The Austrian Achievement 1700 1800:

The Austrian Achievement, 1700-1800 Ernst Wangermann, 1973 The Habsburg Monarchy, 1490-1848 Paula Sutter Fichtner, 2017-03-07 The Habsburg monarchy was a singular experiment in diversity within the European continent By the eighteenth century it stretched from the Austrian Netherlands to the Balkans and southern Poland and south into Italy Its subjects spoke a number of languages and while the social and institutional structure of these lands shared common features there were also substantial differences among them Was the Habsburg monarchy therefore an empire like those of Great Britain France or Spain Drawing upon modern theoretical perspectives on European expansion to answer this question Paula Sutter Fichtner argues that the Habsburg holdings did indeed constitute a form of European imperialism and that they are best understood in such terms The Habsburg Monarchy 1490 1848 Examines the role of the interaction between Habsburg rulers territorial estates and religious institutions in the expansion of the empire Explores the reorientation of these relationships under the impact of the European Enlightenment the rationalization of dynastic government under Empress Maria Theresa and her son Joseph II the beginning of the Industrial Revolution and the rise of nationalism Assesses the effect of the Revolutions of 1848 on the strength of the connections between the crown and its nobles as well as its ties to its ecclesiastical elites and the bourgeoisie Discusses the parallel developments in cultural affairs as the coherence of a world outlook dominated by Catholicism gave way to linguistic and cultural particularism Incorporating the latest research this broad ranging study is an essential guide to one of Europe s most powerful and important dynasties Enlightened Absolutism H.M. Scott, 1990-03-05 Each book in this series is designed to make available to students important new work on key historical problems and periods that they encounter Each volume devoted to a central topic or theme contains specially commissioned essays from scholars in the relevant field These provide an assessment of a particular aspect pointing out areas of development and controversy and indicating where conclusions can be drawn or where further work is necessary while an editorial introduction reviews the problem or period as a whole In this text the contributors assess reform and reformers in late 18th century Europe covering such topics as Catherine the Great the Danish reformers the Habsburg Monarchy and events in Spain and Italy *Joseph II: Volume 1, In the Shadow of Maria Theresa, 1741-1780* Derek Beales, 2008-05-15 This volume describes the claustrophobic atmosphere in which Joseph was trained to rule and his attempts after 1765 as co regent with his formidable mother **Speculative Freemasonry and the Enlightenment** R. William Weisberger, 2017-10-13 Freemasonry began with stonemasons in the Middle Ages experiencing the decline of cathedral building Some guilds invited honorary memberships to boost their numbers These usually highly educated new members practiced symbolic or speculative Freemasonry The new Masonic lodges and learned societies offered their growing numbers of Protestant Catholic and Jewish members an understanding of deism Newtonian science and representative government and of literature and the fine arts This work describes how Masons on both sides of the Atlantic were mostly either

enlighteners political reformers or moderate revolutionaries They offered minimal support to radical revolutionary ideas and leaders

The Seven Years War in Europe Franz A.J. Szabo, 2013-11-05 In this pioneering new work based on a thorough re-reading of primary sources and new research in the Austrian State Archives Franz Szabo presents a fascinating reassessment of the continental war Professor Szabo challenges the well established myth that the Seven Years War was won through the military skill and tenacity of the King of Prussia often styled Frederick the Great Instead he argues that Prussia did not win but merely survived the Seven Years War and did so despite and not because of the actions and decisions of its king With balanced attention to all the major participants and to all conflict zones on the European continent the book describes the strategies and tactics of the military leaders on all sides analyzes the major battles of the war and illuminates the diplomatic political and financial aspects of the conflict

Antonio Salieri and Viennese Opera John A. Rice, 1998 Bringing Salieri his operas and eighteenth century Viennese theater vividly to life Rice places Salieri where he belongs no longer lurking in Mozart's shadow but standing proudly among the leading opera composers of his age Rice's research in the archives of Vienna and Budapest and close study of the scores reveal Salieri to have been a prolific versatile and adventurous composer for the stage Countering the old view of Salieri as Mozart's mortal enemy with musical evidence suggesting that

Mozart and Salieri learned from and respected one another Rice argues that Salieri's operatic innovations paved the way for some of Mozart's most remarkable achievements A generous selection of excerpts from Salieri's works most previously unpublished will give readers a fuller appreciation for his musical style than was previously possible **Early Modern European History, C.1492-1788**, 1983 *Europe, 1780-1830* Franklin Lewis Ford, 1989 Europe 1780-1830 rapidly established itself as a standard introduction to European history in the age of the French Revolution and its aftermath when it first appeared Now for the first time the book has been fully revised updated and expanded The half century covered constitutes one of the most complex eventful and rapidly changing of any in Europe's history It is a period whose emphasis on conflict and political crisis combines daring innovation with the stubborn persistence of many older attitudes and patterns of human behaviour Professor Ford explores these tensions throughout and he gives his readers a powerful sense of the extraordinary energy in every aspect of human activity that characterised the time **Soviet, East European & Slavonic Studies in Britain**, 1973 Absees, 1975
