## **Social Construction Of The Korean War Conflict And Its Possibilities:**

*The Social Construction of the Korean War* Jennifer Milliken, 2001 In light of the recent declassification of state papers from Western Soviet and Chinese archives this intriguing book presents a re examination of the Korean War The authors present a revealing analysis of North Korea s decision to invade South Korea in June of 1950 Soviet and American foreign policy during the war and Chinese intervention The book also shows how the standard explanations of the war in international relations theory inherited from foundational approaches are misleading or incomplete *The Routledge Handbook of Security Studies* Myriam Dunn Cavelty, Victor Mauer, Thierry Balzacq, 2009-12-16 Pt 1 Theoretical approaches to security and different securities pt 2 Contemporary security challenges pt 3 Regional security challenges pt 4 Confronting security challenges **Routledge Handbook of Security Studies** Myriam Dunn Cavelty, Thierry Balzacq, 2016-07-01 This revised and updated second edition features over twenty new chapters and offers a wide ranging collection of cutting edge essays from leading scholars in the field of Security Studies The field of Security Studies has undergone significant change during the past 20 years and is now one of the most dynamic sub disciplines within International Relations This second edition has been significantly updated to address contemporary and emerging security threats with chapters on organised crime migration and security cyber security energy security the Syrian conflict and resilience amongst many others Comprising articles by both established and up and coming scholars The Routledge Handbook of Security Studies provides a comprehensive overview of the key contemporary topics of research and debate in the field of Security Studies The volume is divided into four main parts Part I Theoretical Approaches to Security Part II Security Challenges Part III Regional In Security Part IV Security Governance This new edition of the Handbook is a benchmark publication with major importance for both current research and the future of the field It will be essential reading for all scholars and students of Security Studies War and Conflict Studies and International Relations [Handbook of International Relations](#) Cameron G. Thies, 2025-06-09 This comprehensive Handbook provides an assessment of recent scholarship in the field of International Relations IR Cameron G Thies brings together leading scholars to explore its contested disciplinary foundations as well as the major theoretical and methodological approaches used to explain and understand IR [North Korea in Quotation](#) , 2005-06-30 Since the end of World War II the small country of North Korea has occupied a disproportionate amount of the world s diplomatic and military attention Its defiance of the international community has mystified and frustrated generations of leaders both in Asia and throughout the world With its closed borders and xenophobic leadership little is known about North Korea s government or its intentions leaving us to examine the words of the country s leaders and international statesmen analysts and journalists for a balanced critical assessment of North Korea and its relationship to the world The 20 categories covered here provide an overview of the breadth of issues facing the Northeast Asian country For each quote the speaker and his or her title are identified along with the original source of the quotation and its context Indexed by speaker

subject and keywords      **Contemporary Security Studies** Alan Collins, 2022 With unrivalled coverage of a wide range of issues from terrorism nuclear deterrence and the weapons trade to environmental security transnational crime and cyber security Contemporary Security Studies is the definitive cutting edge introduction to security studies Bringing together contributions from leading scholars it provides a student friendly guide to traditional and critical theoretical approaches as well as the most important contemporary issues that dominate the modern security field Whether you are exploring how politicians portrayed the Covid19 pandemic as a security issue or the role that popular culture plays in promoting peace a broad variety of real world case studies and examples throughout the text encourage you to question your preconceptions of security studies and to critically evaluate key approaches and ideas in the subject New to this Edition A new Chapter 13 on popular culture introduces you to this innovative approach to security studies exploring the role that it plays in shaping and understanding security related processes A revised Chapter 12 on securitization theory traces its emergence and evolution as a framework for analysis covering everything you need to know about its main concepts and criticisms Chapter 27 on transnational crime now includes coverage of the crime terror nexus the relationship between organized crime and the state and a case study focusing on Mexico Every chapter has been thoroughly updated to reflect current political issues and developments in world affairs such as the initial impact of the Covid 19 pandemic climate change and forced migration Book jacket

**Painful Choices** David A. Welch, 2011-06-27 Under what conditions should we expect states to do things radically differently all of a sudden In this book David Welch seeks to answer this question constructing a theory of foreign policy change inspired by organization theory cognitive and motivational psychology and prospect theory He then test drives the theory in a series of comparative case studies in the security and trade domains Argentina s decision to go to war over the Falklands Malvinas vs Japan s endless patience with diplomacy in its conflict with Russia over the Northern Territories America s decision to commit large scale military force to Vietnam vs its ultimate decision to withdraw and Canada s two abortive flirtations with free trade with the United States in 1911 and 1948 vs its embrace of free trade in the late 1980s Painful Choices has three main objectives to determine whether the general theory project in the field of international relations can be redeemed given disappointment with previous attempts to reflect on what this reveals about the possibilities and limits of general theory and to inform policy Welch argues that earlier efforts at general theory erred by aiming to explain state behavior which is an intractable problem Instead since inertia is the default expectation in international politics all we need do is to explain changes in behavior Painful Choices shows that this is a tractable problem with clear implications for intelligence analysts and negotiators

*Security as Practice* Lene Hansen, 2013-04-03 This important text offers a full and detailed account of how to use discourse analysis to study foreign policy It provides a poststructuralist theory of the relationship between identity and foreign policy and an in depth discussion of the methodology of discourse analysis Part I offers a detailed discussion of the concept of identity the intertextual relationship between official foreign policy discourse

and oppositional and media discourses and of the importance of genres for authors ability to establish themselves as having authority and knowledge Lene Hansen devotes particular attention to methodology and provides explicit directions for how to build discourse analytical research designs Part II applies discourse analytical theory and methodology in a detailed analysis of the Western debate on the Bosnian war This analysis includes a historical genealogy of the Western construction of the Balkans as well as readings of the official British and American policies the debate in the House of Commons and the US Senate Western media representations academic debates and travel writing and autobiography Providing an introduction to discourse analysis and critical perspectives on international relations this book will be essential reading for students and scholars of international relations discourse analysis and research methodology

### **Sino-US Relations and the Role of Emotion in State Action** T. Shepperd,2015-12-04 Examining

twenty first century relations between the US and China Shepperd investigates three well publicised crises between these states highlighting how social interests relating to identity and emotional needs were key dynamics driving these interactions and their transformation

### **Truman, Congress, and Korea** Larry Blomstedt,2016-01-08 Three days after North Korean

premier Kim Il Sung launched a massive military invasion of South Korea on June 24 1950 President Harry S Truman responded dispatching air and naval support to South Korea Initially Congress cheered his swift action but when China entered the war to aid North Korea the president and many legislators became concerned that the conflict would escalate into another world war and the United States agreed to a truce in 1953 The lack of a decisive victory caused the Korean War to quickly recede from public attention However its impact on subsequent American foreign policy was profound In Truman Congress and Korea The Politics of America s First Undeclared War Larry Blomstedt provides the first in depth domestic political history of the conflict from the initial military mobilization to Congress s failed attempts to broker a cease fire to the political fallout in the 1952 election During the war President Truman faced challenges from both Democratic and Republican legislators whose initial support quickly collapsed into bitter and often public infighting For his part Truman dedicated inadequate attention to relationships on Capitol Hill early in his term and also declined to require a formal declaration of war from Congress advancing the shift toward greater executive power in foreign policy The Korean conflict ended the brief

period of bipartisanship in foreign policy that began during World War II. It also introduced Americans to the concept of limited war which contrasted sharply with the practice of requiring unconditional surrenders in previous conflicts. Blomstedt's study explores the changes wrought during this critical period and the ways in which the war influenced US international relations and military interventions during the Cold War and beyond. 2001 Massimo Mastrogregori, 2011-08-02. Annually published since 1930, the International Bibliography of Historical Sciences (IBOHS) is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times. The works are arranged systematically according to period, region, or historical discipline and within this classification alphabetically. The bibliography contains a geographical index and indexes of persons and authors.

**Constructing America's Freedom Agenda for the Middle East** Oz Hassan, 2013. This book explores how George W. Bush's Freedom Agenda for the Middle East and North Africa was conceived and implemented as an American national interest from the Bush era right through to the initial stages of the Obama administration. It highlights how the crisis presented by September 11, 2001 led to regime change in Afghanistan and Iraq but more broadly how American policy towards the region had a softer imperial side which drew on broader economic theories of democratisation and modernisation. The Freedom Agenda contained within it a prescribed method of combating terrorism but also a method of engaging with and reforming the entire Middle East region more broadly with many institutions seeking to use the opportunity to implement neo-liberal market logics in the region. Constructing America's Freedom Agenda for the Middle East highlights the particular understanding of freedom that underpins America's imperial project in the region, a project trapped between a policy of democratisation and domination. This book analyses the Freedom Agenda in significantly more depth than in available current literature and would be of interest to students and researchers of global politics and international foreign policy of recent years.

**US Taiwan Policy** Øystein Tunsjø, 2008-02-18. The relationship between the United States and China is one of the most important issues in the twenty-first century and is ultimately hostage to conditions across the Taiwan Strait. This book is the first to attempt to trace the historical origin of what is known as the Taiwan issue in US-China relations from a constructivist perspective based on detailed archival research. The analysis used supplements the mainstream rationalist approach by developing a new theoretical perspective on US Taiwan policy that incorporates constructivism's emphasis on identity, norms, and discourse analysis. Scholars have never previously developed or elaborated upon this approach to any significant extent. The book re-examines the protection of Taiwan by military means following the outbreak of the Korean War and the establishment of the one-China policy in relation to the process of rapprochement during President Nixon's first term in office. It also considers the contemporary challenges posed to the one-China policy by the increased importance of promoting human rights and democracy in US foreign policy, arguing that the current US-China policy is guided by a new strategy based on engagement plus hedging.

The Postwar Legacy of Appeasement R. Gerald

Hughes,2014-01-16 Focusing on the Cold War and the post Cold War eras R Gerald Hughes explores the continuing influence of Appeasement on British foreign policy and re evaluates the relationship between British society and Appeasement both as historical memory and as a foreign policy process The Postwar Legacy of Appeasement explores the reaction of British policy makers to the legacies of the era of Appeasement the memory of Appeasement in public opinion and the media and the use of Appeasement as a motif in political debate regarding threats faced by Britain in the post war era Using many previously unpublished archival sources this book clearly demonstrates that many of the core British beliefs and cultural norms that had underpinned the Chamberlainite Appeasement of the 1930s persisted in the postwar period Constructions of European

Identity Senem Ayd?n-Düzgit,2012-12-15 This book examines EU discourses on Turkey in the European Commission European Parliament and three EU member states France Germany and Britain to reveal the discursive construction of European identity through EU representations of Turkey Based on a poststructuralist framework that conceptualizes identity as discursively constructed through difference the book applies Critical Discourse Analysis to the analysis of texts and argues that there are multiple Europe s that are constructed in talks over the enlargement of Turkey varying within and between different ideological national and institutional contexts The book discerns four main discourse topics over which these Europe s are constructed corresponding to the conceptualization of Europe as a security community as an upholder of democratic values as a political project and as a cultural space The book argues that Turkey constitutes a key case in exploring various discursive constructs of European identity since the talks on Turkey pave the way for the construction of different versions of Europe in discourse **The International in Security, Security in the International** Pinar

Bilgin,2016-07-15 International Relations continues to come under fire for its relative absence of international perspectives In this exciting new volume Pinar Bilgin encourages readers to consider both why and how non core geocultural sites allow us to think differently about key aspects of global politics Seeking to further debates surrounding thinking beyond the West non West divide this book analyzes how scholarship on and conceptions of the international outside core contexts are tied up with peripheral actors search for security Accordingly Bilgin looks at core periphery dynamics not only in terms of the production of knowledge in the production of IR scholarship or material threats but also peripheral actors conceptions of the international in terms of standard of civilization and their more contemporary guises which she terms as hierarchy in anarchical society The first three chapters provide a critical overview of the limits of our theorizing about IR and security as well as a discussion on the track record of critical approaches to IR and security in addressing those limits The following three chapters offer one way of addressing the limits of our theorizing about IR and security by inquiring into the international in security security in the international Each of these chapters makes a theoretical point and illustrates this further in a spotlight section that further illustrates the point to aid student learning A genuinely innovative contribution to this rapidly emerging field within IR this book is essential reading for students and scholars of critical security international
