district became a center for commercial cultural and political activities and hence a sensitive barometer of the dramatic social changes of the period. It was here that four urban realist painters Kenneth Hayes Miller, Reginald Marsh, Raphael Soyer, and Isabel Bishop placed their images of modern new women, bargain stores, cheap movie theaters, pinball arcades, and radical political organizations as the backdrop for the women shoppers, office and store workers, and consumers of mass culture portrayed by these artists. Ellen Wiley Todd deftly interprets the painters' complex images as they were refracted through the gender ideology of the period. This is a work of skillful interdisciplinary scholarship combining recent insights from feminist art history, gender studies, and social and cultural theory. Drawing on a range of visual and verbal representations as well as biographical and critical texts, Todd balances the historical context surrounding the painters with nuanced analyses of how each artist's image of womanhood contributed to the continual redefining of the new woman's relationships to men, family, work, feminism, and sexuality.

**Flowers and Towers** Nira Tessler, 2015-11-25 This book explores the meaning and symbolism of the flower motif in the art of women artists from the nineteenth century to the present day. It begins with a discussion of the symbolic significance of the flower in canonical texts such as the Song of Songs in which the female lover is likened to a lily among the thorns and to an enclosed garden. These allegorical images permeated into Christian iconography, attaining various expressions in the plastic arts from the twelfth through nineteenth centuries. The heart of the book is a discussion of the meaning of the change in representations of the flower and at the same time the appearance of amazing images of masculine skyscrapers in the works of avant garde American women artists during the 1920s and 30s in three hubs of Modernist art: New York, California, and Mexico. Tessler explains how modernist artists of various fields of art such as Glaspell, Stettheimer, O'Keeffe, Pelton, Cunningham, Mather, Modotti, and Kahlo were aware of the religious symbolism of the flower in Judaism and Christianity and turned it into an emblem of the new modern woman with her own views of the world. *Flowers and Towers* concludes by presenting the works of contemporary feminist American artists such as Chicago and Schapiro who pay tribute to those same Modernist artists by creating a new and daring image of the flower and using feminine materials and techniques that link them as it were to their spiritual mothers.

**A New Deal for Native Art** Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America, the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples. But New Deal administrators' romanticization of indigenous artists predisposed them to favor pre-industrial forms rather than art that responded to contemporary markets. In *A New Deal for Native Art*, Jennifer McLerran reveals how positioning the native artist as a pre-modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self-sufficiency. She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts. And by unraveling the complex ways in which

commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art s commodity status and the artist s position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations A New Deal for Native Art offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal
