mental health problems and those at risk of domestic violence for example who require intervention on their behalf to meet their housing needs Social Care and Housing argues that professionals need to be aware of the role of wider social problems in particular poor housing in reinforcing the deprivation of the lowest income groups that form the bulk of service users The contributors suggest that raising the profile of housing and welfare research within the social services and encouraging practitioners and educators to introduce a broader social context into practice would improve understanding of the relationship between housing and social care They also examine strategies for formulating coherent responses to client problems and explore the development of practice at the boundaries of social care and housing *Tackling Social Exclusion*

John Pierson, 2009-10-16 Thoroughly updated this new edition shows how social workers can combat the social exclusion experienced by service users and promote inclusion Each chapter is grounded in up to date practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today
