, 2008-02-06 As world attention is renewed and refocused on the Israeli Palestinian conflict at the sixtieth anniversary of its seminal year of 1948 Marda Dunsky takes a close look at how more than two dozen major American print and broadcast outlets have reported the conflict in recent years Beginning with the failed Camp David summit of July 2000 through the waning of the second Palestinian uprising in the summer of 2004 she finds that the media omit two key contextual elements the significant impact that U S policy has had and continues to have on the trajectory of the conflict and the way international law and consensus have addressed the key issues of Israeli settlement and annexation policies and Palestinian refugees Dunsky explores how reports of the conflict routinely take on the contours of American policy and rarely challenge the premises of this Washington consensus She also examines the media's responses to allegations of biased coverage and gauges the effect that mainstream news reporting has on public opinion and U S foreign policy Choice, 2003 **How the World's News Media Reacted to 9/11** Tomasz Phudowski, 2007 How Did the World's News Media React to 9/11 Not surprisingly most of the world's news media criticized the terrorists and offered sympathy and support to the United States in the days right after the September 11 2001 attacks But this phase didn't last long With a week or two many of the world's news media even some in Western countries were putting some of the blame for the attacks on the United States citing its history of heavy handed politics around the world Many hoped the attacks would wake up the United States to this fact But the subsequent U S led wars in Afghanistan and Iraq dashed these hopes Today much of the sympathy and support generated from the tragedy has dissipated a replaced instead by a widespread belief that political leadership in the United States is more arrogant intransigent and self absorbed than ever This is the major theme of *How the World's News Media Reacted to 9/11* which contains 22 chapters written by scholars and experts from around the world that examine news media coverage of 9/11 from more than two dozen countries The arrogance theme isn't one that many U S politicians journalists and citizens want to hear But it's the message that the world's news media have been sending and the question now is Will U S media and politicians listen Other key highlights in this book American TV news channel news executives deliberately excluded controversial U S guests and opinions from their news coverage of 9/11 Chapter 20 Media in Australia Canada and other countries demonized Muslims and Arabs after 9/11 Chapters 18 and 21 Ordinary Arabs and Muslims in the Middle East have distorted views of the United States partly because their media do not provide all of the facts Chapter 15 but Americans too misunderstand Muslims and Arabs because U S media have failed to help Americans understand why much of the world hates their political leadership numerous chapters Measuring Media Texts and Understanding Media Effects Michael Schmierbach, 2004 **The Book Review Digest**
