## **Social Construction Of American Realism:**

**The Social Construction of American Realism** Amy Kaplan, 1992-12-15 Kaplan redefines American realism as a genre more engaged with a society in flux than with one merely reflective of the status quo. She reads realistic narrative as a symbolic act of imagining and controlling the social upheavals of early modern capitalism, particularly class conflict and the development of mass culture. Brilliant analyses of works by Howells, Wharton, and Dreiser illuminate the narrative process by which realism constructs a social world of conflict and change. Kaplan offers some enthralling readings of major novels by Howells, Wharton, and Dreiser. It is a book which should be read by anyone interested in the American novel. Tony Tanner, *Modern Language Review*. Kaplan has made an important contribution to our understanding of American realism. This is a book that deserves wide attention. June Howard, *American Literature*.

**The Cambridge Companion to American Realism and Naturalism** Donald Pizer, 1995-06-30 This Companion examines a number of issues related to the terms realism and naturalism. The introduction seeks both to discuss the problems in the use of these two terms in relation to late nineteenth century fiction and to describe the history of previous efforts to make the terms expressive of American writing of this period. The Companion includes ten essays which fall into four categories: essays on the historical context of realism and naturalism by Louis Budd and Richard Lehan; essays on critical approaches to the movements since the early 1970s by Michael Anesko; essays on the efforts to expand the canon of realism and naturalism by Elizabeth Ammons; and a full scale discussion of ten major texts from W. D. Howells's *The Rise of Silas Lapham* to Jack London's *The Call of the Wild* by John W. Crowley, Tom Quirk, J. C. Levenson, Blanche Gelfant, Barbara Hochman, and Jacqueline Tavernier Courbin.

**The Cambridge History of the American Novel** Leonard

Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre by leading experts in the field.

**American Literary Realism, Critical Theory, and Intellectual Prestige, 1880-1995** Phillip Barrish, 2001-02-19 Focusing on key works of late nineteenth and early twentieth century American literary realism, Phillip Barrish traces the emergence of new ways of gaining intellectual prestige that is, new ways of gaining cultural recognition as unusually intelligent, sensitive, or even wise. Through extended readings of works by Henry James, William Dean Howells, Abraham Cahan, and Edith Wharton, Barrish emphasises the differences between literary realist modes of intellectual and cultural authority and those associated with the rise of the social sciences. In doing so, he greatly refines our understanding of the complex relationship between realist writing and masculinity. Barrish further argues that understanding the dynamics of intellectual status in realist literature provides new analytic purchase on intellectual prestige in recent critical theory. Here he focuses on such figures as Lionel Trilling, Paul de Man, John Guillory, and Judith Butler.

**Mark Twain's Ethical Realism** Joe B. Fulton, 1997 Mark Twain's *Ethical Realism* is the only work that looks specifically at how Twain blends ethical and aesthetic concerns in the act of composing his novels. Fulton conducts a spirited discussion regarding these concepts and his

explanation of how they relate to Twain's writing helps to clarify the complexities of his creative genius

**Women's Experience of Modernity, 1875-1945** Ann L. Ardis, Leslie W. Lewis, 2003-05-22 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena. Analyzing such cultural practices as selling and shopping, political and social activism, urban field work and rural labor, radical discourses on feminine sexuality and literary and artistic experimentation, this volume contributes to the rich vein of current feminist scholarship on the gender of modernism and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century. During this period, women's experience was a rallying cry for feminists, a unifying cause that allowed women to work together to effect social change and make claims for women's rights. However, it also proved to be a source of great divisiveness among women, for claims about its universality quickly unraveled to reveal the classism, racism, and Eurocentrism of various feminist activities and organizations. The essays in this volume examine both literary and non-literary writings of Jane Addams, Djuna Barnes, Toru Dutt, Radclyffe Hall, H. D., Pauline Hopkins, Emma Dunham Kelley, Amy Levy, Alice Meynell, Bram Stoker, Ida B. Wells, Rebecca West, and others. Instead of focusing exclusively or even centrally on modernism and literature, these essays address a broad array of textual materials, from political pamphlets to gynecology textbooks, as they investigate women's responses to the rise of commodity capitalism, middle-class women's entrance into the labor force, the welfare state's invasion of the working-class home, and the intensified eroticization of racial and class differences.

**A Companion to American Fiction, 1865 - 1914** Robert Paul Lamb, G. R. Thompson, 2008-04-15 A Companion to American Fiction, 1865-1914 is a groundbreaking collection of essays written by leading critics for a wide audience of scholars, students, and interested general readers. An exceptionally broad-ranging and accessible Companion to the study of American fiction of the post-civil war period and the early twentieth century. Brings together 29 essays by top scholars, each of which presents a synthesis of the best research and offers an original perspective. Divided into sections on historical traditions and genres, contexts and themes, and major authors. Covers a mixture of canonical and the non-canonical themes, authors, literatures, and critical approaches. Explores innovative topics such as ecological literature and ecocriticism, children's literature, and the influence of Darwin on fiction.

**American Studies** Jack Salzman, 1990-05-25 This volume supplements the acclaimed three-volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988. There are more than 6,000 descriptive entries in a wide range of categories: anthropology and folklore, art and architecture, history, literature, music, political science, popular culture, psychology, religion, science and technology, and sociology.

**The Factory Girl and the Seamstress** Amal Amireh, 2021-12-24 This book studies the representations of working-class women in canonical and popular American fiction between 1820 and 1870. These representations have been invisible in nineteenth-century American literary and cultural studies due to the general view that antebellum writers did not engage with their society's economic and social realities. Against this view and to highlight the

cultural importance of working class women this study argues that in responding to industrialization middle class writers such as Melville Hawthorne Fern Davies and Phelps used the figures of the factory worker and the seamstress to express their anxieties about unstable gender and class identities These fictional representations were influenced by and contributed to an important but understudied cultural debate about wage labor working women and class     *Cecil B.
